Breakfast foods, is bread. Bread is higher in nutritive material than any of the so-called breakfast foods and it is much

Besides bread may be served in just as many tempting ways.

Nothing is better or easier to digest than milk and bread, or bread toasted to a golden brown and spread with butter-or bread fried in egg batter.

In fact, there's nothing that can take the place of bread at any meal and there are many things that bread can take the place of.

Goetz's bread is the best, lightest and most wholesome of all foods.

SOUTH MANCHESTER NEWS FRIDAY OCTOBER 1, 1915

ago this week that we inaugurated the "Made in America" Sale, Coming as it did shortly after the opening of the great European war, when conditions were very problematical and men uncertain as to the ture, this sale struck a popular chord, and its influence was felt country-wide and the sale copied by American stores from Portland, Oregon. The main plea in our advertisement of a year ago was "BUY GOODS MADE IN AMERICA AND KEEP AMERICAN WORKERS BUSY," Since then events have moved very rapidly and America has proved its world leadership

For six days commencing tomorrow, we shall hold a "MADE IN AMERICA" SALE, featuring goods made in this country and at prices far under regular retail value, thereby continuing to do our share of keeping American workers busy

During this sale we shall give free to our customers useful and patriotic spoons as an appropriate memento

Every purchaser of \$1.00 worth or over will receive a National United States Silver Plated Spoon, may

The License Question is up Again Reasons Why You Should **NEXT MONDAY** 

Past and only recent experience has proven that when a town or state has gone no license, the Commerce and Prosperity diminishes rapidly. Many stores become vacant and many men are thrown out of employment. The town loses the regular license revenues which help to pay the cost of the municipal government, to provide for good roads, lighting and fire department, and to reduce the burdens of the taxpavers.

This has lately been proven in the town of Bristol, Connecticut. The figures submitted herewith are taken from the official reports of the various departments of Bristol, and can easily

under no license under license Cost of charitable institutions \$12,600.75 \$14,035.60 5,219.98 City Court Expenses 9,525.95 Police Department Expenses 6,582.47 \$28,781.53 Total \$22,552-57 \$6,228.96 Net loss of above departments during no license

Loss of revenue from licenses during 1914 7,076.25 \$13,305.21 Total loss to city during 1914 Revenue received from druggist licenses \$95.40. Arrests for 1912.....352 Breach of peace and ) 1914.....366 Intoxication Arrests for 1914 ..... 546 The latter shows an increase of drunkness of nearly fifty per-cent under no-license.

It is not surprising that the selectmen of Bristol have been worrying about where the revenue is to come from to pay for improvements going on in the town, and the maintenance of the above departments. There is only one answer, and that is a very much higher tax rate. By Bristol going back to license again at this election, this deficit will not only be wiped out immediately, but the revenue will be greatly increased, as the last legislature increased the amount of license fees to be paid after November 1st, 1915, from \$450. to \$750. for the very purpose of giving the towns and the state an increased revenue. The additional revenue thus obtained in Manchester will be \$3,600.00

Towns in Connecticut, such as New Britain, Torringtou, Milford that tried no-license, went back to license just as soon as the people had the opportunity to vote again. The city of Lynn, Mass. was another example of no-license, having tried it to their sorrow and loss. The large factories in that city, experienced so much trouble in keeping workmen living in the city, coupled with the loss of the revenues, the Chamber of Commerce of the city passed a vote recommending the return of the city to the lic. ense column, which was done, and has remained so ever since. The large cities of New England, such as Boston, Provi-

dence, Worcester, Springfield, Pittsfield, Lowell, Lawrence, Hol-

yoke, Fall River, New Bedford, etc., and our own neighboring

cities of Hartford, New Haven, Bridgeport, Waterbury, New Britain, Middleto vn, Willimantic, Norwich, New London, etc. are under the license system, and they are deriving the revenue from

The prohibitionists made attemps in 1907 to carry Hartford for the first time no-license. The result however, was disappointing to their hopes, the city going for license by a majority of 2038 in 1907

4669 in 1908 5354 in 1909

a good healthy increase each year in favor of license. The question has not been tried out since 1910, when the prohibitionists lost heart. These aforementioned cities are wise enough not to be deprived of their personal privileges nor to lose legitimate revenue, produced by a well regulated license system, and protect the welfare of the merchant, manufacturer, taxpayer and workingman, in having the citizens make their purchases at home, which is

not the case under no-license, In Spite of the Statements of Ill Ohire of the armiomore the Prohibitionists to the Con-

The aforementioned cities realize that alcoholic beverages under no-license are not only obtained and used just the same, but a large number of people leave the town to purchase the liqnor and then purchase other merchandise with it. Under continued no-license, the stronger drink of whiskey

and drugs take the place of beer and light wines, and drive the sale of strong drink into dives, the cellars and into homes. In the city of Weeling, W. Va., now under prohibition, a Connecticut business man who recently made a trip there, states that he was imformed by one dealer, that he collected and shipped from Wheeling weekly two car loads of empty whiskey bottles, and that across the river Bridgeport, Ohio, has suddenly grown up to a big city at the expense of Wheeling because of the license policy there. In West Virginia itself, reduced to virtual bankruptcy through prohibition, on April 1st. 1915, hundreds of school teachers had to sell their pay warrants, or had to discount them at the bank at 6 per cent, while other employees received

no salary for March. Wherever the arbitrary method of prohibition or no-license has been tried, the same story is true. Secret drinking and indulgence, with the attendant disrespect of law and decency are the natural. consequences.

Voters Consider For Yourselves And Protect the Financial, as Well as the Moral Welfare of Your Town By Voting "Yes" For License.

for further announcements of this very important production. It will be well worth your while. Grace Cunard and Francis Ford are the stars appearing in 'The Broken Coin." They will be remembered as having been seen here in the Lucille Love serial .- Advt.

The employees of the room in Cheney Brothers mills where George Dayidson was foreman for the past 23 years presented him with an oak rocker and straight back chair, both upholstered in leather. The gifts came Sat-1 urday while Mr Davidson was out. He highly appreciated this token of esteem from his fellow workers. The generous impluses which induced them to make the gift were very pleasing indeed to Mr. Davidson. They didn't send a band of music in advance to notify him that the gift was forthcoming. A simple card attached to the chairs briefly made known the fact that they were an expression of appreciation from those who had labored with him
