ART OF GIVING CHRISTMAS MONEY

With advancing years and a constantly widening family circle Christmas gift giving becomes more and more complex and Christmas shopping more of a tax. Even the least practical great-aunts and the most affectionate and sentimental grandmothers are beginning to realize that, after all, nothing is so entirely satisfactory for both giver and re-inlent as to bestow upon our young folks the "wherewithal" to gratify a heart's desire. When the desired sum is divided into

the several amounts it but remains to listribute these presents. Just bere is where we can add the dainty or scular personal touch.
