MILK INSPECTOR'S REPORT FOR NOVEMBER 1915

Eighteen samples of milk have been collected by the Milk Inspecto and sent to the State Laboratory of Middletown, Conn., for analysis.

Following are the reports of milk analysis received: No. of Bacteria Fat Refrac- Per Cent.

Bacteria below 10,000 per c. c. indicates milk of very good quality.

Bacteria from 10,000 to 50,000 per c. c. indicates milk of good quality.

Bacteria from 50,000 to 100,000 per c. c. indicates milk of fair quality.

Bacteria from 100,000 to 500,000 per c. c. indicates milk of unsatisf

quality.

Bacteria from 500,000 to 1,000,000 per c. c. indicates milk of bad quality. Bacteria over 1,000,000 per c. c. indicates milk of very bad quality.

When milk contains over 500,000 per c. c. it indicates that conditions are
atisfactory and should be inspected. The milk is usually too warm or has been kept too long.
Refractometer reading under 36 indicates watered milk.

Refractometer reading under 36 indicates watered milk.

In reporting dirt by pencentage an arbitrary scale is used in which 100 per cent. clean indicates no dirt. Milk drawn and shipped under clean conditions should not grade below 90 per cent.

Test for preservatives made only when especially requested.

During hot weather in the larger cities it is very difficult to keep the number of bacteria below 100,000, but they should be kept below 200,000.

This General Grade is determined by combining the figures for bacteria, fat, refractometer and dirt, 100 being a perfect score in which the fat is 4.5 per cent, or above, the bacteria below 5,000, the refractometer 37.5,07 above and the cleanliness 100 per cent.

FINAL WEEK OF THE ANNIVERSARY SALE

As this is the final week of the Big Store's Anniversary Sale, we hereby notify our patrons that ALL FREE SOUVENIRS MUST BE RE-DEEMED ON OR BEFORE TOMORROW, SATURDAY NIGHT DEC. 4. Come as early as possible and avoid the final rush.

RICH FUR COATS AND HANDSOME FUR SETS AND SINGLE PIECES

We are in a particularly fortunate position to serve you with Furs this year. Probably better than most stores in this country. With the belief in the stability of American business and with the courage to back our opinion last March and April when Furs were at their lowest prices we made very heavy purchases and you most likely know the story through the columns of the newspapers that because of the war a diminished supply and an increased demand for the Furs because of the fashion trend, that prices throughout the country have gone skyrocketing, which makes important the fact that we can serve you at the old prices. Don't buy before comparing our prices with others.

ED, LEE WROTHE NEXT WEEK as next week's attraction one of the biggest features in burlesque today. It is the Watson and Wrothe show in which the comedians are "Sliding" Billy Watson and Ed. Lee Wrothe. The former has never been seen in Hartford and is not to be

confounded with the Billy Watson of Beef Trust" fame. He is one of the big hits of the borlesque stage and in one part of the show he i featured as "The Flying Dutchman" while in the other part Wrothe is estured in his famous creation of liggins", the piece being called 'Higigns at the Race Track.' The low is a Joe Hurtig production and a full of movel and structive few tures. There is a large company of sonbrettes, operatic singers, dancing experts and prize beauty singing and

Wrothe and Watson are surrounded with such burlesque celebrities as Owen Martin Hazel Woodbury, Estelle Colbret, Ethel Marmot, Jack Hotard, Al Dupont and Max Febrman. Watson was years ago a mem-Wrothe who were a sensational hit in the musical show, "Me, Him and I. He is a comedian of unusual methods which include his funny little ideas, his peculiar whistle and movelty comedy stunts galore, The snow will be found one of the ! beggest and most unique attractions (
