In all our shoe selling experience we never saw an everyday hoe that compared with the Menz "Ease" and "American Boy" in any way. The longer we sell them and the more we learn about them, the better we like them.

The upper stock in the Menz "Ease" and "American Boy is the genuine Menz "Ease" Special Process of Tannage. Its toughness and strength will surprise you and you'll say it's the best leather you ever saw for everyday shoes because it's as soft and pliable as a glove even after months of hardest service. No shoe can be made better, stronger or to wear longer for farm wear, for railroad men, or for men in all kinds of heavy work, and in boys scout wear and every day service which boys give them the hardest kind of wear.

of successful work and a blessing to the community. It has been the direct means of helping 139 patients and 1 spending over \$12,795 in caring for those afflicted with pulmonary No Shortage or High Prices trouble. The association is trying as far as it possibly can, to prevent the has two camp tents, and two window

gives will be doubled by the firm. (Cheney Brothers) and in turn it will be utilized for him or his neighbor. A collection is now in progress and it is expected that enough of money will be realized to take care of the sick for a year. If every person working for the firm were to give at the rate of one cent (.01) per week

the amount would be sufficient to carry on this good work. It is earnestly expected that the generosity of the past will continue, for the association needs the hearty support of the whole community, because it touches everybody. It's that kind deed, that thoughtful word and the little we give, that helps smooth out those lines of worry and sickness. for remember we pass this way but once. William J. Remig, chairman,

In accordance with a recent vote taken by the Tuberculosis Free | Bed Fund Association of Chency Brothers. it has been determined to prolong the good work of that association, to take a new and firmer grasp of affairs and to do everything possible to perpetuate the beneficent mission of this truly worthy organization. For eight years the association has been carrying aid and comfort to scores of distressed people in this community and its timely assistance has been felt and appreciated. It has done much to soothe the sorrowing and to bring practical help to the afflicted and distressed. Its ministrations have been as welcome as those of a guardian angel. Time and time again when no other available means were in sight this organization has stretched forth its hand to help the weak and weary and bid them be of good cheer. It has lightened the sufferings of many an unate and removed the dread-

aged, undetected, to pass the dough around the key that opened the lock of his own cell; in an instant he had the coveted impression.

A bell warned the jailer that the visitor's time was up. In parting, the confederates shook hands. As they did so, Spike slipped the dough, unobserved, into Seagrue's paim and succeeded in conveying to him by signs an intimation of what he had given him.

Capelle, who had arrived on Seagrue's permptory summons, at the appointed place, some distance from the jail, awaited Seagrue there with a grin: "Some expedition you've embarked on!"

All so.

Though her resolution had been that been charged with the tidewater, had been charged with the sinews of the tidewater, had been charged with the stations to the second car. The trianmen hastened into the station to the operator and gave the stairm. The operator telephoned a message that of the operator and gone over to the second with the sinews of warms an intimation of what he had given him.

Capelle, who had arrived on Seagrue's peremptory summons, at the appointed place, some distance from the jail, awaited Seagrue there with a grin: "Some expedition you've embarked on!"

The operator telephoned a message that caught the sinews of warms and took so lively an interest in it that he personally direct much of the work. Moreover, he made it a point to keep his crews well supplied with the sinews of warms and took so lively an interest in it that he personally direct much of the work.
