Paper Famine and High Prices ed.

(From Manufacturers Record, The price of paper, which has past quarter of a century for busi- entering the tile and this overflow The price of paper, which has advanced from 100 to 200 per cent. or more over prices prevailing a year 1,068.17 ago, sariously threatens the life of a large number of publications through 5,60 out the country and greatly lessens 6 00 the profit of others.

The price of paper, which has advanced from 100 to 200 per cent. or mess reasons; but the commonness of the seeds and the growing inaccept iblity of them at last did the business. This shows how greed and the large number of publications through tack of bonor finally defeats itself.

A great many good man have had the profit of others.

The price of paper, which has advanced from 100 to 200 per cent. or mess reasons; but the commonness of the building lots in that vicinity and cause damage. It would also be the means of washing away the culvert under the street and flooding the street which would certainly spreadover several of the building lots in that vicinity and cause damage. It would also be the means of washing away the culvert under the street and flooding the street which would certainly spreadover several of the building lots in that vicinity and cause damage. It would also be the means of washing away the culvert under the street and flooding the street which would certainly spreadover several of the building lots in that vicinity and cause damage. It would also be the means of washing away the culvert under the street and flooding the street with the building lots in that vicinity and the building lots in that vi

the profit of others.

It is doubtful if any other large industry in the United States has had to face so serious a situation, because when prices of raw materials have advanced the manufacturers of the states have and try and settle the controversey. finished product have advanced their prices and thus thrown the burden on the ultimate consumer. In the newspaper business this has not yet been done. The newspapers, from the largest dailies to the smallest 7.00 weeklies, have been bearing the burden which to many publications.

One of the peculiar incidents in relation to the work is the fact that the town's highway department sold the tile to the property owner at about one-half of the present price of tile, owing to the fact that the tile was broken and of little use to the price of tile, owing to the fact that the tile was broken and of little use to the price of tile, owing to the fact that the tile was broken and of little use to the price of tile, owing to the fact that the tile was broken and of little use to the price of tile, owing to the fact that the tile was broken and of little use to the price of tile, owing to the fact that the tile was broken and of little use to the price of tile, owing to the fact that the tile was broken and of little use to the price of tile, owing to the fact that the tile was broken and of little use to the price of tile, owing to the fact that the tile was broken and of little use to the price of tile, owing to the fact that the tile was broken and of little use to the price of tile, owing to the fact that the tile was broken and of little use to the price of tile, owing to the fact that the tile to the property owner at about one-half of the present price of tile, owing to the fact that the tile to the property owner at about one-half of the present price of tile, owing to the fact that the tile to the property owner. advanced the manufacturers of the or a glad hand when they met him.
