The Story of Ruth and Boaz and True

Human Kindness The book of Ruth is the greatest pastoral idyl in literature. It is founded, according to the Christian Herald, on loving kindness, the loving kindness of the Monbites revealed to her family and the loving kindness of Boaz, the wealthy Israelite, to Ruth, his kinswoman. It also contains the germ of that great heartedness which is the center of the gospel of Christian love. It is a book that opens with tears and famine and ends with the sound of wedding bells. The story turns upon the straightforwardness of Boaz, who showed kindness and manliness to Ruth, a member of a nation that was Israel's foe, and in that kindness founded a new house, the house of Jesse and David, the royal line that begat a

Was the European war promised by the Democratic party? Yet without that war American industry would be prostrate today.

Our prosperity is based upon the misfortunes of the world.

Until the accident of war made the United States the storehouse of the world. American industries were facing ruin, and thousands of laboring men were out of employment or working half time. Democratic policies were responsible for this condition.

The war will end, but the changing policies of the Democratic party will continue. Those policies never have insured and never will insure the stability of American industry, and the protection of American labor.

"Now that Govenor Hughes has retired politics and ascended to a place on the highest tribunal in the world, the fact can be acknowledged without hurting anybody's political corns, that he was the greatest friend of labor that ever occupied a governor's chair at Albany." From the October, 1910 issue of the Legislative News, the recognized organ of labor on legislative matters in New York State.

"What ground is there for expecting better conditions when the unhealthy stimulus of the war has spent its force and our industries and our working men are exposed to the compelition of energized Europe?"--Charles E. Hughes speech of acceptance.

DO YOU remember, Mr. Workingman, industrial conditions that obtained throughout the country FOR THE SIXTEEN MONTHS immediately preceding the outbreak of the great European war following the inauguration of Woodrow Wilson, as President of the United States, and the turning over of the destinies of the nation to the Democratic party?

Do you recall, Mr. Railroad Employe, those thousands upon thousands of empty freight cars that congested the sidings of every railroad in the country, and the additional thousands of white leaded locomotives standing like the shrouded ghosts of good times at the various terminals?

Do you further recollect the hundreds of thousands of your fellow workingmen who, during this period, were working short time, or not working at all, the bitter pinch of retrenchment that gripped at the heart strings of every workingman's household when the echo of the overcrowded bread line reverberated from the Atlantic to the Pacific, and from the Canadian Border to the Rio Grande?

Did it ever occur to you that whatever prosperity the county at present enjoys, is due entirely to the effects of the great European war, and not to the wisdom, statesmanship, or foresight of the present administration at Washington? Are you further aware that 60 per cent of the export trade

of the United States during the first ten months of this war was made up entirely of War Munitions? "And where are YOU going to be when the war babies die

and business slips back to a cold, hard, normal basis?" And, has the Underwood tariff law, as enacted by the present Democratic Administration, reduced the expenses

of your household? It was under Republican administration that the safety appliance act was passed, which provided a greater safeguard for railroad employes. A Republican administration also amended the safety appliance act in such a way as to provide a greater degree of protection to safety appliances than was formerly

The Republican administration was also responsible for the passage of the hours of service act, which prevents employes from becoming unduly exhausted through working hours of labor that were excessive. The Employers Liability Act of 1916 was passed during a Republican administration.
