In Signaling The Operator

When you desire to recall the operator for one reason or another don't "jiggle the hook" up and down.

When the hook is all the way up it forms a contact that causes a lamp in front of the operator to light. Unless this contact is made the lamp does not light and the operator has no way of knowing you wish to reach her. When you "jiggle the hook" rapidly the chances are against this operation being completed, the operator gets no signal and you fail

venus seemed to warrant this recognition. In 1789 Washington ordered a day of thunksgiving for the adoption of the Federal constitution. Subsequently various days in November were recommended by presidents and governors until, in 1803, the regular observance of a national Thanksgiving day was instituted through a proclamation of President Lincoln. The president's proclamation does not make t a national holiday. It applies legally only to the District of Columbia and be territories. It is the governors' oroclamations that affect the states. The day is observed in all states, but in some it is not a statutory holiday. Thursday was originally selected by the Pucitans probably because, being car the middle of the week, it gave pportunity for the scattered members of the family to come together and to ceturn without descerating the Salboth by travel. November was selerted as the month when the fall har vests were all gathered. In Signaling The Operator

When you desire to recall the operator for one reason or another don't "jiggle the hook"

When the hook is all the way up it forms a contact that causes a lamp in front of the operator to light. Unless this contact is made the lamp does not light and the operator has no way of knowing you wish to reach her.

When you "jiggle the hook" rapidly the chances are against this operation being completed, the operator gets no signal and you fail to get the operator.

Therefore, move your hook slowly up and
