MATHIAS SPIESS INJURED IN HARTFORD

While attempting to board a trolley on State street in Hartford at 10:30 Monday afternoon, Mathias Spiess of West Chester street, was footing and was thrown to the concrete street.

Dr. Sheldon and Dr. Moore made an X-ray examination of Mr. Spiess' leg Wednesday evening in order to determine what the extent of the injuries were.

Home For Thanksgiving

Among those home from college are: Walter Behndorf of Main street from Pratt Institute of Brooklyn, N. Y.; Raymond Johnson of Hartford road, from the Boston Law School of Boston, Mass.

Dr. Shaw said that she had been engaged in the equal suffrage contest for a period of forty years, that she had never expected to see this day to live long enough to see this dream of her youth become a reality.

EQUAL SUFFRAGISTS DISCRIMINATED AGAINST

At the conclusion of the lecture given by Dr. Anna Howard Shaw at High School Hall last Monday evening Howard Cheney, chairman of the Franchise District Committee informed the officials of the South Manchester Equal Franchise League that in taking a collection that evening they had violated the rules under which the league had been permitted to organizations, and as a result of that action the Equal Franchise League would be debarred from further use of the hall.

The officers of the league say that they are not aware of the existence of such a rule, as it has not been made public through the press or otherwise in so far as they know.

Investigations made by the league reveal the fact that the High School hall has recently been let to other organizations without charge. They name recent meetings held there under the auspices of the Educational Club of the Connecticut Club, of the Chamber of Commerce and of the Country Club.

WORKING NIGHTS
IN SILK MILLS

Owing to the unusual demands of the "throwing department" in the Chemung Brothers silk mills it has become necessary to operate that department day and night. The throwing department is engaged in the task of providing stock for the weaving frames and it was found that with the ordinary day force the throwing department could not keep up with the demands of the looms. Overtime has been going on for quite a while past in some of the weaving departments and this fact caused a shortage of stock from the throwing department. During the daytime women are employed in the throwing department, but the work at night is done by young men. The velvet department and other departments have been unusually busy and were obliged to work overtime. The general rule of work in the silk mills for some time past has been six hours a day, the day terminating at five o'clock in the afternoon. The demand for velvets and certain silks however, have been so great that it was impossible to fill orders by limiting the time of production to nine hours. For quite a while past overtime has been the rule in the velvet departments. This extension of all night service in the throwing department is the first that has ever been known in that branch of the business in South Manchester.

Attempted Burglary

Early Tuesday morning George W. Cheney, son of Wells W. Cheney of Hartford road, was aroused from his slumbers by the efforts of a man who was trying to effect an entrance into the residence by means of prying up a window. Mr. Cheney saw that there were two men in the party. When they were discovered they hastily departed. Mr. Cheney telephoned to police headquarters and Captain William R. Campbell and Officer Samuel Robinson came to the scene. They made a careful search but found no one. William F. Martin, who serves as a special patrol officer for Cheney Brothers around their mills was called in and he found a paper bag containing some doughnuts. This was the only trace left by the unwelcome intruders. Wells W. Cheney is presently in Florida and his son, George, spends his nights at the homestead. It is claimed that he was entertaining a friend Monday night when the attempted invasion was made.

Housing Homeless

The work of securing a housing place for unfortunate who chance into town and are unable to pay for a night's shelter at the Inns or boarding houses is being erected at the rear of the town hall. It is a one-story structure of concrete, 12 feet square having concrete roof. Two rows of banks are being constructed around the sides of the building. Steam heat is to be provided from the boiler in the town hall. It is expected that there will be room for twelve men in the banks. There will be up bedding furnished. The walls and floor being of concrete it will not be difficult to keep the premises in a sanitary condition. The banks will be made of wood. It is deemed better to have this housing population secretly housed at night in a place where they will be sheltered from storm and severe cold, rather than permitting them to roam at will about town seeking resting places in barns or outbuildings generally. The houses are confined for the reason that it is deemed advisable to encourage men to live in homes or to find this a place supplying more than necessary accommodations.

Johnston—Fairbanks

Errett L. Johnston of Center street and Miss Gladys Fairbanks of Hudson street were married several weeks ago but did not let their friends know the secret until this week. Miss Fairbanks is the daughter of Harry and Mrs. Fairbanks and several weeks ago, she was a member of the South Manchester High School class of 1917.

Obble gutters

Obble gutters are being laid on both sides of Hamlock street and the road is being brought to the grade level of the new sidewalks which were recently laid on that thoroughfare, as noted in the columns of The News several weeks ago. It will be recalled that the property owners here the express of the concrete sidewalks in fall. They needed the sidewalks and by volunteering to pay for same they managed to have the improvements made, much to the comfort of all pedestrians who choose to travel that way to and from their work in the silk mills, or otherwise.

COAL IS HIGH and THEY SAY IT MAY GO HIGHER

The Answer is—Burn SOCONY KEROSENE

A gallon of SOCONY Kerosene costs from 10 to 15 cents. Burned in a Perfection Smokeless Oil Heater, it will provide ten hours of clean, odorless heat—more than enough to warm comfortably any ordinary room. There's small comfort in 10 or 15 cents worth of coal these days.

A Perfection Oil Heater is on when you want it and off when you don't.

But the furnace keeps right on merrily burning—the dollars whether you want it or not!

You can't put it out with a turn of the wrist—as you can a Perfection Oil Heater.

You can't light it in a jiffy if there comes a cold snap—as you can a Perfection Oil Heater.

The Perfection is solid, substantial, self-respecting—it doesn't smoke, smell or get out of order—or dirty up the house with ashes. It is as inexpensive to buy as it is to use.

SOCONY heat is clean heat. See that your dealer delivers SOCONY Kerosene and you won't have any trouble with your lamps, stoves and heaters.

SOCONY Kerosene is the trademarked name of the Standard Oil Company of New York's best grade of refined oil. See that you get SOCONY and no other. Look for the SOCONY Sign at your grocer's.

equal suffrage and said they were not arguments at all. She said that if we are to have a government of the people, by the people and for the people that government could not be conducted by one-half of the people. Women are people and are about one-half of the people. Therefore, they are entitled to all the rights and privileges belonging to men. This government can not exist under a one-sided arrangement such as present suffrage at the present time. Dr. Shaw said she did not care how equal suffrage was granted, whether it came as an amendment to the national constitution or as amendments to the laws of the several states, the main thing was to have it come. DESPERATELY YOUR HOME An Expert Tells You How to Freshen Up Your Walls After the Summer Vacation So They Give Cheer and Comfort For Wintery Months Just Ahead.

Dinner THE next time friend husband recalls what mother used to make and eat at the humble family meal let him read with inquiring, "Dear, what did you have for lunch today?"

WHEN a wall with its paper is to be a background it must, in the first place, give support to the thing to be hung on it. In the second it must give richness, lustre and harmony without being assertive, just as the background in a picture.

On the walls of a room the advancing colors, or colors in whose position they predominate, have a tendency to "come at you," so to speak, and to increase the apparent size of a room.

Another thing to remember is that a mass of plain paper is apt to look deeper in tone than a sample. If possible, therefore, select a paper which hangs up and verify your judgment before having the wall papered.

To Shrink Cotton. It is better to shrink the material before making up. Fold the cloth smoothly and place in a tub or other large receptacle. Pour enough cold water to cover.

To Avoid Chipping Dishes. A splendid economic device is to apply a piece of rubber such as an old car half long to both hot and cold water faucets in the kitchen sink.

ALWAYS COMPLAINING. Every girl or woman should always try her best to look her best all ways. The clothes, indifferent to the woman is the one who always has a complaint to make about her things in general.

Behold What the National Guard Is Doing—For Style

Our Grandmothers Were Not Worried by Shortage of Dye-stuffs—They Herbed, Boiled and Experimented Till They Achieved Fast Colors.

THE present shortage of dye-stuffs recalls memories of the domestic dye pots of a century ago. In those days many a girl learned to dye quite as she learned to cook.

What, then, shall friend husband choose for lunch? He must steer his way between the Scylla of the sandwich and the Charybdis of the noon-day dinner.

Nothing could be more appropriate for formal dinners than cold work in cut work. A very pretty cloth had the design worked in the center, leaving a round place for the formal decorations.

This Lace and Insertion Designed For Underwear. A Bedroom Shade. A candle shade for most of the business can be made from ivory white linen with four blocks outlined in black.

PROFESSOR JOHNSON OF HARVARD GIVES EXPOSITION OF ITS WORKINGS

He Believes It Just and Proper to Tax Unproductive Site Owners Rather Than Men Who Improve Land and Add To Wealth of Community.

The Single Tax theory is altering and its advocates are earnest and persistent. They say it is not made greater progress, but it has not been adopted at least on an experimental scale.

Nothing can take the place of actual operation. This is a vital and just and reasonable people will at least have an open mind regarding it.

The single tax should be regarded as not only a satisfactory and just system of revenue and hopeful basis for sound municipal government, but also an essential tool long delayed for permanent good-time for capital and labor alike.

It leaves carefully to the individual what is naturally the full and natural possession of all products of individual labor.

He is a member of the local division of Hibernians and of the Knights of Columbus.

Spreading Happiness. It went someone to be glad that I was born," said a lonely woman; "but I regret that my birthday by carrying gifts to others as lonely as myself to the poor, the sick, and the sad. It is pleasant to be remembered, and to receive presents, but the noblest, best and happiest thought that can come to us on our birthdays is that we can make someone happier because we were born—Selected.

Final Games Sunday. Owing to the rainy weather yesterday the football game scheduled between the All Rockvilles and Tigers did not take place but will be played on the M. X's grounds next Sunday afternoon. Manager Chambers announced this morning that this would be the final game of the season. The North Ends tried to arrange another game with the Tigers for Sunday but the arrangement fell through.

Firefight Light. The largest fire engines are able to produce a glow and this has led some to mistake them for glowworms. In reality there are no real glowworms in the United States. The source of the glow in immature fireflies is not known exactly, but it is believed that some of the minute glowing organisms of the female insect pay tribute to the young, enabling them to give forth a light of their own.

MILK INSPECTOR'S REPORT FOR NOVEMBER 1916. Eighteen samples of milk have been collected by the Milk Inspector and sent to the State Laboratory of Middletown, Conn., for analysis.

Table with columns: Mark or name, No. of Bacteria, Fat, Refrac. Per Cent, General quality. Lists various milk samples and their results.

Milk must show 3.25 per cent of fat to be up to Legal Standard. Bacteria below 10,000 per c. c. indicates milk of very good quality. Bacteria from 10,000 to 100,000 per c. c. indicates milk of good quality. Bacteria from 100,000 to 500,000 per c. c. indicates milk of satisfactory quality. Bacteria from 500,000 to 1,000,000 per c. c. indicates milk of bad quality. Bacteria over 1,000,000 per c. c. indicates milk of very bad quality.

Test for preservatives made only when especially requested. During hot weather in the larger cities it is very difficult to keep the number of bacteria below 100,000, but they should be kept below 200,000. THE GENERAL GRADE is determined by combining the figures for Bacteria, fat, refractometer and dirt, 100 being a perfect score in which the fat is 4.5 per cent, or above, the bacteria below 5,000, the refractometer 97.5 or above and the cleanliness 100 per cent.

891 MAIN STREET. Bought Valuable Property. Water M. Scott has purchased the residence and grounds at the northeast junction of Church and Locust streets from Harry M. Burke. Mr. Burke lived there for a number of years, having bought the property from William S. Hitchcock, when Mr. Hitchcock moved his family to New Haven. Mr. Burke subsequently bought the property to Park street formerly owned by E. S. Eli and transferred his residence to that place, where he now lives.

Mr. Scott is employed as a chemist with Cheney Brothers, being a collaborator with J. P. Cheney, who is in charge of the chemical department for Cheney Brothers. Mr. Scott is a graduate of Yale college. It is his intention to erect a bungalow for himself on the extra lot which is included in the purchase and is located directly at the junction of Church and Locust streets.

The premises are occupied by John Nickerson and family. Mr. Nickerson is a member of the efficiency staff of Cheney Brothers. His special duty being known as that of task setter. He has occupied the premises for about eighteen months. Mr. Nickerson is to continue his residence in the building which he now occupies, as Mr. Scott does not contemplate any change in that matter. It is quite likely that next season will see the erection of the proposed bungalow as well as the construction of a new property direct, without the intervention of any of the real estate dealers.

OUR LARGE TAXPAYERS WHO THEY ARE

AMOUNTS WHICH THEY ARE TAXED FOR BY ASSESSORS

Table listing names and amounts: Assessor Robert J. Smith has furnished The News with a list of property owners who pay taxes on \$7,000 or over and same will be found below. Mr. Smith in discussing the probable increase in the grand list so large this year as it was last year ago Cheney Brothers had about \$1,000,000 worth of stock in their warehouses but this does not exist this year and their list shows a falling off of \$283,116 over last year. This decrease in Cheney Brothers list offsets the increase in new buildings which have been constructed during the past year. The list follows:

By Consent and Approval of NINTH DISTRICT SCHOOL COMMITTEE

Rules and Regulations Governing Use of Hall for Other Than Educational Purposes Published in The News Today—Public Don't Own Building.

In view of the disturbance caused last week by Howell Cheney refusing the use of High School Assembly Hall to the Equal Franchise League, as noted in these columns, Mr. Cheney wrote the following letter to Mr. Henry J. Mara, president of the league.

Dear Madam: I was very entirely correct as regards my failure to send you copy of regulations regarding the regulation of High School Hall. I very much regret the oversight and hold myself responsible for any misunderstanding having arisen.

Yours truly, Howell Cheney.

At a meeting of the league held last Monday the following letter was sent to Howell Cheney: Mr. Howell Cheney, Chairman Ninth District School Committee.

My dear Mr. Cheney—The South Manchester Equal Franchise League, by vote of the league, wishes the following question presented to the Ninth District School Committee at its meeting this afternoon: Will the committee of the Ninth District School District allow the South Manchester Equal Franchise League the use of the high school hall on equal terms with all other organizations?

Yours very respectfully, Mrs. Henry Mara, President. Mr. Cheney informed the league that the school board had decided that the Equal Franchise League could have the use of the hall on equal terms with other organizations, subject to the rules prepared by the Ninth District School Committee.

Mr. Cheney subsequently supplied the league with a copy of the regulations governing the use of school buildings for other than school purposes. Mr. Cheney also furnished a copy of some this morning for publication in The News, which is as follows: REGULATIONS GOVERNING THE USE OF SCHOOL BUILDINGS FOR OTHER THAN SCHOOL PURPOSES

I. The school buildings may be used for educational, social, political, recreational and religious purposes advanced in a non-partisan and scientific way, but not for promotion of the interests of political candidates, nor for the soliciting of membership in or financial support for political candidates or parties; nor for political caucuses or political rallies.
