By reason of the hazard of a combined electric and steam service over the main line tracks of the New York, New Haven & Hartford Railroad Company between East Burnside and Vernon the service rendered by this company between Church Corner, East Hartford and Rockville will be discontinued on February 15, 1917.

In place of this discontinued service, cars will be operated from Tolland avenue, Rockville, to city Hall, Hartford over the street lines each half hour instead of hourly as at present. The Company is thus doubling its service over the street lines without knowledge of the demand there will be for the service, but in the hope that the patronage will warrant its continuance.

Hourly service will be continued between Stafford Springs and Hartford.

The first car will leave Stafford Springs for Hartford at 5:45 a. m.

The first car will leave Tolland avenue for Hartford at 6:20 a. m.

The first car will leave Rockville Center for Hartford at 5:30 a. m.

The last car for Stafford Springs will leave Hartford City Hall at 10:15 p. m. and for Rockville Center and Tolland avenue at 11:15 p. m.

Candidates must attain an average of the first care of bubies, particularly the people who never had any of their own, and therefore know less about them. But good advice from those who have proved their theories by saving the lives of thousands of babies is better than gold. The State Board of Health has made a remarkable record in the reduction of the desth rate of children under one year old. FEBRUARY FURNITURE SALE

The big February Sale of Furniture starts on its second week with many additional feature articles which were delayed in transit, and did not arrive in time for the opening announcement. They are worth while additions that were planned months ago, and consist mostly of matched suites for the dining room, living room, and chamber, and they are very unusual from a value view point. The various lines are now at their best, and we earnestly advise those contemplating the purchase of furniture this month to take advantage of the price savings we have to offer at their earliest opportunity. Arrangements may be made to have any purchase reserved for delivery as convenient.

Furnace By Intelligent and The decision of Cheney Brothers to and insurance can and does keep a secret better than the average newspaper reporter. Good reporters are always taken into the confidence of the leading business men of a town or city. They also have the confidence of many lawyers. They know, frequently many days in advance that this or that story is going to break upon such and such a day.

Consider the furnace. Theoretically this is a machine for the economical production of heat. If the proportion of the proper kind of fuel is properly put into it, if the ashes are properly cleaned out, if the drafts are properly managed, the chances are properly managed, the chances that this or that story is going to break upon such and such a day.
