NEW ENGLAND BEER AND ALE

The New England Brewing HARTFORD

of Plymouth Church, Brooklyn, N. Y. foreign shipbuilders, foreign shipown- ber world trade.

Loyal Americans today waken early and read the papers carefully lest they overlook some thrilling and momentous event vital to the republic. Wonderful the news of the British victory smashing through trenches of portland cement and steel around Lens! Wonderful also the French drive and victory beyond Rhelms! But men of vision. beyond Rheims! But men of vision, the shop, the mine, the field, the mill, ed to build yards and launch ships and iron cogs and rods and leather belts. forecasting future events, must make offering to buy their products. Fac. sail the seas.

In 1776 the American people were upon a new industrial era. subject to England upon the land. In 1917 the American people are subject to England and Germany upon the sea. Our farmers are helpless; today they have no ships for exporting their grain, meat and food. Our manufacture and food of the Discovery of Steel. Is ship of 120 tons, with black end and so, with black of that kind is just as good as another. It will turn out just so much work, and so, when the boss goes to buy one his voyage. He brought with him they have no ships for exporting their grain, meat and food. Our manufacture and safes of all descriptions. turers are helpless; they have no ships ours was an era of cast iron or very of silver, thirteen wooden chests filled could buy a machine that could think tate, insurance and safes of all descripturers are helpless; they have no ships to carry to foreign markets their iron, steel and tools. For thirty years we have been subject to the ships of England and Germany, Holland and France, Sweden and Japan. Now, because of the great war, these countries refuse their ships as carrying instruments. Our elevators are stuffed with whest and corn, our warehouses and finest steel. That simple discovery finest steel. That simple discovery finest steel of cast iron or very inferior or very inferior steel. One day a young Englishman named Henry Bessemer continues inferior steel. One day a young Englishman named Henry Bessemer continues inferior steel. One day a young Englishman named Henry Bessemer continues inferior steel. One day a young Englishman named Henry Bessemer continues inferior steel. One day a young Englishman named Henry Bessemer continues in that hour England decided that better work than the other machines around it, and could feel itself a part of the business and have an interest and pride in making it successful, what wouldn't the boss pay for the sea, while she exports 50 per cent of her goods.

Finally England became not only this, young man: The heads of the finest steel. That simple discovery wheat and corn, our warehouses and railway depots overflow with goods, and our railway sidings are crowded with cars that cannot be unloaded. American business is like a locomotive with goods with goods and our sallway sidings are crowded with cars that cannot be unloaded. American business is like a locomotive with goods and our railway sidings are crowded with cars that cannot be unloaded. American business is like a locomotive with goods at the same and of the goods. Finally England became not only the owner of one-sixth of all the farming land of the earth, but the first class navy power of the world.

That simple discovery the owner of one-sixth of all the farming land of the earth, but the first class navy power of the world.

That simple discovery the owner of one-sixth of all the farming land of the earth, but the first class navy power of the world. with locked wheels. If our farmers engineer brought the news of the Then it was that Germany decided stores in this city was once a clerk les and meats at and merchants could only transport process to this country. their goods fortunes would soon be The Opening Up of the Great West. 1900 she organized her Navy league to the top by watching the clock. A The Eldridge St. Market theirs. American business men are The Opening Up of the Great West.

The Opening Up of the Great West.

The Close of the civil war brought preparatory to becoming a world pow thousand clock watchers who started Berggren & Anderson, Prop

theirs. American business men are like soldiers that have no guns, like a rich caravan upon the desert whose came is have been stolen, like a Pullman train stalled because some one has stolen its engine. The United States today is a subject nation, impotent because in an era of world trade we have no means of world exchange for our goods. God has sent the day we have no means of world exchange for our goods. God has sent the day of destiny and opportunity, but because the American people had no foresight we are losing our opportunity. Once more is futilitied the story of the prince who while he dreamed let the string of pearls fall through his fingers into the sea.

Werld Progress Means Werld Trade. American progress means trade with the world. Gone forever the day when Americans are independent and self sufficing. God has broken up the planet into five continents. He distributes the good things to each clime. He distributes the good things to each clime the planet into five continents. He distributes the good things to each clime. He cave our land wheat, corn and cotten and we must trade these treasures.

In the great northwest. Within ten years they settled the great northwest deam states of Within ten years they settled the great northwest and solve that floors and fermers and farmers and farmers. In 1910 the supporting members of the supporting members. That shad increased to 46,000, and in 1912 the supporting members of the supporting members of the supporting members of the work and wanted to help.

We hen you take a job get the feeling that you are a part of the bossiness; that much depends on you, that the bosa is having a strengle of it, and you must help him all you can. If you do that you will go ahead. And this applies to every kind of a business. The foreman of that gang of sewer diggers got the low of the world, until these merchants and farmers lobbled a hill through the reichstag to spend \$250.000 on the supporting members of the work and wanted to help.

We her wan

He gave our land wheat, corn and cot Tools Further increased the Prosperity. this fact that explains Germany's com watchers are still digging. The boss HOUSE, SIGN ton, and we must trade these treasures for tea, coffee and sugar that belong for tea, coffee and sugar that belong to other lands. Bees travel from or chard to orchard, fertilizing the apple chard to orchard, fertilizing the apple boughs. Ships travel from continent to continent, fertilizing cities and states. Any nation that imitates Chipper and builde a wall against its fellows at Pentecost had bup fized tools to refer the people from fruidgery and increase their prosperity. In 1840 men, cut their wheat with a na and builds a wall against its fellows is soon touched with dry rot and loses its heritage. For these reasons the great event of recent days is the decision of our congress to emancipate our people from bondage to foreign countries by immediately building a thousand wooden ships of 2,500 tons each for the carrying of American harvests, tools and goods, not only to our alles, but to the people of Santh Areas. vests, tools and goods, not only to our thrasher, powed the wheat in a colder river into the sacks of grain and left ica and Asia. This will make the it ready for the mill Another (00) was invented for the fleuring mills. self governing upon the sea, even as Not less wonderfur the work of the we are today upon the land. looms to clethe man against the cliff Every American Vitally Interested, Tof the winter. IS UPON THE SEA

To day goods to the amount of \$10,000 are stored in railway cars, with mormous quantities piled on the ground and covered with tarquallus. These American goods have been sold to Russla, but we have no ships for their transportation. Meanwhile Russla declines to pay for the goods until they are delivered. Daily these goods are declined to Russla, but we have no ships for their transportation. Meanwhile Russla declines to pay for the goods until they are delivered. Daily these goods russlated they are delivered. Daily these goods are deteriorating to value, and the local city of shipping lifted kings to their city of shipping lifted kings to their transportation. Then Rome became her successor and how American merchants and manufacturers are white slaves toward the sea. For years our country has been approach Church, Breeklyn, N. Y.

The regular monthly meeting of Hose & Ladder Company No. 4 will be held at the Orford Hose parlors tomorrow evening.

The posoffice department is taking a national inventory of the parcel post business of the Unit-1 States and for that reason has caused its employees to conduct a fifteen-days count of the sion a new automobile ambulance finished in gray with gilt trimmings and outgoing parcel post toward the reduction of patients. The body is mounted of patients. The body is mounted form New York with her daughter, Mrs. J. Frank Maguire and family.

The posoffice department is taking a national inventory of the parcel post business of the Unit-1 States and for the current year. The company bore these expenses.

It will therefore be seen that Mr. Hultman goes to Bristol with a very clear and definite understanding of the situation and with a determination to establish himself and family pastor of the South Methodist church used to direct the operations of the structure of the situation and with a determination to establish himself and family securely and satisfactorily there.

Mrs. Sophia Yurgens of Bissell

Street has returned from New York and modern appliances for comfort of packages throughout the country. It is found that the number of pieces of the South Methodist church used to direct the operations of the school children at this place and alwith her daughter, Mrs. J. Prank
Maguire and family.
