THREE CENTS

McENNELLY ORCHESTRA COMING TUESDAY

At the meeting of the south end lodge of Moose last Wednesday evening the amusement committee reported that there had been a very large advance sale of tickets for the dance to be given by the lodge at High School Assembly hall next Tuesday evening, October 2. The committee has made arrangements for checking the wraps of their patrons and there will be refreshments served during the intermission. The committee has also arranged for a smoking room for the men folks and every attention will be given to the patrons of the dance. The famous McEnnelly Singing Orchestra of Boston will furnish the music for this event. This fact alone is sure to attract hundreds of dance and music lovers. The orchestra will give a concert from 5 to 9 o'clock and the committee urges all to be on hand if possible at eight o'clock, so that the concert can be listened to without interruption. In past nights it has been stated that the Moose have contracted to pay \$150 for the services of the orchestra alone that evening and it will be seen that this will be a high class attraction. However, the committee wishes it understood that the concert is entirely informal and they want all their friends and the dance and music loving people of this town to be their guests next Tuesday evening.

SONS OF ST. GEORGE HAVE CELEBRATION

The second anniversary of Earl Roberts Lodge Sons of St. George was fittingly commemorated at Tinker Hall Wednesday evening, when some 350 persons including members, their wives and families and other invited guests gathered about the festive board and made merry at the expense of the lodge. A musical and literary program was carried out. A substantial collation was enjoyed, and music, dancing and social interludes rounded out a most delightful event. Oliver F. Toop, the president of the lodge presided as master of ceremonies and introduced the several persons who contributed to the entertainment of the members and their guests. The exercises of the evening opened with an address of welcome by President Toop, in which he explained some of the objects of the order and urged all Englishmen and sons of Englishmen to become members. A male quartet comprising Fred J. Randall, Benjamin R. Parker, Noah C. Ingle and Edward F. Taylor sang "Hanging Out the Clothes." As an encore they favored with an original selection, dubbed "Little Willie." The quartet was again summoned for the first time and sang "A Perfect Day," and as an encore "He's Not Dead Yet." At the conclusion of the foregoing the party took possession of the large office hall where an elaborate collation was served and heartily enjoyed. The good housewives had put forth their best efforts to give a demonstration of fine English hospitality and their efforts were abundantly rewarded. The tables groined with good things to eat and good cheer and merrily aided digestion and made the moments fly by so rapidly. Dancing followed. Ben Parker tickling the ivories while the young men and women entertained themselves with the pleasures of the dance. Both the men were elaborately decorated with the American colors and the Union Jack. Flowers beautiful and fragrant lent their sweetness, beauty and charm to the joyous occasion. Guests were present from Hartford, Rockville, New Britain, Boston and Springfield. Invitations had been extended to the office of the lodge in Rockville and Hartford and also to the state officers, together with their wives, to be present, and the invitations were generally accepted. The event as a whole was a fine success and all present expressed their very great delight at having the privilege of joining in the festivities at the celebration of the second anniversary of Earl Roberts Lodge Sons of St. George.

What "Bone Dry" Means

The Department of Justice has given out a view of the new "bone dry" measure. The public will be surprised when it learns what the facts are. Here are some things that many citizens will want to know if they wish to keep out of jail: Any man living in a dry community whether State or county, cannot order intoxicating liquor without facing prison. It matters not whether he receives the goods. The law plainly says that he cannot send for liquors to be sent to a dry community. This is not all. Anybody who takes liquor into a dry territory for personal use or as a gift to a friend is liable to be thrown into jail. Anybody who has liquor in his baggage in dry territory is liable under the new law. Any person who sends a letter to dry territory advertising or soliciting business is subject to arrest. Any newspaper willfully sending a paper containing an advertisement into dry territory is subject to the operations of the law. Within a few months the Department of Justice will be so busy with the new law that it will make a Monday morning police court look like a place of idleness. The "bone dry" law which went into effect on July 1 sets a stricter standard than any prohibitionist ever dared to ask for.

Women To Help Government The women's committee of the Council of National Defense, whose chairman is Dr. Anna Shaw, propose to affect in every state an organization of women, the essential feature of which will include all towns and villages of the state. The Connecticut committee, headed by Miss Caroline Runkle-Ross, with an office at the capitol at Hartford, has selected in each town a representative woman to act as temporary chairman. Her task was to list the women's organizations of the town and to invite them to send a representative woman to a meeting to be held at the earliest possible date. The object of this meeting is that those present shall constitute themselves a local organization for the Connecticut Division Women's Committee of the Council of National Defense, that they shall elect a permanent chairman and they shall put themselves on record as standing ready to carry out, through the organization which they represent such instructions as may be received from the Executive Committee, Council of National Defense at Washington, or through the executive force of the Connecticut Division, or such as may be issued originally by the Connecticut Division itself. Miss Helen G. Chapman is acting as temporary chairman for the town of Manchester and will call a meeting in a few days for the purpose of organizing such a committee here. This will draw all the women of the town together in a union with other women of the state in such a way as to make the special organization an effective arm of the government, thus rendering great service to the country. The date for the local meeting will be announced.

Saloons Must Close Monday, Nov. Fifth. Contrary to published announcements saloons in Connecticut towns which voted in favor of no-license at the annual town elections last November are required to close their doors Monday, November 5. Connecticut "dry" men have discovered that while their opponents were chuckling just before election because the "wet" had caught the "dry" men napping in the matter of affixing addresses to petitions asking for a vote on the license matter, so that petitions were rejected, and the vote could not be held in Meriden, New Haven, Norwalk and Willimantic (Windham), they have lost an advantage gained by another law passed only a few days prior to the law about addresses which the latter cancelled. Chapter 383 of the Public Acts of 1917, provided that licensees should expire on the first Monday in December instead of November, and the present law required, when a hearing was held upon the matter and the Executive Committee, H. H. Spooner and other "dry" leaders made no objection to this passage, but stated that they were willing to give the liquor dealers a month longer to wind up their business when towns voted "dry". This was approved and became a law May 10.

USE RYE BREAD PLANT MORE RYE: The Committee of Food Supply of the State Council of Defense is sending out from their headquarters at 56 Pearl street, Hartford, a state-wide appeal calling upon the millers of the state equipped for grinding wheat and rye into flour, to register their names with the committee, together with a statement of the work they are equipped to do. The need for complete information in regard to millers is set forth in the following letter sent out by J. P. Chamberlain of the sub-committee on wheat and rye: Robert Scoville, Connecticut representative of the United States Food Administration, has asked that the people obtain from eating white bread on two days each week. The Committee of Food Supply has asked the farmers of the state to plant twice as much rye this year as last, to fill the quota of grain allotted to Connecticut by the U. S. Department of Agriculture, and it seems likely that the farmers will answer the call. If the

newspaper of the state respond to Mr. Scoville's appeal, there will be a market at home for the rye which the farmers plant, if there are millers to grind the flour. This is what the committee of food supply is trying to do and it requests all millers in the state to register at its office, 56 Pearl street, Hartford. It has already had requests for the addresses of mills and distilleries many days.

ANNUAL TOWN MEETING BUT NO TAX RATE UNDER NEW LAW DETERMINED BY AMOUNT OF APPROPRIATIONS. The annual town meeting of the town held at the town hall last Monday afternoon was rather tame, as compared with other town meetings held in the past few years. There was some discussion among the voters but the usual enthusiasm following criticism of the manner in which the town affairs were run was lacking.

Charity Expenditure Cut. No Oil on Streets. No All Night Street Lights. Large Sum for Parks. Charge Merchants Not Rightly Assessed. The selectmen recommended an appropriation of \$100 for Memorial Day, for the use of the G. A. R. and \$50 for the Spanish War Veterans. E. L. G. Hohenthal explained that for the past few years the school children have been carrying with the veterans and were being furnished flags, which had to be paid for, assessed the original motion by making it \$200.

NO ALL NIGHT STREETS. The selectmen recommended an appropriation of \$500 for street lighting during the coming year. W. B. Rogers believed this was a place where the town could save money during the coming year. He doubted that the question of the tax rate would be determined and any other matters left on the table may be acted upon.

FOR TWELVE POLICEMEN. On the recommendation of the selectmen authority was given the police commissioners to appoint not to exceed twelve policemen during the coming year. Chairman Howard I. Taylor of the board of selectmen said the police commissioners had asked for authority to appoint that number of men, but it was not to be understood that the entire number would be appointed. There are seven regular men on duty at present and it is the intention to keep this number at work. Should occasion arise the other appointees could be used.

APPROPRIATIONS. \$125,281 were appropriated for schools during the coming year. The board of selectmen recommended an appropriation of \$16,000 for alms. Willard B. Rogers believed this appropriation could be carried during the coming year. He said the town is enjoying unusual prosperity at the present time and there appeared to be no likelihood of a let-up in this condition during the coming two months. His estimate of \$16,000 was based on the fact that the selectmen would have some economies which they would effect in the charity department which should save at least one-half for the voters.

NO ALL NIGHT LIGHTS. The selectmen did not favor any extension of the present schedule of the street lighting system. Chairman Taylor said the town is maintaining 1,000 regular street lights, 62 white way lights and seven lights in the park. These are operated under the 'moonlight' schedule. He had taken the matter up with the lighting company and it was found an all night every night schedule would cost \$4,471 extra. The lighting company did not recommend an extension of the present schedule.

INTERESTING DATA ABOUT U. S. NAVY

The United States Navy offers more opportunities to the enlisted man and gives better pay for both active service and in retirement than any other branch of the armed forces of the Government.

Starting at the very beginning it is possible for a young man by work and study to have continuous and frequent advancement with increase of pay.

The next higher grade is that of warrant officer which is a life position, attainable only by promotion from enlisted grades.

Warrant officers have a still higher step in that they are commissioned as Chief Warrant Officers in their various grades, with rank of Ensign or Lieutenant.

Pay Grades and chief pay clerks under 35 years of age may take the examination for appointment as assistant paymaster in the Navy.

The law provides for the appointment each year of 100 enlisted men to the Naval Academy, the regular course of instruction being a four-year course.

After eight years service the retiree is \$80.00 if after four months of discharge and \$100.00 after that.

When Women are Weak

Women who feel weak, languid and depressed—women who look pale and dull-eyed, and have lost appetite and fresh looks—need a tonic that will purify the blood, help the organs of digestion, regulate the liver and bowels, and strengthen the system.
