William Rubinow returns Tuesday from New York City, where he has been spending two days on a business trip. He had an opportunity to experience some of the inconveniences due to the congested conditions of the hotels in the Metropolis. This was due to the monster influx of people who assembled there to witness the great World Series of base ball games, and also to the great number of the military and naval contingents of the arrival and departure of soldiers from all parts of the nation. Friends and relatives of the boys in khaki were also in the mighty throng. At the same time, the utmost difficulty that Mr. Rubinow could secure hotel accommodations during his short stay in America's greatest city.

Supervisors Investigate

Dr. T. H. Weldon and Willard R. Rogers of the charity committee of the board of selectmen, and Fred Shippee, newly appointed charity superintendent, have visited all of the people who are partially or wholly dependent upon the town, and secured a detailed statement of their income, aside from expenses. As a result of this investigation, there will be a re-adjustment of the charity work and some of the families will have been helped to receive less, while others will receive a little more varied than that which the town has been distributing.

Only four families were found by the charity committee of the board of selectmen to be receiving aid from the town and as a result of their investigation it is probable that the number will be reduced to two. In order to get an idea of what was the number of cases in town receiving aid and just what was the need of the aid, Mr. Rogers and Dr. Weldon, with the assistance of Fred Shippee, were surprised to find that there were only four families that were being aided by the town and when they investigated the cases they learned that two of the families were aiding it necessary to secure the aid because the chief support of the family had been drafted into the army. As there are cases in town where discharges have been received because of dependents it is the intention of these two members of the board of selectmen to take up with the board of auditors the securing of the discharge of the two men so as to allow them to support their families.

A card record is being kept of each case where the town families aid and in the future every case that comes to the charity department for assistance will be investigated and proper records kept so that all South Manchester cases that are being aided will be possible to tell just who is receiving aid, the number and all causes.

UNITED STATES FOOD ADMINISTRATION WHAT YOU CAN DO TO HELP WIN THIS WAR

See other side showing why you should do it. Our problem is to feed our Allies this winter by sending them as much food as we can of the most concentrated nutritive value in the least shipping space. These foods are wheat, beef, pork, dairy products, and sugar.

Bread and cereals—Have at least one wheatmeal meal a day. Use corn, oat, rye, barley, or mixed cereal rye, molasses, and breads in place of white and only as required. The standard loaf, for two. Eat less cake and pastry.

Milk—Use all of the milk, waste no part of it. The children must have whole milk; therefore, use cream. There is a great waste of food by not using all skim and sour milk. Sour milk can be used in cooking and to make cottage cheese. Use butter milk and cheese freely.

Fats (butter, lard, etc.)—Dairy butter has food values vital to children. Therefore, use it on the table as usual, especially for children. Use as little as possible in cooking. Reduce the use of fried foods to reduce the consumption of lard and other fats. Use vegetable oils, as olive and cottonseed oil. Save daily one-third of an ounce of animal fat. Waste no soap. It contains fat and is necessary for health. All in all it is the more likelihood there is to prevent the spread of the soap maker, who will thus secure our needed glycerine.

Sugar—Use less candy and sweet drinks. Use less sugar in tea and coffee. Use honey, maple syrup, and dark syrups first. Eat cakes and waffles without butter or sugar. Do not eat ice cream. Do not eat the skin of sugar in putting up fruits and jams. They may be used in place of butter.

Vegetables and fruits—We have a superabundance of vegetables. Double the use of vegetables. They take the place of part of the wheat and meat, and, at the same time, are healthy. Use potatoes abundantly. Store potatoes and crops properly and they will keep. Use fruits generously.

Fuel—Coal comes from a distance, and our railway facilities are needed for war purposes. Burn fewer fires if you can get good, use it.

GENERAL SUGGESTION. Do not look for more than one coat for each winter. Do not get the plain food of getting and getting. Do not get the plain food of getting and getting. Do not get the plain food of getting and getting.

LOCAL POLICE HAVE WAGE INCREASE

The board of police commissioners at its meeting last night decided to grant an additional 10 per cent wage to members of the police force, which will come to the men in the form of a bonus for all who were on the payroll January 1. The bonus, it was announced after the meeting of over two hours duration, would continue as long as the conditions warrant its being paid. The increase is dated back two weeks of the time that the men petitioned for the advance, which was not made until last week.

Another matter that was taken into consideration was the charge that would be made for the services of a policeman provided for private work. The charge which will be made in the future will be 10 per cent above the wages paid to the men doing duty, this additional 10 per cent to go to the town.

It might not be amiss to state that the meeting of the board last evening was not called to consider the matter of pay for policemen at all. That subject was carried over from their preceding meeting because they had had no time to consider it. With the bonus granted policemen here last night regular patrolmen here will receive \$33 a week.

FIRE ALARM SERVICE TO BE IMPROVED

Steps are being taken to secure a more satisfactory fire alarm system than that in use here at the present time. Mistake follows mistake in sounding the alarms and the firemen as well as the public are misled as to just from what station the alarm has been rung in. We are presently ascertaining a two-circuit system but it is planned to have the new system comprise a four-circuit service. The opportunity for having any very large number of the alarm stations out of order at one and the same time will be reduced by one-half under the proposed new method.

The installation of the new and more powerful system will provide for the extension of the limits of the fire district and the placing of new fire alarm stations. With the entire automatic equipment of the South Manchester Fire Alarm service there is every facility afforded for getting the apparatus to fire more quickly than ever, and also to go to the fire more rapidly than was possible heretofore with horse drawn appliances. It is coming to be a practice also to keep one or more men at fire alarm headquarters at all hours of the day and night. This man will assist greatly in getting an early start to a fire and by so doing checking fires before they make much headway. Promptness in sending in help will help to prevent disastrous conflagrations. The earlier the fire fighting equipment can be brought to the scene of the fire, the more likelihood there is to prevent the spread of the flames and curtail the destruction of property.

PRE-VOCATIONAL STUDIES

Director Tucker has introduced a system of pre-vocational study in the trade school here that should be of very great benefit to pupils and parents alike. This consists, in giving boys who are in the seventh and eighth grades the privilege of spending three hours a week for six weeks in each of the six departments of the state chamber of commerce, and as follows: Carpentry, project work, or manual training, mechanical drafting, electrical practice, machine work, and textile branches. These are all for day period of study.

In this manner it is possible to discover whether the pupil displays special aptitude for any particular study in the trade school. If such a tendency is disclosed it then rests with the parents and pupil to do the most for the child. A rising grade in the occupation nature adapted to him. The deciding of this problem is one of the most trying and unsatisfactory that presents itself to the average parent and also to the pupil. By being given a tryout in this way however, the natural traits are likely to be revealed and the pupil started upon the road that will ultimately lead to success.

Most men drift along in early life from pillar to post with no guiding hand, and fall into the meshes of the law, and are finally forced to pay the price of their own folly.

CIRCLE THEATER BIG BOOKINGS

Manager James H. Johnston of the Circle Theater in Boston last week, looking attractions for the Oak street moving picture house. Johnston says that he has large and new features listed for four titles of the time between the end of the year. In due course of time he will announce to the people of South Manchester and vicinity the several large productions which he has in store for them. One of the largest and most famous of the pictures among the extravaganzas to be shown at the Circle Theater is that of "Jack and the Bean Stalk." This princely production will be shown in South Manchester as a Thanksgiving Day treat. It will be the most spectacular moving picture ever shown in South Manchester. It is composed of 10 reels and will require two hours and thirty minutes for its presentation. This is in accordance with a suggestion made by Selectman Aaron Johnson some weeks ago. Previous to coming to S. Manchester Mr. Johnston attended a Swedish church in which he took up various phases of laying out towns and highways, and is well qualified to pass upon all such questions.

Is Supreme President

Selectman Willard B. Rogers of South Manchester, supreme vice-president of the Fraternal renaissance League, is now advanced to the position of president of that body because of the accidental death of President Avery E. Ford of New Haven, who was killed in a railroad accident this week. The advance in position of Mr. Rogers comes to him automatically under the laws of the order and holds good until next May when the annual convention of the order is to choose a successor to the office. Mr. Rogers went to New Haven yesterday and took charge of the office. He is there now and will remain until tomorrow night. The funeral of Mr. Ford is to take place tomorrow, and Mr. Rogers will attend.

Temporary Solution

Owners of the property between Russell and Birch streets, on the east side of Main street, have agreed to permit the town to grade back on the property several feet and place a hedge instead of the proposed garage. This is in accordance with a suggestion made by Selectman Aaron Johnson some weeks ago. Previous to coming to S. Manchester Mr. Johnston attended a Swedish church in which he took up various phases of laying out towns and highways, and is well qualified to pass upon all such questions.

Mr. Hohenthal Explains

Editor of The News, Dear Sir—An article appearing in the last issue of the "News," headed "One prescription on liquor sale," seems to imply that this is an entirely new law, but I desire to call your attention to the fact that the law that "not more than one sale or delivery of spirits or intoxicating liquors shall be made upon the same prescription" was enacted as far back as '87 and has not been changed for the last thirty years, with the exception that the Legislature of 1917 enacted a provision permitting the sale of pure alcohol in quantities not greater than 1 quart without a prescription.

LOCAL BOYS "OVER THERE"

Word has been received in South Manchester that the three following volunteers are "over there" doing their bit in France: Nils Arthur W. Johnson, 46 Walnut street; Harry Lindell, son of August and Mrs. Lindell of Myrtle street; and Ernest Peterson. These men enlisted as volunteers in Company G First Connecticut Infantry. When the first and second regiments were merged and formed the 10th regiment the three young men mentioned above were assigned to the 10th regiment. The hospital company of these boys enlisted in Hartford and are now in France under Col. Webb.

Fell From Staging

While at work on the large wooden building on Center street near Pine last Saturday, Roger Williams of Cedar street fell from the roof to the ground, a distance of some 35 feet and landed on a heap of sand. He was endeavoring to reach the roof when part of the staging gave way and precipitated him to the earth. A plank from the staging also fell and struck him on the leg. He was fortunate in escaping with merely some bruises on the leg caused by the falling plank. There were a thousand and one chances that he might land on something less resilient than the sand heap, but the fates favored him and he lives to tell the tale. He expects to be able to resume his duties within a reasonably short time.

Free Souvenirs

During the twentieth anniversary sale of Wise, Smith & Co. a feature well worth taking note of is that of free souvenirs. Not only is every purchaser of \$2.00 worth or over entitled to a free souvenir, but there are thousands of different articles to select from of which there are several classes. Disposing of Stock

The different saloon men in town are having no trouble in disposing of their stock. A several of the dealers in town had big stock, which had been bought before the advance and so there was little likelihood of their being able to dispose of it before November 1 they have sold some of the stock, in most cases it being bought by the wholesaler from whom they purchased it and at an advance over the price that they paid. This is particularly true of gin, which has advanced over double. Some of the dealers are selling what will only be a year before the town again votes license have held to until some of their stock and decided to sell with the present high prices further advances will be made.

Foresters Funds Fight

At the regular meeting of the Court Manchester No. 107 Foresters of America, held at Foresters Hall last Tuesday evening the court voted to buy \$5,000 worth of Liberty Bonds. In this way their funds will be sent over the treasury and the war effort will be a bit in the world war of Democracy against Autocracy. Court Manchester has always shown its generosity when conservation of our food supply. The treasurer of the court is in line with its public spirited course on all occasions where assistance was merited and the cause a worthy one. The court takes very excellent care of its sick and distressed members at all times and is rather prone to be overgenerous than miserly. No deserving cause meets with rebuff when over Court Manchester is interested, or in which its membership has any responsibility. It has been recently financed and it is some \$11,000 in cash among its assets.

Wounded in War

Robert Glenney, formerly of South Manchester but now in the service of the English forces "somewhere in France" is wounded but to what extent the information received does not state. Glenney is a graduate of the South Manchester High School in the class of '10, was a student at Trinity for two years and was a member of the basketball and baseball teams. Following the close of the war, he went to the front where he was wounded and is now recovering in a hospital. He was engaged in the big drive that was on during September. It was in the latter part of September that he was wounded according to the information reaching his mother. The letter was written by a lieutenant of his company who stated, under date of September 26, that Glenney had been wounded and was being given the best of care at one of the base hospitals. No mention was made of the seriousness of his wounds, but the fact that the letter was not written by himself seems to indicate that the wound was serious. His brother, Christopher Glenney, of Glenney & Hultman, wrote to the English consul at New York in an effort to get further information. A wounded man is a subject of Great

Stope puts modern improvements, save the best of materials, and makes first-class dwellings. The roots could be six rooms each and bring up to \$17 a month. In addition to the development of property in his vicinity Mr. Stone raises considerable tobacco. He also owns and sells stove wood, kindling wood, railroad ties and such like. Taken as a whole he has wrought quite an improvement in property in his neighborhood and his efforts are meeting with fine success.

Police Commissioners

The board of police commissioners held the organization meeting at the Hall of Records last Friday evening. G. E. Willis still has two years to serve, John F. Sheridan has just term re-appointed for a three year term and George E. Keith has just been re-appointed to fill the unexpired term of Philip Cheney. Mr. Willis has been setting chairman of the board since Philip Cheney left town, but he was elected permanent chairman. Mr. Sheridan has been secretary but declined to accept this position, explaining that he thought it would be a better position to fill it. Mr. Keith was elected. The commissioners spent several hours discussing the department and proposed improvements. The members of the board were re-elected annually and all the regulars were reappointed. Michael Morris, who has been a member, was made a regular. William Mcweeney, who is at the Ayer court since Philip Cheney left town, but he was elected permanent chairman. And Invigorates Old People

Any doctor will tell you that the ingredients of Vinol as printed below contain the elements needed to improve the health of delicate children and restore strength to old people.

Those who have puny, ailing or run-down children or aged parents may prove this at our expense.

THE PRINCE OF WALES, WITH SIR BRIDGES REYNOLDS, REVIEWING A BRIGADE

each day of his life. He had just before they went into action. They left the shore with some one behind the lines, for they would be in action again...

It was the only gamble I ever saw when you could lose if you own money back at least.

The Tommies are strong for carrying pots with them too. They had great cans, rice, mugs, cups, coats, goats and even pigs, and they will go hungry themselves rather than see the object of their affections want for anything.

During the winter there was a lot of talk about the "mad major." He was an artillery officer who had been in the biggest danger I ever heard of.

He had a beard that he did more damage with his letters than a whole brigade of ordinary artillery could do.
