UNITED STATES FOOD ADMINISTRATION

wohlen is to feed our Allies this winter by sending them as much The as we can of the most concentrated nutritive value in the least shipping space. These foods are wheat, beef, pork, dairy products, and sugar. Our solution is to eat less of these and more of other foods of which

Bread and cereals.--Have at least one wheatless meal a day. Use corn. oat, rve, barley, or mixed cereal rolls, muffins, and breads in place of white

As to the white bread, if you buy from a baker, order it a day in ad rance: then he will not bake beyond his needs. Cut the loaf on the table and only as required. Use stale bread for toast and cooking.

Meat.-Use more poultry, rabbits, and especially fish and sea food t place of beef, mutton, and pork. Do not use either beef, mutton, or pork more than once daily, and then serve smaller portions. Use all left-over meat cold or in made dishes. Use soup more freely. Use beans: they have nearly the same food value as meat.

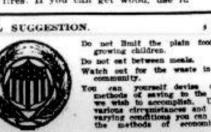

. Milk -- Use all of the milk, waste no part of it. The children must have whole milk; therefore, use less cream. There is a great waste of food b not using all skim and sour milk Sour milk can be used in cooking and to make cottage cheese. Use buttermilk and cheese freely.

Pats (butter, lard, etc.) .- Dairy butter has food values vital to children Therefore, use it on the table as usual, especially for children. Use as little as possible in cooking. Reduce the use of fried foods to reduce the consump on of lard and other fats. Use vegetable oils, as olive and cottonseed of Save daily one-third of an ounce of animal fat. Waste no soap; it contains

Sugar.-Use less candy and sweet drinks. Use less sugar in tea and cofbe. Use honey, maple sirup, and dark sirups for hot cakes and waffles without butter or sugar. Do not frost or ice cakes. Do not stint the use of sugar in putting up fruits and jams. They may be used in place of butter. Vegetables and fruits.-We have a superabundance of vegetables

Double the use of vegetables. They take the place of part of the wheat and meat, and, at the same time, are healthy. Use potatoes abundantly. Store potatoes and roots properly and they will keep. Use fruits generously.

Fuel .- Coal comes from a distance, and our railway facilities are need-

profits and then have the government enough to call out practically all the nonneed that a special meeting to The Recreation Center Club now George Davidson, tax collector for of same by taxation.

RELIGIONS IN CHINA.

One For Everyday Life, One For Sickness and One For Death.

The state religion is not Confuciantism, though founded on it. To the worship of heaven it adds the worship of nature in its chief material forms, such as the earth, sun, moon and stars, mountains and rivers. To the cuits of ancestors it not only adds that of heroes, but expands so as to take in many of the divinities of Taoism and Buddhism, thus forming a compound of the three religions.

Logically the three are irreconcilable, the Taoist being materialism, the Buddhism and the Confucian essentially ethical. Yet the people, like the state, make of them a unity by

swallowing portions of each. In ordinary their morners were cited in support of the stories that knitted from South Manchester and made swallowing portions of each. In ordinary their lives are regulated by Confucian forms; in sickness they call in Taoist priests to exercise evil spirits, and at funerals they have Buddhist priests to say masses for the repose of the soul.

Besides the women and the priest-bood the two sects last named have

fess to be followers of Confucius.—Sciover the state with many variations. Oil and Lubrication.

Oil is a peacemaker and serves its has heard the tale of the woman who soldier boys he is in the hero class.

> South Manchester leaving the general welfare of the IT'S RESULTS THAT COUNT IT PAYS TO PLEASE

We have decided to inaugurate a new method of doing business which will be very much to your advantage. The prices herewith tell the story. We want to save you money and in order to help you keep down the price of living we will pay you for taking your goods home with you. To those who have an account with us the regular price will prevail where a charge is made. If you come to the store pay cash and carry home your goods you get a discount. If you want the goods delivered and wish to pay for them we make a slight charge for the delivery. Look through the list and note the savings.

We invite an inspection of our QUALITY stock and we can convince you that our prices are low when the grade of goods is considered. When we buy goods it is not the price we consider it is the quality of the goods we are to get, and it is quality we deliver. Compare our price and quality with that of other stores. We gestablee the quality and will refund the purchase price on any unsatisfactory transaction. Our goods are guaranteed to us and we can

By the way, what flour do you use? Have you tried King Arther Flour? Compare it with any other flour and if it is not worth \$2.00 per barrel more than any other flour we will refund the difference in price when the contents of the barrel is used. We only ask a trial of this flour and it will convince you of the high grade of goods this store carries.

You should be paid for carrying home your goods. We will pay you and give you what you are paying for. This is only a partial list, but the plan applies to every article in our store. Carry home your parchases, pay cash for your goods and get all the benefit for yourself. Read the list carefully and note the savings.

SOUTH MANCHESTER CONN., FRIDAY, NOVEMBER 2. 1917

MOOSE BANQUET

The Orford hotel dining room was he scene of a happy gathering last evening when the first annual banquet of the South End lodge of Moose took place. Landlord Walsh had the tables tastefully decorated with colored electric lights, cut flowers and palms. A table stretched scross the west end of the dining room at which the officers of the lodge sat, and three long tables were placed the full length of the dining room, where the other guests found their places. Covers were laid for one hundred and places. other guests found their places.

ors were laid for one hundred and every seat was taken. Ramsdells orchestra played a lively tune as the banqueters marched into the dining R. V. Treat
