HELP YOU WITH YOUR WORK.

Increase Your Personal Power by Putting Your Soul Into Your Job.

Enthusiasm is the dynamics of your personality. Without it, whatever ablitties you may possess lie dormant, and it is safe to say that nearly every man has more latent power than ha has ever learned to use. You may have knowledge, sound judgment, good reasoning faculties, but no one—not even yourself—will know it until you discover how to put your heart into thought and action.—Industrial Conservation, New York.

Feeling the Public Pulse.

A board of trade or chamber of commerce can render vital service to a community by aiding in the passage of laws which tend to make the community more prosperous. In that respect the organization acts as an interpreter, helping to translate the needs and the deaires of the people into laws that will encourage, rather that requires judgment and adaptability.—Industrial Conservation, New York.

You Buy Dining Room Furniture But Once in a Lifetime -or at least you should buy it only once in a lifetime if you make the proper selections when you purchase your original outfit. And then, you cannot change your dining room furniture from one room to another as you can do with other parts of your household equipment. It is always dining room furniture and it must be discarded entirely if you decide to replace it at some future time.

For these reasons you should furnish the dining room with one complete suite, and not with odds and ends that you may happen to pick up here and there and everywhere. Such a suite will last as long as you care to use it and will always be in good style and taste. Just at present Watkins Brothers have an especially strong line of these complete dining room suites—we describe but a few typical ones.
