Stress of the times makes it eminently fit and proper that Christmas gifts this year should be practicalworth giving, worth receiving, and worth keeping. Such gifts are never open to criticism; but a gift without intrinsic value and real usefulness may well be called foolish and extravagant in troublous times.

Concerning this, Hoover says: "This condition has been brought about by bad management, unskilled work, and lack of fertilizers; and these in turn can be explained by the withdrawal of men from farm and field to army and factory, and the employment on the soil of overworked women, unskilled old men and listless prisoners. Furthermore the victous submarine has sunk boat after boat filled with nitrates and fertilizers, conspiring to augment the pauperizations of the earth, so that reduction in soil productivity was inevitable."
