

BIG MEETING TONIGHT OF W. S. S. WORKERS

OVER 150 COMMITTEE MEMBERS SUMMONED TO HIGH SCHOOL HALL

House-to-house Canvass Begins Next Week. All Fraternities in Town to Help. Building Funds in Churches. Pulpit Announcements Sunday

This evening at half past seven o'clock there will be a very largely attended meeting of war stamp workers of Manchester at the High school hall...

HOW TAFT CLUB WORKS Taft club members agree to make certain monthly payments into the total subscription has been paid in. As a matter of fact the subscriber does not pay a cent...

IMPORTANT COMMITTEES The committees asked to be present include the following: House-to-house canvass. Principal L. K. Knapp, chairman...

CHURCH ANNOUNCEMENTS It has been decided to invite all local pastors to speak on the subject of war stamp sales in their churches next Sunday...

RETAIL STORES SALES The committee in charge of the retail store campaign has completed organization, with the following members...

GAS PRESSURE LOW PIPES ARE FREEZING People living along East Center street have found considerable trouble...

FACTORIES AND SCHOOLS The sale of war savings and thrift stamps is being pushed hand and foot in the factories and schools...

Ringling Chime Dells When first introduced, chime bells were rung by a number of men...

Lot All Join in Chorus. Someones who are in chorus with this inscription: "If you see an editor who pleases everybody, there will be a glass plate over his face and he will not be standing up."

Optimistic Thoughts. A man becomes learned by asking questions.

Knob for Kettle Lid. Should the knob come off the lid of a kettle a screw should be slipped through the hole with the head to the inside of the lid and a cork secured on the protruding end.

Our Heroes. Man's great acts are performed in minor struggles. There are noble and mysterious triumphs which no eye sees, no reward, and no flourish of trumpets follows.

Makes His Own Castor Oil. A druggist at Sassafras, U. S. of Columbia, has discovered that he could produce his own castor oil far more cheaply than import it.

Using Big Truck for Hauling Freight. Cheney Brothers have permission to use a big truck in connection with the purpose mainly of overcoming difficulties of making shipments to New York...

Some Sleight for Johnnie the Baker. John McCarthy, the genial driver of one of the Great Road Commercial teams, informed a representative of The News yesterday that this has been the best winter for sleighing he has experienced for the past twenty-six years...

Fifteen Complaints. At the regular meeting of the board of trustees held yesterday evening there were five persons who presented themselves before that body to seek reductions in their tax lists...

WATKINS BROTHERS GARAGE ON FIRE

PROMPT AND EFFECTIVE WORK OF FIREMEN ARREST FLAMES

Great Danger Of Large Conflagration Timely Checked. Zero Weather Conditions Prevailed Large Wooden Buildings Adjoining Impeded. Frozen Hydrant Found.

Last Tuesday afternoon at three o'clock, the fire siren sounded No. 41, Main and School streets. The cause of the alarm was the discovery of a fire in the Watkins Brothers garage...

MULE SHOE ROUTE Gravity Scheme Invented by Miners of Tennessee.

Device Mountain T-Rail Toggan Which Takes Them to Shaft Openings in a Hurry.

A queer gravity railroad scheme is in use among the miners in the Luman district of Tennessee, not far from the town of South Pittsburg.

The mines nestle in a valley at the foot of a series of hills, and the railroad track winds its tortuous way from the mine openings up to the heights that lead to the outside world.

Richard Sheehan of the Ordnance department was called upon for a short furlough this week for a short furlough at his home in South Manchester.

Frank Dumas, the school street shoemaker has been suffering with an attack of the grippe this week.

The last of the special meetings at Gospel Hall, Spring street will be held Lord's day at 3:30 p. m. and at 7:00 p. m.

England's Hungry Birds. In gardens where no bird-life attracts its feathered posterity...

Human Strength. The strength of males increases rapidly from twelve to nineteen years, and at a rate similar to that of the weight...

Abolition of Envelopes. It is said that envelopes were invented during the early days of Louis XIV of France.

A Dutchman's Capture. During the Revolutionary war a Dutchman was running from the English in crossing a field he stepped upon a rake, the handle flew up and bit him in the back of the head...

Knights of Columbus CLASS INITIATION

Next Sunday afternoon at 2:30 o'clock the Knights of Columbus will assemble in special meeting at Foresters hall for the purpose of conferring the first and second degrees upon a class of 20 candidates.

Desirability of Membership in Order for Young Men Subject to Selective Service of United States Will Meet Many Brothers in Army and Navy.

Next Sunday afternoon at 2:30 o'clock the Knights of Columbus will assemble in special meeting at Foresters hall for the purpose of conferring the first and second degrees upon a class of 20 candidates.

Catholic Churches CONSERVING COAL

In accordance with the Lenten instructions issued by Bishop John J. Nolan of Hartford, all of the Catholic pastors in the Hartford diocese are requested to conduct the Lenten devotions as best to conserve the use of coal and thus cooperate as much as possible with the fuel administrators of Nation and State.

Recreation Building CLOSED TOMORROW

It is believed at this writing that the Recreation Building will be closed tomorrow for the purpose of conserving coal.

White Way Lights

For several afternoons this week the White Way Lights on Main street, South Manchester, have been turned on at about ten minutes after five o'clock.

CERTIFICATE GIVEN MEN WHO ENROLL IN THE U. S. SHIPYARD VOLUNTEERS.

Below is a reproduction of a certificate which will be given by the United States Shipping Board to all men who enroll in the United States Shipyard Volunteers of the Public Service Reserve. A nationwide campaign for 250,000 such enrollment is in progress.

GOVERNOR ASKS MEN TO ENROLL FOR SHIPYARDS

"Every Rivet Driven is Blown at Kaiser," Says Connecticut Executive.

QUOTES WIRE FROM PIEZ. Urges Mechanics to Offer Services for Shipbuilding and Tells Them to Remain at Their Present Employments.

Governor Marcus H. Holcomb has requested the newspapers of Connecticut to publish the following message to the people of the state: "The federal government tells us that the submarine danger is not over, that ships are being sunk faster than they are being replaced, and that shipbuilding must be speeded up in order that the U. S. menace may be overcome."

Recently I received a message from Charles Pies, vice president and general manager of the Emergency Fleet Corporation, in which he said: "With our great industrial army ready to take its place as the need for labor in the shipyards grows more urgent, we cannot carry out the shipbuilding program on which hangs the life of our country."

The United States Shipping Board, the department of labor and state consents to defense equipment country have undertaken to enroll 250,000 artisans and skilled mechanics for service in the shipyards. The men thus enrolled will be known as the United States Shipyard Volunteers of the Public Service Reserve.

"It should be made clear at this time that the government asks for absolutely nothing except an enrollment in the shipyards as a part of the war effort. The enrollment in the shipyards will be carried on with a view to avoiding disturbance of existing labor conditions within this state."

"As soon as they can be sent out from the Connecticut conscription cards will be in the hands of war bureaus and town committees throughout the state, and that the enrollment of Connecticut men for shipyard service can be undertaken. The federal shipbuilding board, which calls for this enrollment, has charge of the construction of America's new fleet merchant marine. The Emergency Fleet Corporation has charge of the construction of our navy."

"In this grave national emergency, I call upon the skilled workmen of Connecticut to enroll in the shipyards as a part of their duty. Without question, shipbuilding is a matter of vital importance to our country. The men who are enrolled in the shipyards are the men who are to build the ships which will carry our commerce and our troops across the seas."

Alpines Only 14 Years Old. In this day when ordinary aviation is regarded as little more dangerous than driving a milk wagon, and when in Europe thousands of military airplanes are scouting, fighting, and traveling hundreds of miles in the air, it is not surprising that a man can do after being enrolled in a "sit tight and wait where he is" until he is called for his services. The movement has been endorsed by the American Federation of Labor and its president, Samuel Gompers.

CONNECTICUT TO RECRUIT MEN FOR BUILDING SHIPS

State Defense Council Also Establishes Agency for Other Enrollments.

Aiding Federal Government. Lee A. Korper of Hartford Made Director for Connecticut of Three Government Wartime Labor Exchange Departments—Central Office Opened at the State Capitol.

Connecticut's part of the national program of enrolling shipyard workers is being handled by the Connecticut State Council of Defense through the Connecticut division of a national unit which is being organized to assist in the shipbuilding program on which hangs the life of our country.

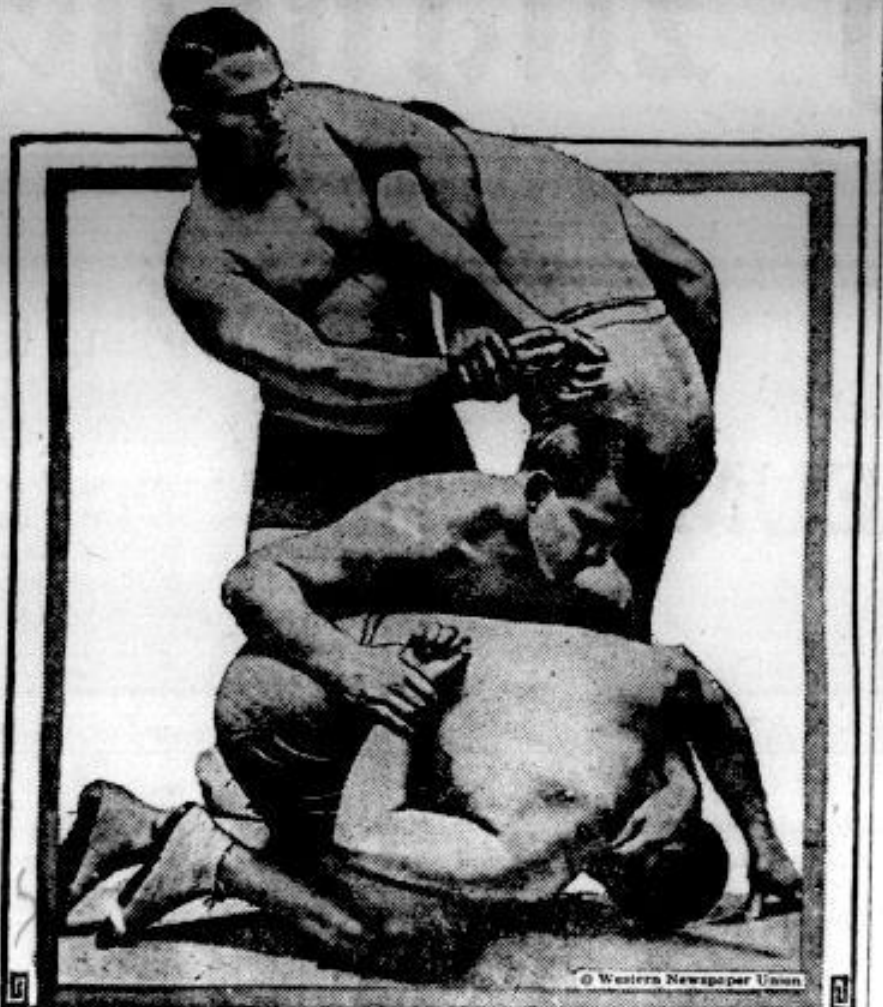

Mr. Korper has opened an office in the capitol and has appointed as assistant state director Allen B. Lincoln. Mr. Lincoln will be in charge of the enrollment of men for shipyard service. The enrollment of men for shipyard service will be carried on with a view to avoiding disturbance of existing labor conditions within this state.

The enrollment of men for shipyard service will be carried on with a view to avoiding disturbance of existing labor conditions within this state. The enrollment of men for shipyard service will be carried on with a view to avoiding disturbance of existing labor conditions within this state.

Watch For It. Tell Your Friends About It. They'll Want To Read It. "What is war? War is smashing the enemy, killing them, destroying them, wiping them out. In a few months long casualty lists will appear in the newspapers and in front of newspaper offices. Names of dead ones will constantly appear in these lists under the captions: Killed, Wounded, Missing. We will read a name in these lists and then, in imagination, will trace the Atlantic and see what it means. We are in France. It is night. We come to a ruined, shell-deshattered village. In the red glare of a bursting German shell we see piles of broken bricks and stones, shattered walls and streets choked with scattered debris. We pass into a field dotted with shell holes and huge piles of tossed up earth. "Another shell bursts and in its blood red light we see a dark, strange looking object in front of us. It is an artillery limber and a gun, demolished by a shell. Dead men and horses are lying around it. What is that shapeless object huddled up against the hub of that spoked wheel? It is the mangled body of one of our boys, one of our Samnies, perhaps our father, our husband, our brother, our sweetheart. He is in the uniform of Uncle Sam. His name we read in the casualty list."

Two New Handball Courts. The Multaonah club of Portland, Ore., is building two additional handball courts and will accommodate 100 players. Jack Kelly an Aviator. Jack Kelly of the Yepper Boat club, Philadelphia, one of the foremost single seaplane fliers in this country, is with the aviation corps at Austin, Tex.

WRESTLING IS JUST AS MANLY SPORT AS BOXING, THOUGH NOT AS POPULAR

Strange that the reformers never raise a howl against wrestling. They go the limit to slam boxing. They bring out their hammer against Sunday baseball and horse racing, but as a rule, they never make as much as a whimper against the mat game. Boxing, according to our best little reformers, is brutal. Baseball on Sunday, and horse racing are dangerous. We have the word of the reformers for it, which doesn't make it dangerous to a whole lot, but they continue to yelp. Wrestling, when properly conducted, is just as much a manly sport as boxing, though not as popular. But wrestling, as it was conducted in the recent international tournament in New York, "Strangler" Lewis, who was much made much of a host except a couple of wrestlers, who protested against losing part of their autonomy.

ED RUELBACH RETIRES FROM HURLING DUTIES

Ed Ruelbach, former star pitcher of the Chicago Cubs in the days of Frank Chance and championships, is done with baseball for all time. He has become associated with the Submarine Boat corporation of Bayonne, N. J. Ruelbach was with the Boston Braves last season, but did little work.

DEFICIT SEEN IN RECEIPTS

Falling Off Noted in Gate Money at Pittsburgh—Retrenchment Will Likely Follow. Successful as Pittsburgh's football season was from a sporting standpoint, the receipts showed a falling off from previous years. War conditions, of course, were responsible and the result will be a general policy of retrenchment, since proceeds from the gridiron sport, as with other institutions, are annually relied upon to provide the sinews for the conduct of other sports.

WARD MILLER NOW IN NAVY

Notre Dame Star Football and Track Man Now in Detention Camp at Great Lakes. Ward Miller, star football and track man of the University of Notre Dame, is in the detention camp on the Great Lakes station. He was discovered by Charles Bachman of the same school, who played on the athletic teams with Miller. Both have agreed to enter the petty officers' school at the end of their detention periods. Miller was considered one of the most promising prospects of the freshman team at Notre Dame ever had. He pulled a tendon early last season and was out of all the varsity contests. He intends to offer his services to the station team.

Army Camp Boxing Instruction Not to Be Empty From Draft. The district exemption board in regard to boxing instruction is in the military service. The board ruled that boxing instruction for men who are not in the military service, and are subject to draft, is the same as other individuals. Two New Handball Courts. The Multaonah club of Portland, Ore., is building two additional handball courts and will accommodate 100 players.

Could Not Eat or Sleep Made Well By PERUNA

Mr. William E. Denny, 1023 Park Ave., Springfield, Ohio, writes: "I find great pleasure in writing you and thanking you for what Peruna has already done for me. I have been troubled with catarrh for years, and it had affected my head, nose, throat and stomach, that I could not eat nor sleep with any satisfaction. I have just taken three bottles. I can eat most anything and am greatly relieved of nervousness, so that when I lie down I can sleep without the least trouble. I recommend it to all those who are sufferers of that dreadful disease, catarrh. Those who object to liquid medicines can procure Peruna Tablets."

YOU COOK YOUR FOOD—WHY NOT YOUR TOBACCO?

YOU know what broiling does to steak, baking to a potato—and toasting to bread. In each case flavor is brought out by cooking—"broiling," "baking," "toasting." So you can imagine how toasting improves the flavor of the Burley tobacco used in the Lucky Strike Cigarette.

OVER THE TOP WITH GUY EMPY

Arthur Guy Empey. The above straight-from-the-shoulder words from Arthur Guy Empey, the author of "Over the Top" should interest every true blooded American and are from one who knows the actual conditions "over there." The News has arranged for the appearance of "Over the Top" in serial form in these columns. A liberal installment will be given each week and you will watch and wait for each succeeding chapter. Don't miss the opening installment to appear soon.

COACH ENTERS FLYING CORPS

C. M. Price, Athletic Director of San Diego High School, Awaits Call as Aviator. A coach who brought a football and a baseball championship of southern California to San Diego in one year was summoned to join the aviation corps. He is C. M. Price, athletic director of the San Diego high school, former San Diego coach in California, and was in the aviation corps in the 1917 championship and the football during the 1916-17 season.

Many Germans and Austrians in the United States Deserve To Be Looked Upon With Suspicion. There are hundreds of spies in this country. Keep your eyes and ears open. Whenever any suspicious act or disloyal word comes to your notice, communicate at once with the Connecticut Council of Defense, State Capitol, Hartford, Telephone, Hartford, Bushnell 50.

America is at war with the most merciless and unhuman nation in the world. There are thousands of Germans in this country who want to see America humiliated and beaten to her knees, and they are doing and will do everything in their power to bring this about.

Take Nothing For Granted. Energy and alertness in this direction may save the life of your son, your husband, or your brother. You can serve your country by making yourself a vigilance committee of one.

Congealed Gasoline

Watkins Brothers gasoline station for automobile supply was caught in the heavy freezing and put out of commission. It had to be taken down in order that the matter of thawing out might be accomplished. Thawing out gasoline pipes is not a healthful, pleasant or desirable occupation. But in this case it had to be done. George Wright was detailed for this delicate operation. George is an experienced workman in the plumbing trade and brought his skill to bear in a satisfactory manner. Gasolines is not supposed to contain any water but it would appear that such is not always the case. Jack Frost was not to be deceived by the similarity in color or the transparency of the two substances. The freezing tolerates no substitute when it comes to a matter of discriminating between what he shall congeal and what to omit.

Thawing At Last

For the first time in three days Tuesday brought us one day and night that was free from frost. While there was not much thawing going on at that date there was enough to loosen the ice and snow on the sidewalks in the business section and permit of the removal. Wednesday brought us a continuation of the gentle thawing process and as a result the dry brook carried a considerable body of water on its way to the Hockanum river, and from thence to the Connecticut River and down to the Sound. The gentle but kindly and persistent rays of the sun did a work in the removal of the ice bound fountains which held all New England in its Maciste like grasp, than man could accomplish in days and days of not the least and most constant effort.

Violets in All Lands. Violets are natives to nearly all lands and thrive very generally wherever the weather is not too hot or too cold, but none in the sun.

PARIS AGAIN GAY; CLOTHES CHANGE

Better Feeling in French Capital Having Its Effect on Women's Fashions.

AMERICAN AID RESPONSIBLE

Satin, Which Has Been Favorite Material All Winter for Outdoor Wear, Is Expected to Continue in Favor.

New York.—Among the accumulated glooms in the war news there are little suggestions of cheer. One of these is the undoubted improvement of what might be called the general atmosphere of Paris. Every arrival from that city, every fashion letter, even the more serious chronicles, speak of the intangible change which has come over the municipal conscience. Apparently, nothing is changed; yet in the restaurants and hotels the menus are more appetizing; the diners are gayer; the theaters are fuller and the pieces played there are more interesting and better mounted. At the opera, at the conferences of fashionable lecturers, at the few concerts, at all the places where society gathers, the same story of better feeling of increased interest in clothes and all that pertains to them, of the discreet reappearance of jewelry, is told by so many witnesses that we are forced by mere weight of numbers to believe them.

Paris itself wonders. But make inquiries as to the reason, and after more or less deliberation you will receive from all quarters the same answer. America is responsible.

The American troops are paid on a scale that would turn a French war minister white with horror. Besides, many of the broad-shouldered officers now wearing Uncle Sam's uniform are men with bank accounts which would be respected even in extravagant New York. Put any American with money in his pocket in Paris, and his impulse is to spend it and keep on spending it. Wearing brown clothes and a flannel shirt isn't thought to alter that instinct. It's too deep-seated.

The visiting American officer goes to the theater, of course, though unfortunately he is apt to be a little deaf in his French ear. But his eyes are keen enough; and by all accounts he gets his money's worth optically if not orally. Parisian plays are said to be better and to be more attractively costumed than they have been since 1914. There is no ban on military or evening dress, on the stage, at least, though the prohibition still ex-

Gown with draped skirt. It is of pale-pink tulle, with the bodice embroidered with white silk. Old rose velvet ribbons run over the shoulders and around the waist. The skirt is caught up at one side, and the other side is valled in white tulle.

tends to the audience. However, we are told that the Parisians are feeling so much happier that she makes one thickness of tulle fulfill official requirements, and the demi-toulette grows more like formal "evening dress every week. The demi-toulette, however, is nothing new to France. There has always been a certain popularity for this type of gown in Paris, and worn with a hat. It was often seen at the theater or at restaurant or hotel dinners before the war.

Paris Again Gay. Some of the recent dress nights in Paris have been dignified by the wearing of particularly good clothes. This was undoubtedly true of the

premiere of Jeanne d'Arc, a work new to Paris, though not to London. "Hait toilettes," which were only to be distinguished from the ante-bellum evening gowns by the above-mentioned use of a film of tulle, were worn by all the women; and many of them appeared in interesting and unusual head-dresses. Paris seems to feel the necessity of headgear with a semi-erect neck; hence the introduction of all sorts of amusing arrangements. Oriental turbans, jeweled effects, elaborate hats with danglers over the ears, all of these and many more were seen, and they were creations of the best dressmakers of France.

In the street, the Parisienne still champions the frock and coat, or the "coat dress." All winter, satin has been a favorite material for outdoor things, interlined, of course, for warmth, and simply slashed with fur. Satin will continue in favor and there is mention of a revival of the "woolback" variety, which had some success a good many years ago. For spring, the combination of materials, which seems to please our own designers and manufacturers equally well, will be featured.

New hat for the spring. It is of dark straw with a large flower worked out in the front.

There really ought to be few women with "the face" to knit in colored wools for their own adornment. In these days of crying demands from the army and navy. But the slip-on garment without sleeves has taken such a hold upon our affections that it is difficult to think of abolishing it altogether. Nor need we do so. American designers, anxious to serve their soldiers and sailors in this vital matter, have had the cleverness to offer the same type of garment in materials of which there is, at present, no such pressing need.

Vests of fannels, of heavy shanings and other rough weaves of silk, even of satin, made almost exactly like the sweater vest of last summer, have been made up and are being offered to women whose patriotic intention might weaken if these novelties were any less attractive than they are. Jersey, both in wool and silk, is another favorite material for them.

Jersey Weave Taken Up. In fact, Jersey weaves have not in the least diminished in popularity. The first wool jersey woven in this country was rather too reminiscent of Uncle Josh's red underwear to have a success with fastidious women. But the weave has greatly improved.

As for the silk varieties, there is a heavy sort of vegetable fiber, which is immensely satisfactory. It is heavy and lustrous and not too stretchable. It hangs in the rich, long folds that cling to the figure and lends itself particularly well to strictly one-piece frocks or coats which hang from the shoulders in an Oriental effect. Such material is never lined, but it is worn over a lining of some sort made especially for it.

Paris is using this heavy kind for outdoor coats, some of them of the slip-on type, some with buttons, which have failed to achieve success with us, but which she still fancies. Our hotels, restaurants and houses are still, in spite of threatened coal famine, so well-heated, for the most part, that we have retained our habit of slipping off our outdoor garments at the slightest provocation. The idea of wriggling out of a coat made all in one piece or pulling it over our heads like a sailor boy taking off his blouse, does not appeal to us; neither does the French woman's way of getting it on again, which is simply to make a circle of the garment on the floor and step into the middle of it, pulling it up around her. Here is another reason for the retention of the small hat. Such a feat would be impossible in a big one.

Most of the milliners say small hats for spring, for the beginning of spring at any rate. Lewis is reported to have said "toppers" very distinctly and to be making them to suit individual faces, by building them on the head of a client, fold by fold. It must be an interesting operation to watch. Of course, as long as hats do such things, hairdressing is doomed to remain very much as at present. And no one has either time or inclination to indulge in the making of elaborate puffs and curls in these times of strenuous endeavor, war work and 24-hour waking days.

ETON JACKET TO BE POPULAR

Sleeves on Spring Suits Are Tight and Cuffs, More Often Than Not, Are Exaggeratedly Flaring.

In one Fifth Avenue house, where strong stress is laid upon the creation of American-made suits and gowns, there is a decided movement toward the Eton jacket as a standard for spring suits, says the New York Times. The argument is that, if wool must be conserved, then this is the best manner in which to do it. An Eton jacket is a graceful thing and it has had a great feminine appeal through all the ages. In this, its latest adaptation, it has lost none of its former charms and gained new ones.

Three or four points are to be distinctly noted about the new spring things—Eton and otherwise. One is that the sleeves are tight and set into normal armholes. There is a little or no echo of the sleeves that fall into the waistline. Cuffs are, more often than not, exaggeratedly flaring and are cut as parts of the sleeves themselves.

Often they are faced with a contrasting color of silk. Collars of white are taboo. Either the collar is made of the same material as the gown or of one shade darker or lighter or of a colored linen. There is a great deal of talk among those conservatives who become wedded forever to a certain style, about a white collar softening the line. There are white collars that are as hardening as can be and there are colored collars and plain finishes quite beautifully softening. It is all in the art of the thing, after all, and in the way that it is handled.

HINTS FOR THE BUSY WOMAN. New headresses follow Russian lines. Little hats have big ears composed of straw.

Jersey in silk and wool is featured by Bodier. Slipover jackets are still exploited by Lanvin. Dublins knitted of wool decorate capeaux of crepe.

Sailors of duvet de laine are faced with pants straw or lisle. Banglows promise to be as good next summer as last for wear at the country club.

Patriotic Paris will select a spring suit of silk and conserve the wool. Semi-tailored blouses of satin or crepe are in the best of style. Pockets no longer form ornamental designs, but are hidden away in seams.

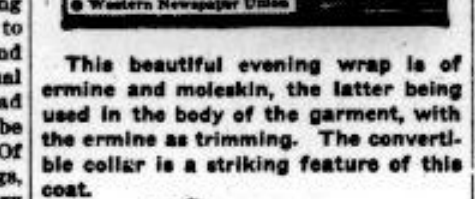

A new domino check is attracting attention at the fabric counter. Much jet is being used by the high priestesses of hatdom. Athletic "undies," made of cotton batiste, are patterned after garter belts worn by men.

Lingerie frocks are composed of the handkerchief line in pastel shades. Hercules braid comes again into the dress light and puts outshine in the shade.

Silk Jerseys show motifs in high relief worked in flat and raised stitches. Knee-length coats of black satin will be worn with white frocks this coming summer.

Festive frocks of net are trimmed with silk rib. Not in all the pastel shades are fashionable. Palm Beach is in a regular rainbow glow of these delicate tints and colorings.

EVENING WRAP OF MOLESKIN

This beautiful evening wrap is of ermine and moleskin, the latter being used in the body of the garment, with the ermine as trimming. The convertible collar is a striking feature of this coat.

A Coat Dress. When a coat dress has a waistline at all it is either high or low, never quite in the middle of the waistline as the old-fashioned waistline is supposed to be. The coat which has only a back waistline has it low, and both the upper and lower parts of the coat are lightly eased into the band which indicates it. The mesh belt is more often placed a little high on one side, with a drop on the other, where it is knotted or looped.

PERCY ROBINSON READY FOR CALL TO BRITISH COLORS

Percy Robinson of Spruce and Maple streets gave up his position last Saturday in Cheney Brothers silk mill and is awaiting a call to the British colors. It will be recalled that he enlisted recently at High School hall when the English recruiting officers were here. He subsequently presented himself for examination and was declared to be fit for the service. He expects to be called to Canada and join a British Canadian regiment. He is expected to be put into training and in due course of time sent abroad to do military duty for his native land. Before leaving the mill last Saturday his fellow workers gave him a surprise. They presented him with a wrist watch, a safety razor, a supply of shaving soap and a trench mirror. They also presented him with their good wishes and of their hope that he might come back well and strong at the end of the war. The presentation was made by Carl Boop. Mr. Robinson acknowledged the gifts and good wishes of his shopmates and assured them that he would bear in mind kindly remembrance while performing his duties as a soldier of Great Britain.

FALL DOWN STAIRS UPSET NERVOUS SYSTEM OF ALFRED ANDERSON

Alfred Anderson of Cottage street is slowly recovering from the effects of an accident which befell him last September. He arose from his bed during the night and started for the toilet. In some unaccountable manner he missed his footing and fell headlong down the full length of a long stairway striking upon his head and producing a severe scalp wound. This led to a general disturbance of the nervous system which has held him prisoner ever since and which has had him bound hand and foot. He was so helpless for a considerable portion of the time that he could not raise his hands to hold a newspaper. He has been treating with specialists in the endeavor to restore his health. At present he is able to drop on his back with ease and is evidently regaining some of his lost powers of locomotion and of movement of arms and hands as well. His sight has also been affected. It was a dreadful shock and the results were far-reaching.

ADD TWO STARS TO MOOSE FLAG

At the meeting of the South End Lodge of Moose last Wednesday evening it was announced that two more members had joined the lodge. David McCann of Hackmatack street reported for service in the navy at Pelham Park, N. Y. this week and a letter was received from Charles Hartz of East Hartford, stating he had enlisted in the signal corps and was stationed at Charlotte, S. C. With these two additions the local lodge has twenty-nine men in the service and more are expected to leave with the next batch of selectives to go from this town. District P. A. Monte made a report regarding the proposition to form a thrift stamp club, but it was decided not to form a club with the lodge members. All of the members present at Wednesday's meeting had already started the purchase of their stamps and as almost all of the Moose will be reached through the silk mills, it was decided that a Moose thrift club was not necessary.

Heatless Monday

Heatless Monday was observed here this week by shutting down mills and closing stores. Snow had fallen during most of the day on Sunday and in the middle of the day Monday the clerks in the business section of South Manchester found an opportunity to remove some in part from the sidewalks. The weather was not so cold as it had been the preceding days, but it was far from pleasant to be out of doors unless one had some active occupation. Snow blowing snow off the sidewalks or chopping or sawing wood were in order and many who had no other tasks before them took advantage of a Heatless holiday to do such work. The scarcity of coal makes sawing wood and chopping same very popular at the present time.

Critically Ill

John H. Williams, janitor of the House & Bait block on Main street, has been critically ill with a complication of troubles, including a severe cold, bronchitis and threatened pneumonia. He was placed in charge of a trained nurse last Tuesday and is being given every possible care and attention. He has been more or less weakened during the unusually severe winter weather of the past three months and his duties have

Local representative for the Simplex Kerosene Gas Generator. A device to place in parlor or kitchen stoves. Hot water and steam heaters. Gives more heat than coal and wood at less cost. No dirt, no ashes, no odor, no smoke. Simplex Gas Generator Company, 38 Empire St., Providence, R. I.

OLD LINE ACCIDENT AND HEALTH Insurance Company has excellent proposition to offer whole or part time Agents in Connecticut. Write National Casualty Company, Detroit, Michigan.

been arduous. He caught a cold some weeks ago and little by little this has been added to. This condition lowered his vitality and tended to reduce his resistance to attack. His appetite failed and weakness followed. He opposed these possibilities as much as possible and stuck faithfully to his tasks. He did not want to yield and was able to hold out until the break in the cold weather arrived early this week. It is hoped that he will be restored to health and vigor and be able in due course of time to resume his duties. The rites of the Catholic church were administered to him last Tuesday afternoon.

Public Welcome Movies

The moving picture theaters in South Manchester played to overflowing patronage at the matinee last Monday. It was observed as Heatless Monday and the mill operatives regarded themselves generally by attending the shows. There was little else for them to do. It was a Godsend to them that the moving picture houses were kept open for their comfort, accommodation and entertainment and it was greatly appreciated.

Talking Fire Alarm. The photograph and telephone are employed in a South Carolina inventor's automatic fire alarm that calls up a central operator and tells her just where the blaze is starting.

THREE REASONS WHY GERMANY CANNOT WIN THE WAR

The outstanding and commanding object that absorbs the attention and engages the anxiety of our almost entire people is the great European war, or more correctly speaking, the World War, as the nation's uninvolvement are precisely negligible.

Man in the littleness of his mind, thinks still to be the important side of the God to be on, if He wants to maintain His character of being all-wise and mighty unimpeded.

While He allows all this in His midst whether in times of peace or war, He has His own plans and purposes that He is constantly carrying out to consummation, and the nation that is on His side will always win, whether their guns be big or little, or their battalions few or many.

First—because she is the unswerving possessor of Alsace-Lorraine.

She has what she got to do with. She has the right to it. She has the right to it. She has the right to it.

Second—because she is the unswerving possessor of Alsace-Lorraine.

She has what she got to do with. She has the right to it. She has the right to it. She has the right to it.

Third—because she is the unswerving possessor of Alsace-Lorraine.

She has what she got to do with. She has the right to it. She has the right to it. She has the right to it.

She has what she got to do with. She has the right to it. She has the right to it. She has the right to it.

is delineated. Now what is the meaning of the feet of mixed iron and clay? And what are the territorial limitations of this empire?

From mass monarchial power, clay means Democracy, as the five toes on each foot, the last phase of the Gentile rule shall consist of five eastern and five western powers, some under Democratic rule, all in one common confederation, for their own purposes of prosperity and security.

We may also look for a break between Austria and Germany before this new alliance is consummated. Shortly since inseparable difficulties to this confederation are being raised, such as Russia's share of the spoils, not only being an open gateway to the sea through the Dardanelles, but Constantinople the capital of Turkey.

The second and even more vital reason why Germany cannot win the war is that she has Turkey for an ally. You see what difference can be made by being taken into consideration as the help of any ally must be advantageous. Naturally speaking, and as men view things it should be, but numbers are not everything.

While He allows all this in His midst whether in times of peace or war, He has His own plans and purposes that He is constantly carrying out to consummation, and the nation that is on His side will always win.

First—because she is the unswerving possessor of Alsace-Lorraine. She has what she got to do with. She has the right to it.

Local Paragraphs

Mr. Dwight W. Blish has returned from a Hartford hospital where he recently underwent an operation.

Frank Sargeant of Hartford, who formerly had charge of the outside workmen for Cheney Brothers, is undergoing treatment at a private hospital in Hartford.

Maurice Elman of the firm of Elman Brothers has been indisposed at his home on Main street this week with an attack of grippe.

Miss Louise Burr Douthett of Hartford is the guest of Charles Stenborg and family of Eldridge street.

The Women's Foreign Missionary Society of the South M. E. church will meet at the home of Mrs. Charles Stenborg next Wednesday afternoon at three o'clock.

Mrs. Catherine Taylor of Cottage street is in a greatly endeavored condition owing to weakness of the heart. She has been suffering from this cause for a considerable period of time.

Miss Minnie McDonough of Ridge street has been indisposed for the past two weeks with the grip and unable to attend to her duties as bookkeeper at the Park Hill Grocery on Chestnut street.

Mrs. Nellie Farrell of Oak street is ill at the present time. She has been invalided for several years past, but the present winter has been unusually severe, and its pressure has been felt by Mrs. Farrell very much. Her vitality is greatly lowered and she is unable to put up customary resistance to attack of any sort.

Maurice Ferris and bride have returned from their honeymoon and the groom has taken his usual place as superintendent of Ferris Brothers body of plumbers, steamfitters and tinners. Mr. and Mrs. Ferris have a newly built and furnished home on East Center street which they are to occupy.

Raymond Charter and bride have closed their honeymoon and are back in South Manchester. They are making their home temporarily with the bride's parents, Michael and Mrs. Sheehan of Keeseey place.

The Junior Boys and Girls Club of the Center Congregational church are to give an entertainment at the Parish Hall Friday evening, March 1, for the benefit of the Red Cross and of the Y. M. C. A. They will also be a sale at the same date and place under the auspices of the club. Tickets for the event are now on sale.

A son has been born to Earl and Mrs. Newman of Ridgewood street.

Robert McKay manager of the local High School basketball team is suffering with rheumatism and is at the hospital.

Postponed

The Thirty-second anniversary celebration of South Manchester Division Sons of Temperance, which was to have taken place this evening at the parish house of St. Mary's Episcopal church has been postponed. It was originally intended to hold the anniversary at Cheney Hall, but has been done for the past 21 years. It is owing to the closing of that hall for the winter different arrangements had to be made. It is likely that the celebration will take place either next Friday evening, or the next Friday evening in March. E. L. G. Hohenhalt has attended 31 anniversary celebrations of the division and is very anxious to attend the 32nd as well.

MASQUERADE BALL CHANGE OF DATE

The committee in charge of the annual masquerade ball to be given by the St. Mary's Young Men's Club have decided to have the event take place this year at Cheney Hall, Thursday evening, April 11th. It was originally intended to give the ball at Cheney Hall Thursday evening, February 7, but owing to the closing of the hall for the winter the event had to be postponed. The original plans concerning the ball will now go forward with the change of date as mentioned herewith. The lady wearing the prettiest costume is to be given a diamond pendant and the gentleman appearing in the most comical makeup a carbuncle gold ring will be given. This is a custom adopted a number of years ago by the St. Mary's Young Men's Club and is strictly adhered to by them year after year.

Promote Are Hand Sordid. (Chosen patients are usually hand washed by women after being fitted.

OVER THE TOP

DRAMATIC RECITAL

OF LIFE IN WAR TRENCHES OF EUROPE THAT STIRS MEN'S BLOOD.

Guy Empey Tells Absorbing Story That Carries Conviction Of Men Who Faced Death In Its Most Ghastly Form. We'll Publish It.

Arthur Gay Empey's experiences in "Over the Top" are grim but they are thrilling and their recital is lightened by a touch of humor—the same humor that has enabled this boy to see through the scorching fire of war and come out, wounded in body but sound and sunny in spirit. Watch for the opening chapters of this famous story which will appear shortly in the columns of The News.

With all its dramatic moments, "Over the Top" is not a recital only of the horrors and the perils of modern war. In relief, there are accounts of the fun and the comradeship of the trenches. There are compensations for the hardships and the dangers that the soldiers are forced to face and these are described by Empey in a most interesting way. The story is a startling mixture of sunshine and gloom as it may seem, the sunshine predominating.

The story, also full of information that is of practical value and very great interest to all American boys, tells of the life in the trenches, how the trenches are made and consolidated, how bar-wire is used to ensure the charging enemy, how machine guns are operated, how the fighting men are fed and clothed, how the soldiers occupy their time when not engaged in actual fighting.

There is not a man, woman or child in the United States today who is able to read, who is not vitally interested in all these things.

Though young in years, Empey had a varied career before he went to France to do his bit for humanity.

He had sailed around the world. He had experienced shipwrecks and other adventures and had been in the army of the United States and he had worked with one of the most famous detectives of the country. He was in New York when the Lusitania was sunk. He waited for a time for his own country to declare war. It did not do so and after a few weeks he would wait no longer. He went.

Empey fought hard in the trenches and he writes like a fighter. He uses clear, vivid, forceful English that every reader is understood and thoroughly enjoy.

Mrs. Croskey III

Mrs. John Croskey of Eldridge street has been suffering for some time from a complication of troubles which have brought upon her a weight of doing Christmas shopping. During the cold weather preceding the holidays she was in Hartford on a very cold day and had to wait a considerable time for a trolley which carried her home. She was so fatigued and so tired that she was unable to get out of doors and take her accustomed place in life.

Regular monthly meeting of the Chamber of Commerce is to take place next Monday evening at the Recreation Club. There will be a discussion of the referendum, issued by the National Chamber of Commerce "On a proposal to Discriminate against Germany in trade after the war, if necessary for self defense."

SAVATION ARMY WINS HANDSOMELY

The big drive being made by the Salvation Army all over the United States for the purpose of gathering in One Million Dollars to be used in furnishing necessary comforts and protection to American soldiers at home and abroad met with a kindly reception here and the town has scored the customary success in this undertaking, the same as it has in all other works of mercy which it has undertaken for the benefit, sustenance and comfort of the soldiers enrolled under the Stars and Stripes wherever found.

The local corps of the Salvation Army set out to gather in the sum of \$2,000 in this town alone. At the present writing there are some \$2,300 in the local treasury and contributions are still coming in freely. It looks now as though the very handsome figure of \$2,300 might be reached before the local committee who are working very hard to see that the fund is not short.

The attention of housekeepers is hereby directed to the new restriction placed upon the sale of wheat flour by the United States Food Administration, which is in brief as follows and must be strictly obeyed:

"Regardless of what exemptions and modifications there may be made, the sale of wheat flour in Connecticut is permissible only with an equal amount, pound for pound, of some article of cereals, such as barley, rice, flour, or rolled oats.

The attention of wholesalers is again directed to the fact that they are required to distribute their flour in such manner that no town, city, state or district receives more than its share and no more than seventy per cent of the amount it received in the corresponding period of 1917."

"SOLDIERS LETTER NIGHT" FOR MEMBERS

KNIGHTS OF COLUMBUS TO HOLD WASHINGTON'S BIRTHDAY MEETING

Messages from Council's Soldiers Members in France and in American Encampments to be Read Monday Evening. Patriotic Program.

"Soldiers Letter Night" will be observed by Campbell Council, Knights of Columbus, at an unusual meeting arranged for next Monday evening.

The Knights of Columbus throughout the country will observe Washington's Birthday with patriotic exercises, and the Manchester council, in common with the other councils of Connecticut, will follow this plan.

LETTERS FROM THE FRONT

At Monday evening's meeting there will be read to the members of the council several letters which were received this week from their brother members from this town who are fighting in France and who are with the national army at the different encampments in this country.

Among those from whom letters will be read are three officers now at the front in France and who are still members of the Knights of Columbus in this town: they are Dr. J. A. Higgins, with rank of lieutenant, now a member of the British Expeditionary forces in France; Captain Thomas H. Ward, with Corporal's rank in France; and one of those under fire at Verdun, Corporal Edward V. Harrington. In addition, there will be communications from several Manchester Knights who are at Camp Devens, and at other encampments, and in the navy. The letters will be received with eager attention by their brother members.

THE LIFE OF AN FIGHTING PROGRAM

The life of our first president, Washington, will be one of the chief topics, and there will be a special program of patriotic airs. The program will be under the direction of the members of the Knights of Columbus, Dr. Edward G. Dolan, and will consist of the following numbers:

Opening: The Star Spangled Banner. Patriotic Solo. Thomas J. Quish. Soldiers Letters. Selection. Edward F. Fowler. Address: Influence of Life of George Washington on American History. Fred H. Wall. Selection. Keep the Camp Fire Burning!

EXEMPTION BOARD

The exemption board of this district announces that the following persons from this town have been denied exemption from the operation of the selective draft on industrial or agricultural grounds: Joseph Ritchie and Arthur Carlson of South Manchester. Appeals were denied Frederick W. Woodhouse and Joel Bess of South Manchester. Claims were granted Edward W. Fish and Holger Christensen of South Manchester, and Andrew Mitchell, Arthur S. Balch and John H. Kowdrick of Manchester. Frederick W. Woodhouse conducts a market on Pine street. It will now be necessary for him to make some arrangements looking to the transfer of the business, as the call to the colors may come to him very soon.

WORKERS MAY HAVE TEN-HOUR DAY SOON

There is a general feeling about South Manchester that as fuel conditions and weather permit the resumption of the ten-hour work day for the milk operatives would be hailed with delight. The plan is vague heretofore was to work for ten hours five days each week and then to have a Saturday half-holiday. This seemed to meet with the approval of employees generally and it is believed that it may be restored in the near future. Under the present working plan of nine hours for five days each week there is a loss of an entire day's pay weekly from each employee. This was introduced as a war measure and as such was accepted. The old plan however would be far more satisfactory and would reduce the weekly wages by only one-half day's pay each week.

SCHOOLS LENGTHEN TERM

It has been decided to continue the school period in the month of June in the Manchester District. Incorporated this year one week later than heretofore. This is to be done in order to compensate for the closing of the schools in the month of May. It is believed that it may be restored in the near future. Under the present working plan of nine hours for five days each week there is a loss of an entire day's pay weekly from each employee. This was introduced as a war measure and as such was accepted. The old plan however would be far more satisfactory and would reduce the weekly wages by only one-half day's pay each week.
