### P. U. COMMISSION ELABORATE EASTER DISPLAY at Wise, Smith & Co.

ON HARTFORD TRULLEY LINES OF CONNECTICUT COMPANY THIS WEEK.

ocal Case For Elimination of Fare Zone Held Back. Public Here Feel Injustice of Same aud look Forward to Day When It May Be Abolished.

The Public Utilities Commission decided this week that the six-cent trolley zone fare established by the Connecticut Company last October is not unreasonable. The question came before the commission on a protest made against the six-cent fare zone in the City of Hartford, and upon a petition that it be abolished and that the company be compelled revert to the five cent fare zone i vogue prior to the date mentioned.

It was intended to have a protest from this town also presented to the public Utilities Commission asking for the abolishment of the fare zone between the cemetery in East Hartford and Laurel Park. Owing to the distarted war conditious, especially with railroads generally, it was determined to hold the matter in abovance in so far as the case of local

trolley customers is concerned. It is apparent from the result arrived at with reference to the petition of Hartford officials that the decision to defer action upon this matter by the officials of this town was timely and well advised. Three is not the slightest likelihood that such an ap peal would be sustained by the Pub lic Utilities Commisson at the pres-

The feeling in the minds of the general public however is not changed by the decision announced herewith. That an opportune time may offer later is not outside the probabilities. Should such an occasion appear it is believed that necessary steps will be taken to bring about the removal of what the majority of the users of the local trolley lines believe to be rank injustice. Complaints about that short fare zone are lond and long continued. There are also numerous daily complaints about the unsatisfactory service which has been doled out to trolley users on local lines during the past ALARM CLOCKS POPULAR severe winter.
