Aaron Johnson, James H. Johnston, Dr. T. H. Weldon and Willard B. Rogers are not employed or stockholders in corporations that employ thousands or own public utilities. They can be fair with you, Mr. Workingman, because their interests are not opposed to yours. You can talk with them freely and they will listen to you. They have rid the town of a bad system of private paternalism in public affairs. Their part in governing your town for the past year has been upright, honorable and surprisingly economic. Despite the high cost of edibles, fuel and such Dr. Weldon and Mr. Rogers have saved more than \$2,000 in the charity account, and they cared for the poor more humanely than previous charity boards. With a 35 per cent. increase in the cost of labor and materials for the highway account Aaron Johnson and James H. Johnston managed this department so that the increased cost to the town was only 12 per cent. Give credit where credit is due. Mr. Taxpayer, if you care for your own interests, you will

VOTE FOR JOHNSON, JOHNSTON, ROGERS and WELDON NEXT THURSDAY

In one term of the legislature Willard B. Rogers secured cheaper electricity for the town. That is more than all the representatives in the town's history accomplished. Will you send him back or vote for a Rubber Stamp Man who will only be an errand boy?

Just a line to let you know that I am feeling fine and that I didn't have a touch of sea sickness on the way over to this side of the water. That is more than some of the rest of the fellows can say. The quarters we had on the way over were fairly good only it was quite close sleeping in a narrow space.

I almost forget, I want you to send me an American paper say twice a week. Send me The Sun, you know the paper I used to buy at home.

Dear Father and Brother: It is some time since I wrote you but you might expect this from now on. I am feeling O. K. and I am enjoying myself in Camp Devens, France. It is an old French camp handed over to the Americans.

I wish you would drop me a line now and then to let me know how things are at home. We expect to stay here for some time.

I have done some traveling since I saw you last. Some 1,000 miles by water and about 1,000 miles by rail. We traveled two days in France without a stop before we reached this camp. It is quite hot here and it is a sandy place but I expect to get used to that.

I wish you would drop me a line now and then to let me know how things are at home. We expect to stay here for some time.

Remember, Tuesday, September 10th is primary day and the polls will be open from 9 o'clock in the morning until 8 o'clock in the evening.

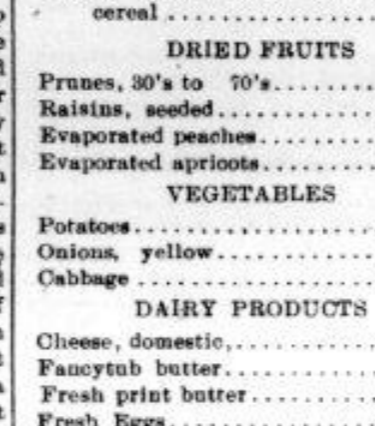

All men between ages 18 to 45 years, both inclusive, who have not already done so, are obliged to register for the selective draft Thursday, September 12, 1918. Registration for this town is to be made at the town hall. The hours are from eight o'clock in the forenoon to eight o'clock in the evening. "Patriot will register—others must."

What is a Branch House?

The Branch House is the place in the packing organization where what the packing plant does for you is put where you can use it.

Each one is in personal charge of a man who believes in what Swift & Company is doing for people and wants to help do it.

Meat is shipped to the branch houses direct from the packing plants in Swift & Company's refrigerator cars, in such quantities that it can be disposed of while fresh and sweet.

Your meat dealer comes here to buy your meat for you—unless someone else can treat him better than we can.

So you need the branch house in order to live well; and the branch house and the packing plant need each other, in order to be useful to you.
