SOUTH MANCHESTER CONN., FRIDAY, SEPTEMBER 20, 1918

NEW FALL COATS

These splendid coats, so fashionably designed and carefully made, represent the cream of the styles which have been proclaimed correct.

Slender lined, with slightly flaring skirt, beltless or with narrow belts, various types of sleeves, shawl or convertible collars, bands of fur on cuffs and the bottom of the skirt-these are some of the important features which Dame Fashion decrees shall be embodied in the coats for Fall, and in this display, these features are shown to the best advantage.

All quote prices which should not fail to induce immediate purchasing; for to the fact that we placed our orders for them early when prices were much lower than they are now, we can well afford to offer them at saving sums.

You Can't Eat Meat 100 Miles Away

Preparing meat is only a part of Swift & Company's usefulness.

The finest meat in the world wouldn't do you any good one hundred miles away from your

Swift & Company efficiency-has made it possible to place complete lines of products in the smallest and most remote

To be sure the work is done well Swift & Company, through its branch houses and car routes, brings the meat to the retail dealer for you.

Swift & Company lays out car routes covering towns—big, little, medium size -which are not served by a Swift branch house.

Salesmen find out in advance what is wanted by the dealers in every town.

They are followed by refrigerator cars loaded with retailers' orders, which are delivered at each town-ffesh, clean, and sweet—once or twice each week.

Swift & Company operates a large number of car routes like this, from fourteen distributing plants.

This is a necessary and natural part of the packers' usefulness. It fits into the industry in an orderly, effective way. It makes better meat cheaper from one end of the land to the other.

SKIRTS ARE TO

the Fashion.

New York.-It is difficult to talk of

What is called the new skirt was dvanced last December in America by American designers, and it had been exploited here for house gowns six months before, so it is not new, recites a fashion correspondent. It might be called a purely American design, although the house that exploited it for the evening is under the strongest French influence. However, it was an independent action and nad nothing to do with inspiration from Paris, The second American house that started the long skirt for the street cted in an independent manner. This skirt was not taken up, although it This outfit combines all the quali- was constantly worn by the woman ties of an attractive and a comfortable who designed it. We are rather slow garment. The wearer surely feels in to catch on to a new fashion, but when place in the garden. The garmentels we do like it we overdo it. Therefore composed of a gally flowered chintz It is likely that the long skirt will besmock, buttoned knee brecches and come an accepted thing, in mass, before Thanksgiving. This prophecy may be wrong. It is no time to fore-JAPAN AFTER OUR FAN TRADE cast anything in any quarter of life. Modish Suits For Misses

To retain the grace and charm of girlish lines and at the same time, possess that air of "smartness" every girl admires in dress, is the object of these suils.

Every model on display owes its presence here to its chic stylish lines and its dependable quality fabrics. Broadcloths, duvetyns, and other suede finish cloths are made up into the most delightful suits and the trimmings of braid and buttons, etc., are most artistically applied. They're priced very moderately too-a point well worthy of consideration.

These newest of the new garments cannot fail to please both mother and daughter. We invite your inspection.
