

BOARD OF SELECTMEN ORGANIZED FOR YEAR

AARON JOHNSON CHOSEN AS CHAIRMAN AND WILLARD B. ROGERS AS SECRETARY

Manifestation of "Big Four" Power Shown at First Meeting. Change Made in Tree Warden, Superintendent of Parks, Police Commissioner, Building Inspector etc.

The newly elected board of selectmen met at the hall of records last Tuesday afternoon for organization. All members of the board were in attendance and they were sworn in by Judge Olin B. Wood.

WILLARD B. ROGERS, Secretary Board of Selectmen

AARON JOHNSON, Chairman Board of Selectmen

as clerk. Nominations for a permanent chairman were then made and Aaron Johnson was the choice.

The appointive officers were taken up. On the board of health the present members were named, as follows: Dr. D. C. Y. Moore, J. D. Henderson and George M. Barber.

West cemetery, Walter Oloot, Arthur Manning and John Treach. Town physician: All the practicing physicians of the town.

Library Director, Edith Cowles Strickland. Sencophar, R. W. Smith. Seal of Weights and Measures.

William C. Cheney, New Member Board of Selectmen. Henry L. Wilson. Enumeration of personal taxes, Thomas Weir, and preparation of rate book, Thomas Weir.

Police Commissioner, E. J. Holl. Board of Relief, John M. Sherry. Superintendent of Hall of Records and of town hall, Patrick H. Haffron.

The efficient work performed by the retiring chairman, Howard I. Taylor and suggested that a rising vote of thanks be given Mr. Taylor for the capable and efficient work he had performed in behalf of the town.

Fighting Fourth Liberty Loan Facts and Figures

FIVE GREAT REASONS FOR LIBERTY BONDS

1. There is today in France the greatest army that has ever fought under the American flag. Upon that army hangs the destiny of the United States. These troops had to be trained and equipped. They had to be transported to France in spite of the German submarines. In France the self United States had to make ready for them. There were no available weapons. Adequate ports had to be created. Harbors were dredged, piers were built and equipped with all the latest devices for discharging cargoes. Vast storehouses were constructed. Railroads were built and cars and locomotives sent from the United States. This in itself was one of the most amazing feats of the war and without it we should have had no armies at the front but small detachments filtered through the French and British lines.

2. The American army in France is the product not only of the military power of the United States, but of the financial, economic, industrial and agricultural power. American energy and Liberty Bonds made possible our fighting army. That army is the largest in our history and it is winning battles in France. It is not more than 200 miles from the German army. It is in France because the German army is in France. It is not more than 200 miles from the German army. It is in France because the German army is in France. It is not more than 200 miles from the German army. It is in France because the German army is in France.

3. Failure to win a decisive victory would mean the delivery of the American people into economic bondage for generations. A fate similar to that of Russia awaits any other country that falls under the heel of Prussian military power. We must win. This is a war to end war, and only by winning the war can we end it. This is the third great reason for Liberty Bonds.

4. Only a united American, mobilized to the last man and the last dollar, can defeat a united Germany. The victory of our men in France is our responsibility, the responsibility of every one of us. The "Fighting Fourth" is our opportunity for service, and its success or failure will be regarded throughout the world as a battle won or a battle lost. We must win. This is the fourth great reason for Liberty Bonds.

5. Whoever buys a Liberty Bond is backing the Government of the United States, his children, himself, everything that is best in the world. Liberty Bonds are the great reserve army without which our fighting men in France could never achieve their objective. Your country calls you to set its feet on a firm foundation. Buy Liberty Bonds to the fullest extent of your ability to save and pay for them and essential that you keep them until the war is won. It is the way to win the war. It is a measure of the fate of our Republic. Buy Liberty Bonds today and those of you who remain at home must match in our financial support of our Government the spirit of the men at the front who have given or are ready to give the last full measure of devotion. This is the fifth great reason for buying Liberty Bonds. Lend the way the American soldier fights—to the utmost.

LIBERAL NEW ENGLAND.

New Englanders have never lagged behind when there has been a call to defend duty. And now, when great demands have to be met, they are made upon them they have stood loyally to the test. In the three previous issues of Liberty Bonds they have bought liberally. They have bought generously of War Savings Stamps and have contributed largely to the various forms of war relief and now they are ready to subscribe to the Fighting Fourth Liberty Loan, all and more. It is believed, than the amount assigned them. They have confidence in their Government; they will literally bank on their boys. Over so long as there is need for them to prosecute the war and bring it to a speedy, victorious end.

TEN WAR COMMANDMENTS.

Ten war commandments have been given to the people of France by the economic and social section of the League of Patriots with headquarters in Paris. They are to save, to economize, to waste nothing, all the way to the ninth when they are to "Accept without murmuring the privations which are imposed upon you. Reduct upon the sufferings of those who are fighting for you, upon the martyrdom of the population whose hearts have been devastated by the enemy; and the tenth, "Remember that victory belongs to those who can hold out a quarter of an hour longer."

NEW ENGLAND HONOR.

New England has brought honor to herself in the way she has absorbed the three former Liberty Loans. For the "Fighting Fourth," which begins on December 23, an early and ready response is anticipated. Previous loans have furnished the means of war that have helped turn the tide and now that victory seems in sight there can be no doubt that not only will the money be invested but that the future will be pledged.

What Can I Do? UNCLE SAM'S ADVICE ON FLU

By CHARLES J. ROSEBAULT of The Vigilance
U. S. Public Health Service Bulletin on Influenza.

LATEST WORD ON SUBJECT.

Epidemic Probably Not Spanish in Origin—Germ Still Unknown—People Should Guard Against "Droplet Infection"—Burgeon General Blue Makes Authoritative Statement.

Washington, D. C.—(Special).—Although King Alfonso of Spain was one of the victims of the influenza epidemic in 1832 and again this summer, Spanish authorities repudiate any claim to influenza as a "Spanish" disease. If the people of this country do not take care the epidemic will become so widespread throughout the United States that soon we shall hear the disease called "American" influenza.

Uncle Sam's Call: Let all your messages "over there" be of good cheer only; men who worry can't fight at their best. If the fortunes of war make a crisis of your health, report your emotions. Don't ask him to come home and be cuddled-to later on and his everlasting regret later on. Remember that he might have been killed. Determine that his remaining years shall be useful and happy. Uncle Sam stands ready to make them so. He has brought together all kinds of experts to train you so that he may return to civil life not a useless idler but prepared to meet any competition for the job he is best fitted to do.

Coughs and Sneezes Spread Diseases

As Dangerous as Poison Gas Shells
In the head, eye, ear, back or other parts of the body and a feeling of sore throat, in most of the cases the symptoms disappear after three or four days, the patient then rapidly recovering. Some of the patients, however, develop pneumonia, or inflammation of the ear, or meningitis, and many of these complicated cases die. Whether this so-called "Spanish" influenza is identical with the epidemics of influenza of earlier years is not yet known.

BOYS AND GIRLS TO BUY BONDS

It is hoped that every school boy and girl in New England will buy a "Fighting Fourth" Liberty bond, each one paying for it out of earnings. It is a great war effort. There is no time to get into the hands of Uncle Sam so that he may turn it over in one form or another to the soldiers. There must be guns and bombs and battleships, submarines and airplanes, and there must be gas and things to eat. The soldiers must be trained and they must be gotten across. There are in fact, so many things to spend money for it is impossible to count them all.

Stick to your Job.

Stick to your job. Shifting at this time dislocates industry, wastes time and money and does you harm in the long run. Only Uncle Sam and three over the tank in hand. Don't get sick and don't get nervous because you are earning more than formerly. Remember the man "over there." Uncle Sam can't keep him supplied as he should be with food, ammunition and equipment if you are not more economical than ever (see the appeal not to waste further on).

Convert your business as speedily as possible into one of the many industries needed for the war.

Convert your business as speedily as possible into one of the many industries needed for the war. There is no limit to the demand for the abilities of the successful maker of things. It would be a crime to devote these to nonessentials when the need is so great in the one real job of the whole American people.

His Circumambulatory Endeavor.

"Professor Pat is somewhat absent minded, isn't he?" "Oh, yes. The other day I saw him attempting to enter a bank building by way of a revolving door. He was coughing over some weighty matter in his mind, and walked into the door and around and through and out again where he had started, six times before discovering that he was not making any particular advancement in the way he wished to go."—Kansas City Star.

Town Advertisement ASSESSORS NOTICE

Liberty Bonds

Prussian Bonds

Which do you choose for yourself and your country?

LIBERTY BONDS bought by you ensure our continued independence as a free nation, and the reinstatement, as self-governing peoples, of ruthlessly violated nations.

PRUSSIAN BONDS are not easily borne. Witness Russia, trapped by a supposed pact of peace and Germanized by a faithless signatory to a worthless treaty.
