Her Liberty - Loaned

There was more than one reason why Gladys consented to act on the woman's committee of the local Liberty Loan board.

Gladys Moore was a girl well along in her twenties. She was quiet and pretty, with one of those sweet personalities that attracted old ladies and very young men.

Gladys did not know whether she was disappointed or relieved. She had been much worked to do; the usual time of patriotic citizens.

For coughs, colds, nasal catarrh, indigestion, constipation, pain in the stomach, burning, sore throat, sore eyes, rheumatism, or any kind of cold, PE-RU-NA is indicated.

Keep It On Hand. That is the Safe Way.

Obituary WILLIAM H. CHAFFEE

JOHN WRIGHT, SR.

HONORABLY DISCHARGED ARRIVED HOME

Local soldiers and sailors who have reported at War Bureau during the past few days as having been honorably discharged from the service are as follows:

Private Michael J. Ellis

Private Robert J. Dewey

Private Harold Keating

Second Class Lieutenant Gordon B. Elliott

There are a total of 45 young men who have registered at the local War Bureau up to noon today.

Poultrymen's Meeting

Local poultrymen will hold a meeting at the town hall next Monday evening at 8 o'clock.

Local Paragraphs INTERESTING ITEMS BOILED DOWN FOR BUSY READERS

John Cairns left town yesterday for Alabama, where he goes to pay a visit to the single tax colony.

At the recreation center tonight the local high school will meet the Bristol High School at basketball.

South Manchester Division, Sons of Temperance, will have its thirty-third anniversary celebration in Cheney Hall Friday evening, March 14th.

Francis Miner and his charming young bride have returned from their honeymoon. They arrived in town last Monday. They are stopping at the home of the bride's parents, Dr. T. H. Weldon and Mrs. Weldon.

Arthur Wartley was granted a one-day furlough and came up from Camp Greene, Charlotte, North Carolina, to his home in South Manchester. This is the first furlough he has had. He is glad to get relatives and friends in the home of his birth, childhood and manhood.

Mrs. Wad Hopkins of New Bedford, Mass. is visiting with friends in South Manchester. She is accompanied by her daughter, Mrs. Kendrick, wife of Rev. Holmes Kendrick, an Episcopal minister from New York City. Mrs. Kendrick is better known here as Miss Sadie Hopkins. She is a native of South Manchester and a graduate of the South Manchester High School.

WHAT CALL WILL CONTAIN After going into the possibilities of building walks in town this year, something that has not been done for the past several years, a committee of the town board has decided that in view of the advance of all materials it was well not to do any of the work this year as to advance amounts to about sixty per cent.

They will include in the call the recommendation for an appropriation of \$6,000 for the erection of two tables, one to contain the names of those who died in service during the war and the other to contain the complete honor roll of the town. In addition to this they will also recommend that suitable medals be purchased for all who served.

An additional recommendation is to carry out the lighting system which is now back on a pro-war plan. The exact amount of the proposed lighting appropriation will be made known before the town meeting.

Dr. W. R. Tinker, the medical examiner is out of town, being on duty in California. The board recommended that the senator from this district and Representative Wood of South introduced, under suspension of the rules a bill allowing for appointment of an assistant examiner to act during his absence.

They will ask the special town meeting for an appropriation of \$7,000 to purchase a new truck to be used in the highway department's work.

Lieutenant Herbert H. Bissell was promoted to special constable to be employed by Cheney Brothers as patrolman about their silk velvet and ribbon mills. He was also appointed as a town constable to take the place of the late Captain William F. Madden.

The town will be asked to vote upon the approval or disapproval of a town commission plan. A measure looking to bring about such a commission is now before the legislature.

The extension of Clinton street to Autumn is asked for. The voters will be asked to vote on the proposed layout. The extension of Clinton street to Autumn is asked for.

Residents of Highland Park and also of Fairview street are asking to have additional street lights placed in those respective sections.

At the special town meeting the voters will be asked to amend the town by-laws in order that the town clerk may have a half-holiday each year.

Action will be taken on the advisability of relieving this town of any portion of the financial cost of maintaining Hartford bridge or any of its approaches. An effort is being made to have the cost of the bridge shared by the state legislature.

"I've filed my questionnaire," he said with a grin as he handed it to the "questionnaire" she asked.

"Yes-I'm in the draft, you know," "Oh-," Gladys breathed, "I thought you thought I was too old--now confess it!" Gladys said nothing.

Archangel. The province of Archangel is bounded on the west by Norway and on the east by the Barents Sea, on the north by the Kara Sea and on the south by the province of Volynia and Olonets. It is the largest province in Russia. It has a population of 1,000,000. It is a very fertile province and produces a great deal of grain. It is also a very important province for its position on the coast of the Arctic Ocean.

Flying Fish. Flying fish are chiefly found along the trade paths of the North Atlantic.

Beautiful Ferns. When the new shoots of pointed ferns appear in the spring they are well up and the root started in the right direction. When the ferns are well up the result will be a beautiful specimen.

The Succulent Plant. The succulent plant is a very interesting plant. It is a very hardy plant and can be grown in a variety of soils. It is a very beautiful plant and is very popular among gardeners.

</

TAFT FOR LEAGUE President Declares People of All World Are Looking to U. S. to End Strife of Nations.

IF AMERICA HELD BACK SHE WOULD BE CONTEMPTIBLE

Former President Taft Answers Arguments Against League, Defends Its Convenants in Detail, Replies to Republican Senators and Says Heavy Responsibility Will Rest Upon Lawmakers Who May Delay Ratification of Peace Treaty.

New York, March 6.—In his speech at the Metropolitan Opera House last night, the eve of his departure for France, where he declared he would remain until the peace treaty is there, President Wilson said the senate opposition to the League of Nations was based on a "doctrine of careful selfishness."

"I have heard no constructive suggestion," he said. "I've heard only the suggestion, 'Would it not be dangerous for us?'"

"If the United States did not enter it," he asserted, it would be "the most contemptible" of nations.

Former President William H. Taft yesterday spoke before the senate in considerable detail as to the meaning of the various provisions of the covenant which President Wilson announced in his speech last night.

And Mr. Taft warned those who have opposed the league and the participation of the United States therein that the responsibility for the peace treaty will lie with those who oppose the covenant.

"As a counter move to the agreement of the United States senators to oppose the Constitution of a League of Nations brought back by President Wilson, former President Taft in his speech at the Metropolitan Opera House insisted that the league be incorporated in the peace treaty."

"If the President insists, as I hope he will, that the league be incorporated in the peace treaty and brings it back," Mr. Taft said, "then responsibility for postponing peace is with the body that refuses to ratify it."

"Will They Feel Justified?" "The question which will address itself to the proponents of this senate resolution will not be whether they would prefer to consider a League of Nations after the treaty of peace, but whether they will feel justified in defining or postponing a treaty because it contains a Constitution of a League of Nations deemed by the President necessary to the peace as well."

"Washington's attack on 'hanging alliances,'" Mr. Taft said, "is an attack on defensive and offensive alliances with one nation against another."

"Mr. Taft told of his own vain efforts to win the approval of the senate for treaties of arbitration between this country and France. 'These treaties,' he said, 'were emasculated by the senate yielding to the spirit which has manifested itself in the speeches on the proposed covenant of Paris.'"

"Need to Watch Intrigue." Mr. Taft said the picture for you of what a failure of this great purpose would mean. We have been hearing the effective resistance against any treaty giving to abide by decisions of the league. Military force, he said, would be the last resort, but he preferred to see war waged without need of necessity.

"The provisions of the penalizing article of the covenant, he said, formed the basis of the league. 'If the article,' he said, 'would be a direct threat against the safety of the United States.'"

President Wilson said that the League of Nations is in favor of the American people. He said that the League of Nations is in favor of the American people. He said that the League of Nations is in favor of the American people.

And I am the more happy because I have heard no constructive suggestion, he said. I've heard only the suggestion, 'Would it not be dangerous for us?'"

RED CROSS LOAN RED CROSS LOAN RED CROSS LOAN

War Debts And Will Pay Our Sick and Wounded Men.

Once in a while someone asks: "What's the need of another Liberty Loan now that the war's over?"

Washington.—(Special.)—Henry P. Davison as chairman issues the following statement on behalf of the War Council of the American Red Cross:

"The War Council of the American Red Cross appointed by President Wilson on May 10, 1917, to carry on the work of the American Red Cross during the war, at that request and under the authority of the War Council, ceased at midnight, February 28."

"Immediately after the armistice was signed the War Council instructed its work of the organization would have been sufficiently matured to enable it to carry on its work as directed by the permanent staff."

"The other purposes for which money is needed. Part of our army of 2,000,000 men must be kept in Europe until the peace treaty is signed."

"The sick and wounded must be cared for in hospitals. The army must be demobilized. There are thousands of maimed soldiers, but what has been done is not sufficient to support them and give them an opportunity to earn their living."

"This reconstruction work at home must be carried on. The job must be finished. The American people who furnished the money to win the war must supply it also to bring the nation back to a peace basis."

UNCLE SAM IS PAYING THE BILL

It Runs Into Billions of Dollars, But Those Billions Went Instead of Millions of Lives.

Uncle Sam has raised for his war chest an aggregate of \$17,852,000,000 through the medium of the four Liberty Loans. Shortly he is to ask for another \$2,000,000,000.

"When I was in Italy a little limping group of wounded Italian soldiers sought an interview with me. I could not conjecture who it was they were seeking, but they were very simple, they presented me with a petition, and they begged me to sign it."

"The chief effort of the Red Cross during the war has been to care for our men in service and to aid our women and children who were left behind. The Red Cross may be called on to assist."

"The war will cost America more than \$17,852,000,000. The war will cost America more than \$17,852,000,000. The war will cost America more than \$17,852,000,000."

LIBERIA IS REACHING OUT

Tribe of That Country, It Is Said, Are Accepting the Teachings of the Missionaries.

Phenyone Gbe Wolo, a Librarian of the Kru tribe, who graduated from Columbia university, says in a letter that he has been introduced upon the theory that they were an advantage in enabling the conductor the more easily to see the rest of his tribe.

There never has been a scientific census of Liberia, but the population is estimated at from 2,000,000 to 3,000,000, and not more than 15,000 are American-Liberians, the descendants of liberated slaves. The remainder belong to the original tribes of the country.

The tribes do not acknowledge the government of Monrovia, because they feel that it does not protect them. By treaty the United States government is required to help the American-Liberians against the tribes, and in 1912 the United States sent a military expedition to the interior of Liberia.

Health and Height Count. Every flying man in the United States is required to undergo a strict medical test periodically in order that he may be classified in one of four grades. "AA" men are the fewest in number, standing at a height of over 20,000 feet.

WHEN RAILROADS WERE NEW

Engineers in Charge of Construction Work Had Ideas That Now Seem a Little Peculiar.

Light on strange ideas of pioneer railroad builders was thrown by Edward S. Joutel, general solicitor of the L. & N., in a talk before the Rotary club at Louisville.

"The Lexington-Frankfort line," said Joutel, "was built with longitudinal stone walls capped with a strip of iron, and the numerous curves, which you have noted, are said to have been purposely introduced upon the theory that they were an advantage in enabling the conductor the more easily to see the rest of his tribe."

Light on strange ideas of pioneer railroad builders was thrown by Edward S. Joutel, general solicitor of the L. & N., in a talk before the Rotary club at Louisville.

"The Lexington-Frankfort line," said Joutel, "was built with longitudinal stone walls capped with a strip of iron, and the numerous curves, which you have noted, are said to have been purposely introduced upon the theory that they were an advantage in enabling the conductor the more easily to see the rest of his tribe."

There never has been a scientific census of Liberia, but the population is estimated at from 2,000,000 to 3,000,000, and not more than 15,000 are American-Liberians, the descendants of liberated slaves. The remainder belong to the original tribes of the country.

The tribes do not acknowledge the government of Monrovia, because they feel that it does not protect them. By treaty the United States government is required to help the American-Liberians against the tribes, and in 1912 the United States sent a military expedition to the interior of Liberia.

Health and Height Count. Every flying man in the United States is required to undergo a strict medical test periodically in order that he may be classified in one of four grades. "AA" men are the fewest in number, standing at a height of over 20,000 feet.

FARM PROFITS WILL AID LOAN

Rural Business Men Are Well Able to Take Up Their Share in the "Victorious Fifth."

More than ever before the American farmer finds himself in the position of comfort and prosperity which he has never known.

Last year the average of farm earnings broke all records. Six million farms in 1918 produced crops worth \$12,350,000,000.

It is estimated that a greater wheat acreage than ever will be shown. Naturally, the farmer is making the most of his opportunities...

It would be interesting, if possible, to assemble comparative statements of the farmers' bank accounts now and five years ago...

And very soon the farmer will have an opportunity to prove that he is not without loyalty as well developed as any man's.

Because of his price guarantee of \$2.84 a bushel, Uncle Sam stands to lose from \$4 to 75 cents upon every bushel of wheat harvested next year.

But what is Mr. Farmer going to do for Uncle Sam in the next Liberty Loan?

In every Liberty Loan to date the farmer, as a class, has bought less bonds than men in other professions.

The big question now, when he stands to cash in at a 25 per cent premium upon his wheat crop, is what he is going to do next Liberty Loan.

Some Liberty Loan officials are suggesting that the farmer should buy a \$100 bond for each 100 bushels of wheat that he has raised.

IN LIQUID OR TABLE FORM. Ask your dealer for a Peruna Almanac.

SEND ME THE BILL

"VICTORY LOAN IS TRULY A THANKSGIVING LOAN" (By Carter Glass, Secretary of the Treasury)

The coming issue of government securities has been called the Victory Liberty Loan. It seems to me it might well be termed the Thanksgiving Loan.

Consider if the war had lasted another year what would have been our state instead of 6,000 dead we likely would have had hundreds of thousands. In time we might have equaled the record of France...

With our man-power practically intact, with our towns and factories and farms undamaged, should we be covered by a monetary obligation lighter than that which we are now carrying?

It is incomprehensible to me that any of the men who gave their sons so bravely and so proudly to their country in the hour of peril should turn so suddenly to cold and calculating calculations of the dollar.

It is not to be believed that the plain people of America either are fearful of the future or distrustful of their government. When the next loan is offered I have every confidence they will understand its necessity and will gladly meet its requirements.

Plain fathers and mothers throughout the land have not so soon ceased to be thankful for the ending of the war as they have restored their sons to them. Right never should be lost of the fact that America's war debt is substantially all owed to the American people.

Money to meet the interest charges on it and eventually to pay off the principal will flow back to the American people. It is a national debt of this character is not a burden to cripple future business.

There goes Congressman Gruff. He has devoted twenty years of his life to saving the country.

"No news is good news." "That's very strange. Each if no news is good news must be bad."

"Relatively Well Off, aren't they?" "Well, I wouldn't say comparatively. They're relatively. They have a rich variety of things."—London Times.

"Age before beauty," said the chronic quoter. "Well, that may be, but there's been several million young ladies who have been cut off backward for a good many centuries."

Did Her Ear Deceive Her? "Honey, I may be home a little late." "Where are you telephoning from?" "The office, of course. Why do you say so?"

Not Good to Look At. "What horrid little preservers!" "But so necessary." "Still, it does seem as if the government might have made an effort to make them more becoming."—Life.

The Way of the Wind. Asket—Did those fellows come to blows after their argument? "Well, they did. Each was blowing about what he could do to the other when I left them."

HARD ON MISC. "The speed and bravery of the American dough-boy" affected the German on the front line more than it did the men at German general headquarters...

It would mean that if the funds of the banks were tied up in government securities, the banks would have no money to loan to businesshouses for the expansion of their activities.

The "Victorious Fifth" will be taken by the people and newspaper editors must be used to aid in this purpose.

When leading newspaper advertising in the federal reserve district recently held a council on the loan of 1919, men who paid for space in other newspapers were heard to be declaring that they stood ready to repeat their orders.

Three lines of appeals will be demonstrated in the next Liberty Loan. The first of these is "Finishing the Job." The argument will be made that Uncle Sam must be kept in funds until the job over there is definitely done, and until provision is made for the proper care of all the sick and wounded.

The second topic will be "Peace and Prosperity." This takes account of not only the obligations but the opportunities of the nation in far new position of world leadership.

Finally, the theme of "Investment." In the safest security on earth issued for short term and this exceptionally attractive to buyers.

THE HAY CROP

An Important One in New England—Pasture a Prominent Feature of the Farming Operation of This Section.

Some Practical Methods for Increasing the Yield of Hay and Stimulating the Growth of Pasture.

Proper Management of the Soil Essential to the Success of the Hay Crop.

Old Dutch Windmill and Pure Bred Holstein Cows in Good Pasture, Dutchland Farms, Brookton, Mass.

Hay is one of the most important farm crops in New England. The soil and climatic conditions favor a large degree the best development of the natural grasses and clovers in 1918.

The conditions for hay production, which in the main are favorable, are not uniform, since a great variety of soils is found. These vary from the stiff clay to the light, sandy types.

It is well known that the growth of all grasses and especially of the clovers is most satisfactory where the soil is naturally alkaline.

It is a common practice in New England to follow corn with grass. Splendid results have been secured by sowing the grass seed in the corn at the last cultivation, usually from the 20th of July to the 10th of August.

There has been a sweet or neutral soil, the lime should be applied to the corn at the last previous to planting. After plowing the land may be harrowed once and the lime applied.

The chief point to be observed by the farmer in the purchase of lime is the form. The action of each form must be known under each of the many varying conditions. Lime and limestone are both mineral products.

Successful farming depends to a large degree upon the proper soil management. To put the farm in a condition to produce profitable yields demands, on the part of the operator, a clear understanding of the properties of the soil.

Renovating Old Pastures. The growing of grass for pasture is also an important part of the farming operations in this section. Much of the pasture land is too rough or stony to put in cultivation or rotation; hence it is desirable to keep the land in grass as long as possible.

It would mean that if the funds of the banks were tied up in government securities, the banks would have no money to loan to businesshouses for the expansion of their activities.

The "Victorious Fifth" will be taken by the people and newspaper editors must be used to aid in this purpose.

PAY AND FILE BEFORE MAR. 15

U. S. Internal Revenue Bureau Gives Warning That Severe Penalties Will Be Enforced.

WOMEN WITHIN LAW'S SCOPE: HOW THEY REPORT INCOME

The Income Tax drive comes to a close on Saturday night, March 15. All payments and returns due at that date under the provisions of the new Revenue Law must be in the hands of local Internal Revenue Collectors before their offices close that night.

The Income Tax is being collected by the war exchequer. Every person who contributes his share of the cost of winning the war should get in touch with the Internal Revenue Bureau as early as possible to see that every person who comes within the scope of the Income Tax is in the way.

Where to Pay and File. Residents of Connecticut and Rhode Island should make their returns and pay their taxes to James J. Walsh, Collector of Internal Revenue for Connecticut, at any of his deputy collectors who are now doing free advisory work on Income Tax.

Where to Pay and File. Residents of Connecticut and Rhode Island should make their returns and pay their taxes to James J. Walsh, Collector of Internal Revenue for Connecticut, at any of his deputy collectors who are now doing free advisory work on Income Tax.

Where to Pay and File. Residents of Connecticut and Rhode Island should make their returns and pay their taxes to James J. Walsh, Collector of Internal Revenue for Connecticut, at any of his deputy collectors who are now doing free advisory work on Income Tax.

Where to Pay and File. Residents of Connecticut and Rhode Island should make their returns and pay their taxes to James J. Walsh, Collector of Internal Revenue for Connecticut, at any of his deputy collectors who are now doing free advisory work on Income Tax.

THIS TELLS HOW TO FIGURE INCOME TAX

Squarely Up to Every Individual to Get Busy by March 15 or Suffer Penalty.

Don't wait until the final due date, March 15th, for paying your Income Tax and making your return. Avoid the last minute rush. Any person can figure out his liability today as well as he can next week, and if there is any point on which he needs advice he can now get in touch with a Revenue man.

This word of advice is from James J. Walsh, Collector of Internal Revenue for Connecticut, who is collecting the Income Tax in Connecticut and Rhode Island. Collector Walsh is giving his best advice to every farmer and his enlarged field force to help the people get their payments and their returns in by March 15th.

But the Income Tax man will not pull your door-bell or your coat-tails, according to the Collector's announcement. It is squarely up to every farmer to figure out his own case and to get busy if he comes within the scope of the new Revenue Law.

Did You Earn This Much? Every unmarried person who received income averaging \$10.25 a week during 1918 and every married couple who jointly received income averaging \$35.50 a week should secure a copy of the nearest bank blank Form 1040 A. That form contains the information he will need to enable him to figure out his correct net income and any tax that he owes the Government.

The law requires that every unmarried person whose net income was \$2,000 or over (the husband's net income of husband and wife and the earnings of minor children, if any) must make a return on or before March 15th. And this requirement does not depend on whether the person owes a tax.

Where to Pay and File. Residents of Connecticut and Rhode Island should make their returns and pay their taxes to James J. Walsh, Collector of Internal Revenue for Connecticut, at any of his deputy collectors who are now doing free advisory work on Income Tax.

Where to Pay and File. Residents of Connecticut and Rhode Island should make their returns and pay their taxes to James J. Walsh, Collector of Internal Revenue for Connecticut, at any of his deputy collectors who are now doing free advisory work on Income Tax.

Where to Pay and File. Residents of Connecticut and Rhode Island should make their returns and pay their taxes to James J. Walsh, Collector of Internal Revenue for Connecticut, at any of his deputy collectors who are now doing free advisory work on Income Tax.

Where to Pay and File. Residents of Connecticut and Rhode Island should make their returns and pay their taxes to James J. Walsh, Collector of Internal Revenue for Connecticut, at any of his deputy collectors who are now doing free advisory work on Income Tax.

Where to Pay and File. Residents of Connecticut and Rhode Island should make their returns and pay their taxes to James J. Walsh, Collector of Internal Revenue for Connecticut, at any of his deputy collectors who are now doing free advisory work on Income Tax.

Where to Pay and File. Residents of Connecticut and Rhode Island should make their returns and pay their taxes to James J. Walsh, Collector of Internal Revenue for Connecticut, at any of his deputy collectors who are now doing free advisory work on Income Tax.

Farm Administration—59

BY JANE OSBORN

If women students took courses in veterinary surgery and animal husbandry there was no very good reason why the students at the short winter courses of the state agricultural college should not select Prof. Lucy Cummings' course, known as farm administration—59.

So a snowy Christmas came and went and all the Yuletide cheer that Lucy got was in the recollection of the snow that she had grown used to in the holidays, but Lucy had no plans to leave for her day relatives, very distant cousins, lived across the country, and when they had grown used to the holidays, she was to be on the way to the year when people so seldom include anyone but their own family in their Christmas greetings.

So a snowy Christmas came and went and all the Yuletide cheer that Lucy got was in the recollection of the snow that she had grown used to in the holidays, but Lucy had no plans to leave for her day relatives, very distant cousins, lived across the country, and when they had grown used to the holidays, she was to be on the way to the year when people so seldom include anyone but their own family in their Christmas greetings.

In Mercy's Name Help These People

Patiently Waiting Rations. They Bring Children to Justify Their Claims.

Manchester is going to lead a willing and unopposed ear to the Near East call for funds. Although the millions who are suffering untold agonies there are remote from this prosperous, happy community, they are human beings, and as such, we who have a surplus regard it as a matter of conscience to give them a little, even though very little. There are 400,000 orphans starving and almost countless always tired, always moving on from place to place. There are 800,000 adults in dire straits.

NEED FOR RELIEF

The field operations include not only Asia Minor, with those portions of Armenia and Syria that are in the Ottoman Empire, but also the large section of Armenia until recently dominated by the Russian Army, as well as the Russian, Cypriot, Persian, Mesopotamian, Palestine and portions of Egypt and Macedonia, into which regions Armenians, Syrians and Greeks have fled in large numbers. Of the Armenians about 1,000,000 were massacred or driven to their death during the summer of 1915 and the remainder within Turkish dominions were deported from their homes into the deserts or other regions where self support was practically impossible.

AMERICAN COMMITTEE

With the exception of the work being done by the Jewish Relief Committee, the American Committee for Armenian and Syrian Relief is the only agency organized for affording a relief in this great area of the Near East. In Persia and Russia some small British funds are spent by the field commissioners of the American Committee for Armenian and Syrian Relief in the Turkish Empire.

CLAIM CURE FOR GLANDERS

Italian Savant's Discovery, if True, Will Have Brought Them the Gratitude of Mankind.

The reviews of medicine and veterinary surgery speak of important researches looking to the cure of glanders, which affects horses and may also attack man, who almost invariably succumb.

At the beginning of the war the spread of glanders, especially among the quadrupeds of the 7th Italian Army, suggested to Colonel Commanding Dr. K. Bertetti, director of the veterinary service of the army, the idea of utilizing the victims of glanders in man-made experiments in regard to its curability.

PUT HYPNOTISM TO GOOD USE

Australian Physician Announces That He Has Cured War Stammering by His Employment.

Writing in the Medical Journal of Australia, Dr. Clarence G. Godfrey states that during the past two years a number of cases have been referred to him for treatment by hypnotic suggestion, in which stammering or stuttering had developed, or had been revived, after years of disappearance, as the result of shell shock or of various war stresses. Sometimes a hypnotized patient has been told to keep on repeating some well-known nursery rhyme and not to cease at the signal to awake, although in the middle of the rhyme he had been told to stop. He will usually manifest his astonishment at finding himself talking without difficulty.

WILL ADOPT CITY PLAN COMMISSION

There was a hearing before the Committee on Cities and Boroughs at the Capital in Hartford Tuesday afternoon at which a committee from the Board of Selectmen intended to be present and kick a few holes in the proposed bill creating a city plan commission for the town of Manchester. However, the committee had so much other business on hand they were unable to appear at the hearing.

WATER FAMINE

Dry Season Might Necessitate Closing Cheney Mills

Few people in town realize it but it is a fact that should a particularly dry season occur the town would face a serious water shortage. This was brought out at the meeting of the board of selectmen Monday evening when Dr. E. S. Y. Moore, president of the board of health criticized the water and sewer companies of the town for their stand in refusing to extend their service to parts of the town where it was needed.

WATER FAMINE
