### Who Benefits By High Prices?

You feel that retail meat prices are too high.

Your retailer says he has to pay higher prices to the packers.

Swift & Company prove that out of every dollar the retailer pays to the packers for meat, 2 cents is for packers' profit, 13 cents is for operating expenses, and 85 cents goes to the stock raiser; and that the prices of live stock and meat move up and down together.

The live-stock raiser points to rising costs of raising live stock.

Labor reminds us that higher wages must go hand in hand with the new cost of living.

No one, apparently, is responsible. No one, apparently, is benefited by higher prices and higher income.

We are all living on a highpriced scale. One trouble is, that the number of dollars has multiplied faster than the quantity of goods, so that each dollar buys less than formerly.

Historians tell us with unfailing zest that St. Patrick was born of pious and of the Christian era. The little that is known of his youth has been sadly garbled by chroniclers who, being ambitious to produce something new. seem to have forged some points of the history. Of these chroniclers some are, no doubt, correct, but which? On this account some painstaking writer has given us the facts as far as truly

known, and with these we must be In 387 he was sold as a slave to a chieftain of Ulster. To the youthful slave Ireland seemed Godforsaken and overrun by fiends of evil power. There was no church, no sacraments. He could find no priest nor any one who paid any attention to religion. He was "alone among scoffers and the wor-

shipers of graven images." His life of prayer and self-sacrifice continued during the long years of his term of slavery, which were three. Finally freed from his bondage he entered the priesthood as he had so long desired. After he had finished his studies, he was ordained and the zeal | of his soul became a conflagration. As many devout souls have prayed to do, he wished to convert the whole world, and as all desire, he prayed pathetically to wear the martyr's crown. France knew of him and there he la. Mr. Stimson thoroughly believes in the home garden. He would make it a family affair, parents and children working in partnership in the gardening enterprise.
