CHINESE WOMEN STUDY HEALTH

Three Doctors Return From America to Begin Active Health Campaign Among Women.

American Y. W. C. A. Will Support Women's Part of Chinese Health

Service Program. As a result of the Y. W. C. A. International Conference of Women Phy-

far-reaching health program. Dr. Ida Kahn, Dr. Li Bi-Cu and Dr. Dau, three of China's half hundred women physicians, who attended this

HIR IDA KAHN URGES CHINESE WOMEN TO WORK.

conference, are to take an active part in promoting this health program for women which will be the share of the Y. W. C. A. in the big health movement to China.

The funds for establishing these bealth centers, for demonstrations of how to care for babies, for health lectures for the women, for bables' dispensaries and for a general educational campaign, will be raised by the American Y. W. C. A. as part of its program of world service for women and girls in 1920.

Dr. Ida Kahn, in a recent appeal to modern Chinese women said, "Let our women of education in Peking and elsewhere gather themselves together to work for the schools, Red Cross and Y. W. C. A., and everything else which espeaks the betterment of the coun try, instead of staying at home to play poker and 'sparrow,' and going out to attend endless dinners, ten parties and

"Let us raily our forces and help the ship of state to move safely. One per son cannot accomplish much, but one or two hundred millions of women can work wonders. Let us go back to a more Spartan-like simplicity of living and let us build up social service until every city in China is sanitary, every section of the town has its proper; schools, and every child, whether boy or girl, is sent to such schools. True social service brings democracy in its train, and we who are citizens of a new republic can help to make it truly great by preaching and living democracy all the time. Why not learn to do our household duties, deeming it effeminate to be waited upon by maids

and slave girls all the time? "The status of women in China, while leaving much to be desired, still is quite hopeful when we consider that she is just emerging into the sisterhood of the nations. Our men curdepend upon us to bear the burdens of the day, for nowhere is there a more industrious, diligent and persevering

womanhood than in China." Dr. Kahn is lecturing in this country on the needs of her fellow country women, in the interests of the Y. W. C. A. Educational Campaign which plans to acquaint people with all phases of Y. W. C. A. work in the United States, South America, China, Japan, India and Europe. This educational campaign will be followed by an active effort to raise the \$3,000,000 needed for service for women throughout the world.

CHINESE WOMEN HAVE FINANCIAL ABILITY

They Carried Y. W. C. A. Campaign "Over the Top." Much has been said about the honesty and skill of the Chinese business

man. The world has neglected to mention the financial ability of Chinese women. They proved this ability is the last financial campaign of the Y W. C. A. in Tientsin. Ordinarily three weeks are allowed to which to raise the budget by sub-

scription after the finance committee has decided upon the sum necessar; to carry on the work of the coming year. The Tientsin campaign was carried on entirely by Chinese women and broke all records by going over the top in ten days with a large surplus over the budget.
