From misery to comfort and self-respect in five days' time, simply through six inches below the regular ceiling. threatened region and back again. On the magic of an American ten dollar bill, is a transformation that is being in the form of a latticed framework. a scale only slightly less impressive, it wrought daily in Western Asia by the Near East Relief of 1 Madison Avenue. A trapdoor in the center of this makes was always so when there was a "show New York City. The group of five Armenian children shown in two pictures it possible to change the straw which on." In the minds of our soldiers. here have reason to bless the American donor of that ten dollar bill. With 18 packed between the lattice and the however, the military need of stone this money, the expert workers of Near East Relief in Armenia were able to original ceiling. Vents, or wide, low roads seems less important than the present day prices as when they cost only one-third as much, rid the poor children of their loathesome rags and to clothe them with new garments of alaja cloth, woven in a Near East Relief Industrial plant and sewed into garments by the mother of the children. The mother was also paid a small fee for her services in making the garments. This was a lucky family. There are thousands of others not so lucky

in the Near East, simply because of a lack of other ten dollar bills. Near East Relief is asking the American people to contribute funds to save the starving in the Bible lands. It is estimated that over 1,250,000 adults are in desperate need, and 250,000 children are orphans and must be cared for. For the sum of \$180 a year Near East Relief can not only feed and clothe and shelter an orphan child, but can also give a course in education towards ultimate self-support and independence. Many of these orphans are being "adopted" by Americans, who are providing funds for the support of one or more over a given period.
