# A WORLD REBUILT

By the Golden Rule not by the rule of Gold

THIRTY denominations of the Church are uniting in a simultaneous campaign in the week of Apr.J 25th-

They are uniting because the task before the Church is too great for any one denomination; because there must be no duplication of effort; no waste.

These churches know that the world needs many things, but it needs Faith most of all.

They know that there can be no final solution of our economic problems that is not a spiritual solution, based on the teachings of Jesus Christ and His Golden Rule.

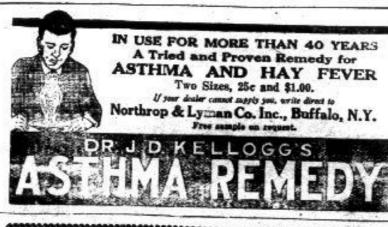

They have had the courage to survey the whole task, and to lask for a budget large enough to sustain (1) the work abroad, (2) the work at home including the church's part in the huge task of Americanization, (3) the colleges and (4, hospitals supported by the Churches, (5) the religious training of the young, and to provide (6) a living wage for the Church's ministers.

The budget is large in the aggregate; yet if each person who loves America would increase his contribution by only a few dollars the whole amount would be easily subscribed. We face the task of rebuilding the world. Let the cornerstone be a strong and vit al church in every American community; and the measuring rod by which the builders build must be the Golden Rule.

# IN VIVID COLORS

Scheme; Fad Opens Way for

The blouse shown in the sketch i n especially smart member of the werskirt blouse family. It is also in especially serviceable type of louse. As originally designed it was developed in white crepe de chine and trimmed with bands of appliqued navy satin. An outline design of emproidery done in silk in a shade matching the satin always gives a pretty decorative touch. The waist is held in with a satin ribbon belt finished with tassel ends. It may be a slip-over r may fasten on one shoulder, ac cording to choice.

Blouses in vivid colors are very popular this season. One of the newat decorative schemes is hand painting. No special design is preferred, so the fad opens up all sorts of possibilities to the woman who makes her own blonses. She may take a perfectly plain blouse and paint it until is transformed into a gorgeous thing of beauty, putting her own paricular color scheme and favorite lower or design into the motif. Bead embroideries, bead bandings

and head girdles in very bright colors add their bit to many otherwise plainpoking garments, and bead fringe is w no means out of favor. Among the newest French blouses

# A Determined Clearance of Furniture =

Ordinarily there would be no need for a clearance of Furniture at this time, but much of our early purchased Furniture has been held up on account of lack of freight facilities, especially in the west, goods that should have arrived weeks ago, are now coming in, and all at once, our warehouse, large as it is, will be unable to accommodate all of this Furniture, so, the only thing to do is to dispose of as quickly as possible, furniture on our floors to make room for incoming stock, and in order to do this we know of no better way than to reduce prices, thus making it an object for you to buy now, whether for present or future needs. This is really a mutual event You help us make room and we save you money.
