Rann-dom Reels

SEASICKNESS

By HOWARD L RANN

EASICKNESS is a disagrecable malady which is caused by the stomach losing its equilibrium and so forth. People do not always miss the equilibrium at first, but this is not

true of the so forth. Seasickness almost always results rom coming in contact with water which refuses to lie flat. There is nothing more terrifying than a large body of water which stands first on one leg and then on the other and causes the apprehensive tourist to wish that he had been carried off by the mumps in early youth. It would seem that science could discover some method of preventing the ocean from rising up and driving inoffensive passengers away from a table d'hote dinner which was paid for before leaving the dock, but it has not been able to do so. This teaches us that science is of about as much use to the average citizen as the interstate commerce

Sensickness usually sets to as soon as the three-mile limit is passed, and dies a lingering death on reaching the Irish channel. There are several uccessful cures for this ailment, owever, and after a man has tried em all he will be in sight of land and will feel considerably improved. Many a person has started on an ocean voyage relying upon some cure for seasickness recommended by a

fishment every bonnet which enters deposit their cargoes of untrimmed in its workings and have to be propped the tenement houses, rescue homes, hats. At frequent intervals the pi- up with malted-milk. orphanages, nurseries or slum settle quant honners, with their long blue. There are several forms of seasicknents first sees the light of day. And streamers, blue ruching and satin ness which can be contracted without the shop does a rushing business. Three folds, leave the establishment bound getting off of dry land. Some men hundred bonnets each week are trim- for years of service in the slums and can hardly sit down in a low-hung med, boxed, sent out to all parts of the bleak spots of the nation. The famil- hammock and swing to and fro with a country and started on their mission for blue bonnet-shaped like nothing loving wife without thinking of the of spreading cheer and hope to every else under the sun-is a symbol of unselfish service in nurseries, hospitals tamed and becoming violently seasick And the Salvation Army is an im- and tenements the whole world over. | Another popular form of this malady is caused by attempting to drink a to a complete standstill. Seasickness has its drawbacks, and

Everyday Luncheons. With the convenient, canned, readyro-serve sonns one may have a variety of soups or sauces prepared in a short ime. The cans of chopped vegetables which include celery, turnip, carrot and pursley, if added to a pint or more of broth, provide a tasty vegetable soup. Just the preparation of that number of vegetables is worth the price of a can to a very busy housewife, and one always lacks some vegetable flavor, even with a good supply on hand. Onlons and potatoes are so commonly in use that they are not included. One can holds enough vegetables for two good meals for a small family. Soups are in order the year round and a variety is always en-

NATIONAL SERVICE (Copy for This Department Supplied by National

How much should I give to make this a better world?

A CERTAIN man in New York filled out his A income tax report. It showed an income so large that his tax was

53%. And his total gifts to church and charity for the year were \$148. Think of it-thousands spent for luxuries and pleasure for himself; and \$148 to leave the world a little better than he found it!

Most of us do better than that; but not so very much better.

Our average daily gift for all church causes is -less than we spend for daily papers

- less than a local telephone call -less than a third of the day's car fare -less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than \$20 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 400,000 people. No wonder that every church board and charity society is forever meeting deficits, forever passing the hat. It isn't because we are selfish; it isn't because we

don't want to help. It's just because no one has ever put up a great big program to us, and asked us to think of the work of the church in a systematic businesslike way. The Interchurch World Movement represents the united program of thirty denominations. They have surveyed their whole task, no business could have done it better. They have budgeted their needs; no business could have a more scientific budget. They have united to prevent the possibility of waste and duplication. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

And they come to the men or women who love America to you this week asking you to use them as the channel through which a certain definite part of your income can be be applied to make this a better world. Only you can determine what part of your income that

It's a good time right now to answer that question.

We're passing through the world just once; how much better will the world be because you passed through?

Financial
