the south side of Oak street bordering the House & Hale building. As there is an uneven flag walk there a present the selectmen voted to put in a comparete walk and straighten the curb line. STREETS TO HAVE WALKS

There has been much speculation

among property owners on streets where side walks have been repre-ted following the statement by the s ectmen that some curtailment would have to be made in order to keep the work within the appropriation. A: the meeting of the selectmen last Friday night this matter was thoroughly discussed. Some of the prop erty owners on Holl street heard that the highway committee had depided to les walks on but one side of that street this year and they appeared at the meeting to request that the walks be laid on both sides. It was brought out that the highway committee had decided to have walks on both sides of that street, but if walks were to be Isid on Charter Oak street it might be necessary to eliminate half of the proposed work on Holl street Other streets were also considered. It was finally voted by the board to do work on the north side of Bigelow street, deferring the construction of the walks on the south side until a future period. This would allow for walks on the east side of Holl street and also o

Charter Oak street. The list as finally approved by the electmen is as follows: Hamlin street, west side; Holl street, both sides, East Center to Pearl streets; Oak street, south side, Spruce to Clinton street; Charter Oak street. outh side, Spruce street, east to he east line of the Rogers Paper Company property; Main street, east side, Eldridge to School strets; Hartford road, from the Rogers Paper mill west to West street; Sumner street south side, outlre length; Myztle street, where no walks or curbing are at present install d Bigelow street, north side; Hilliard street, south side, Main street west to the west line of the Herald propenty; Wadaworth street, both sid-s, sutire length; Summit street, both sides, Bast Center to Wadaworth street; Huntjugton street, both sides, East Couter to Wadaworth street,

The Most Welcome Tire That Ever Came to Market

Men Who Appreciate Superlative Values Prefer The Brunswick

In every great tire factory, the chief question is: "How much can we give for the money?" And the product depends on the policy

Every man who has become acquainted with Brunswick Tires knows that Brunswick standards are again evident. This famous concern-noted as a leader in every line it entered since 1845—has once more proved that its policy is right. A perfect tire is simply a matter

of knowledge and standards and

skill. No secrets nor patents prevent making an ideal tire. But stan lards come first. For in tire a aking there is vast room for skimping, for subtle economies, for hidden shortcomings. Makers without the highest standards don't build high-grade tires.

The Brunswick organization of tire makers includes a brilliant staff of technical experts. Not a man

among them has spent less than 20 years in handling rubber.

Each is a master of his craft. And the new ideas they bring to the attention of Brunswick directors receive sincere consideration.

Every proved betterment is adopted unanimously. The Brunswick Tire is a combination of acknowledged features -

plus Brunswick standards of monu-

The result is a super-tire, the like of which you have never known before. The kind of a tire you will gladly join in welcoming.

Vet Brunswicks cost no more than like-type tires.

Try ONE Brunswick. We promise a surprise. And we feel certain that you will want ALL Bruns-

"I can use all three ovens and the broiler—at the same time"

"TVE got roast in the coal oven, bread in that gas oven at the left, and now that I've lighted the broiler flame, this right-hand oven will be hot enough for my cake. I couldn't do all this baking with any other stove.

"You'd hardly believe such a small range could have so much oven space -61/2 square feet without the racks, or 13 square feet with them. And from end to end my stove measures only forty-three inches!

THEN, in addition to the ovens, I can have nine kettles cooking all at once on the top, when I'm using both stoves-four on the coal griddles and five on the gas burners! Think how convenient that is when there's a big dinner to get - or at preserving time.

"Why, last summer I did an unbelievable amount of canning-all in one day-with this wonderful stove. While things that needed long cooking were simmering on the coal stove, I was canning the quickly cooked things on the gas.

A ND, it's so nice to be able to A use either stove separately You know there's nothing like gas when you're in a hurry-and there are lots of times when a coal range is so much better.

"I discover new advantages in this Victory Crawford every day-it's come to be one of my most treasured possessions. Wait till von get one in your kitchen. Nothing could persuade you to part with it. It's a
