While Rizal was in Europe working for Philippine reforms, the Spanish governor-general, to indirectly punish Rizal, carried on a relentless persecution of his parents and relatives in the Philippines, driving them into exile. To his parents Rizal left a second letter, saying: "Should fate go against me, you will understand that I shall die happy in the thought that my death will end all your troubles. Return to our country and may you be happy in it. Till the last moment of my life I shall be thinking of you and wishing you all

Spain had meanwhile determined on having Rizal's life, foolishly thinking that if his voice was stilled agitation for the reforms be championed would end. Rizal was arrested on a trumped up charge of treason and condemned to death. But no sooner had the firing squad completed its work than the teachings of Rizal almost instantaneously became the passionate inspiration the whole Filipino race. His unjust execution had simply transferred the itense patriotism of Rizal to the breasts of an entire nation of people. The hillippine nationalism of today dates from the sunshiny morning of December

While touring in the Philippines recently the conviction was ever present in my mind, and I could not throw it oft, that the real inspiration us well as the leadership of the Filipino people in their present desire for independence is the spirit of Jose Rizal. His picture adorns the homes of the poorest families; streets, aveilbes and citles are named in his honor, while his statue stands in the parks and public squares. In life Rizal was a beautiful character, kind and considerate of all, gladly giving his life for his country, and in memory he has become the national idol. With such a spirit as its national inspiration the Philippines can not help but reach beights now not dreamed of.

The best way to know for yourself the superiority of the Brunswick Tire is to buy one and compare it.

That is, if the very name of Brunswick isn't sufficient proof to you, as it is to most men, that here is an extraordinary tire. Thousands of men who have known the name of Brunswick for years, realize that a Brunswick Tire has to be the best—for a mediocre product could never bear this historic name.

Long before the Overland Trail became famous, the House of Brunswick was established. It was one of the chief users of rubber for fifty years before automobiles came into use. No concern with such a history could afford to offer any thing but the best. For reputations are built slowly, but can be quickly destroyed. This is a practical guarantee that Brunswicke Tires offer
