Our most progressive towns have nearly all demanded safety and safety tation in billboard construction, and a number of places limit the signs to business districts, or else require the written consent of a majority of the property owners before a sign can inflicted on a residential block. The billboard companies have ought reform strenuously. In some states, civic associations claim that they have defeated legislation; in others, it was said that they tried to have ordinances put into effect which would not restrict use of boards to any extent, but which would make it appear that the town had settled the

GERMANS PLEDGE HARDING VOTE

The Evening Herald having refused to publish the following information either as news or as a paid advertisement, we deem it our dutyto acquaint the men and women of Manchester with the facithat the Republican candidate for President. Warren G. Harding, has by his declaration for a separate peace with Germany (see his acceptance speech, July 22) made a successful bid for the hyphenated vote.

The following resolution was passed by the German Alliance at its meeting in Chicago Aug-

"In view of certain enlightened statements in Senator Warren G. Hardings's speech of acceptance and in his subsequent atterances, expressing his unalterable opposition to the League of Nations and the perfidious foreign policy of the present Administration, we shall, unless unexpected events transpire, regard it as our duty to support the Republican caudidate; we trust, however, that Mr. Harding will express himself in unequivocal terms on other subjects involving the honor of our country, such as the permicious peace pacts of Versailles and St. Germain. which turned the 14 pledges solemnly enunciated by the President of the United States into 14 scraps of paper.

SLUR AT GREAT BRITAIN -

The resolutions are signed by

As further confirmation of the affection which the Republican candidate has won in certain quarters we also publish the following editorial from George Sylvester Vfereck's so-called "American Monthly."

The Democratio candidate is impossible. He is the caudidate of Woodrow Wilson and the league of damnations.

The Republican caudidate i distinctly the lesser of two evils. His speech of acceptance is not without merit.

Wherever there is the slightest possibility of electing Cox we urge our readers to vete for Harding. To elect Cox is to indorse Woodrow Wilson.

To elect Cox is to reward a man who flattered the Germans before the war and revealed his true jingo face only after he could insult the German element with impunity.

To repeat: Wherever by any possibility Wilson's man, Cox, could carry a state or a district let those who believe in American traditions vote for the Republican candidate. The men who supported Wood
