And someone answered rather non committally that no woman who lived at all out of doors and who went about in the street cars at all could possibly do without a suit.

The forehanded girl is even forehanded enough to see an advantage is buying a winter sale suit for the first spring days. So many are being ofered and at such wonderful prices hat, even if one regretted later that he purchase was made, the matter would not be especially serious. Now that frock and coats and suits

have ceased to cost senarately, as much as one felt should be spent on the entire wardrobe, everyone is feelng easier about that most important question, "A frock or a suit and blouse?" It can easily be answered by purchasing all three.

One particular pet with the woman who delights in spring suits is the lingerie blouse. Any number of lovely nes are shown in the shops, both those of filmy material trimmed with slet, and the batiste with eyelet emproidery trimmed around about with

BIRTHDAY PARTY

INAUGURAL ADDRESS The Womans Foreign Missionary Society held a birthday party at the South Methodist church last Friday evening and as a result thereof their treasury was enriched by the sum of \$75. The means of gathering in the coin was to assers each person one cent for each year of his or her age. Small cloth bags were distributed in advance to prospective patrons and in these containers the coin of the realm was deposited. It was not necessary for the giver to write his or her name on the recepracle or to make known the number of pounies which they gave. The bags contained a running string by which means they were sealed When thrown together one could not he recognized from the other. In other words the bags all looked

Standing in this presence, mindful of the selemnity of this occasion, feeling the emotions which no one may know until he senses the great weight of responsibility for himself, I must nierest - utter my belief in the divine inspiration of the founding fathers. Surely there must have been God's intent in the making of this new world republic. Ours is an organic law which had but one ambiguity, and we saw stories in height and the rear is one Revenue officers have been as for the purpose of computing cor-story.
