### Oiling Streets

The cross streets on the east side Main in South Manchester are being covered with road oil and gravel this week. The work is being done under the direction of Superinendent John Digney. He is somewhat more careful in the selection of gravel than were the persons responsible for the recent work on Main street from Center to Charter Oak When the distribution of gravel was made along that stretch a generous supply of rolling stones was spread all over the highway. Drivers of vehicles remonstrated result men were sent over the road

### Distress In England

Letters received in South Manchester this week bring the information that business is greatly depressed throughout England because of the monster coal strike. Poor people are in great disress owing to last of employment and because of the great shortage of coal. Most of the factories in Leeds and vicinity are being operated but from two to three days the week, working only a
