### WILL BUILDING COSTS GO SUBSTANTIALLY LOWER THAN THEY ARE TODAY?

Many People Think They Will-Many Others Think They Will Not. The Fact Is, Nobody Knows

One thing everyone knows: In waiting for lower costs you are spending something more valuable than the money you may save, something that cannot be replaced.

That something is TIME-the years of your life. You may spend or lose your money and regain it, but the lost years will never come back.

Will the little that you may (or may not) save in money, in order that your estate may inventory a few more dollars, compensate you for withholding from yourself, your wife and your family the enjoyment of such a home, as you and they want, and bught to have?

Except to the miser, money is worth nothing beyond the satisfactions, comforts and pleasures it can bring in the life we are living HEREAND

An investment in a home is not speculation and there is no possibility of a loss, where there is a certainty of an abundant return in health and contentment. Why not, therefore, go forward unhesitatingly-at once-and build your home?

Prices of lots at GREENACRES are from \$400 to \$2,750, none higher.

Builds Up Its Machinery In connection with the administration of disaster relief measures, an in-SCHOOL DAYS creasing effectiveness on the part of the Red Cross to deal with emergenries was manifested during the past year. In 328 Chapters of the Ameri-

flota still! Hola still! can Red Cross there have been formed

special committees to survey the resources of their respective communities and to be prepared in case of disaster. In others of the 8,402 active Chapters, a network of communication has been formed through which instantaneous relief may be dispatched to any part of the United States. That its work in this field may be ontinued with ever greater effectiveness, the American Red Cross is appealing for widespread renewal of membership during its Annual Roll Call, to be conducted this year from November 11 to 24.

LIFE SAVING CORPS ENROLLMENT 10,000

Growth of Red Cross Life Saving Corps throughout the country continued unabated during the last fiscal year, a summary of the year's achievements by that Red Cross Service shows. There are now 160 Corps with a total membership of more than 10,000 members, of which 4,276 are sufficiently skilled in the work to act as examiners. Among the outstanding achievements of the Red Cross in this field during the last year was the organization at the United States Naval Academy, Annapolis, of what is perhaps the largest life saving corps in the world.

Thousands Aided by Instruction In Care of the Sick, Food Selection and First Aid.

How the American Red Cross guides thousands of persons to health is shown in a summary of the society's activities in the health field based upon the annual report for the last fiscal year. Through its Norsing Service, Its Home Hygiene and Care of the Sick courses, nutrition classes, First Air classes. Life-Saving classes and Health Centers and in numerous other ways designed to acquaint masses of citizens with proper methods of living.

the Red Cross carried its message a The work of the Red Cross during ing, furnishing the military and naval establishments of the nation with 12,-877 nurses, is well known. And there are today 87,787 nurses registered with the American Red Cross and subject to call in emergency. During the fiscal year, 1,551 Red Cross nurses were accepted for assignment to Government service, 388 by the Army and Navy and 1,163 by the United States

Public Health Service. In addition to the nurses enrolled ice, the Red Cross itself employed a total of 1,348 public health nurses in the United States and Europe. By for the greatest number was employed in

the United States, 1.257, while 81 wers in foreign service. Home Hygiene and Care of the Sick classes, giving thorough instruction in the proper care of the sick in instances where the illness is not so serious as to require professional nursing care, during the fiscal year aumbered 5,179. A statistical picture of the Red Cross operations in this field follows:

New classes formed during Classes completed during year, 6,299 101.068 New students enrolled ...... Students completing course.... 73,432 What the Red Cross accomplished in giving proper instruction through its Nutrition Service is indicated by

the following table: New classes formed during Classes completed during year .. New students enrolled ...... 2,841 Students completing course.... 2,013 In addition to the above, a total of 22,006 children were given instruction in the proper selection and prepara-

tion of foods. Through its 280 Health Centers, the Red Cross reached 90,252 persons. In these Health Centers, 4,015 health lectures were given and 780 health exhibits held.

In the United States last year, 75,-482 persons were killed and 3,500,000 injured in industrial accidents. To prevent this enormous waste the Red Cross held 5,100 first aid classes with a total of 104,000 students enrolled.

the Mississippi is not definitely known. The first authentic exploration of this territory was by the French. Joliet and Father Marquette in 1673. French settlers gradually located in Missouri, in 1784 St. Louis being settled. This was one year after Spain acquired from France the Louisiana Territory of which Missouri was a

Colonization greatly increased after the ordinance of 1787, which excluded slavery from the Northwest territory, as this naturally deflected many to the territory west of the Mississippi who otherwise would have settled in the north. The slavery question continued to hold the stage in Missouri history. After the Louisiana Purchase in 1903 added this vast western area to the United States, emigration increased to such an extent that in 1829 Missouri formed a state government and applied for admission to the Union. Bitter antagonism immediately arose in congress against the addition of another slave state. On the other hand the slavery adherents pointed out that Maine had just been taken into the Union as a free state and one state would herefore balance the other. A final settlement was made by the famous Missouri compromise, which accepted Missouri as a slave state but prohibited slavery in the rest of the territory north of a line extending from the southern boundary of Missouri to the Rocky Mountains. Indeed, it was this agitation which, temporarily smothered at that time, burst forth in the Civ-

Missouri is in the forefront of the important states in national politics as it has eighteen electoral votes for president. Its area is 69,420 square miles. (@ by McClure Newspaper Syndicate.) ------

### WILL BUILDING COSTS GO SUBSTANTIALLY LOWER THAN THEY ARE TODAY?

Many People Think They Will-Many Others Think They Will Not. The Fact Is, Nobody Knows

One thing everyone knows: In waiting for lower costs you are spending something more valuable than the money you may save, something that cannot be replaced.

That something is TIME-the years of your life. You may spend or lose your money and regain it, but the lost years will never come back.

Will the little that you may (or may not) save in money, in order that your estate may inventory a few more dollars, compensate you for withholding from yourself, your wife and your family the enjoyment of such a home, as you and they want, and ought to have?

Except to the miser, money is worth nothing beyond the satisfactions, comforts and pleasures it can bring in the life we are living HERE AND

An investment in a home is not speculation and there is no possibility of a loss, where there is a certainty of an abundant return in health and Why not, therefore, go forward unhesitatingly-at once-and build your home?

Prices of lots at GREENACRES are from \$400 to \$2,750, none higher.
