OF INTEREST TO THE HOUSEWIFE

The Story of Our States

Wisconsin with French names show the French influence in tlement. The first white man to penetrate this region was

Jean Nicollet, who was sent out in 1634 by Champiain to open trade with the Indians. He landed at Green Bay and probably traversed the country to Chicago. Fur traders and missionaries followed and the latter built a mission where Ashland now stands. This was the first church erected in the state and around it sprang up the first and Father Marquette descended the Wisconsin river, and La Salle explored a great deal of Wisconsin before he took his famous trip down the Mississippl. Among the fur traders to

Daniel du Lhut, after whom the city of Duluth, Minn, was During the Revolution Wisconsin remained loyal to the British and though Wisconsin became a part of the United States by the Treaty of Paris in 1788, it was not until 1816 that federal troops really established authority there. Indian uprisings continued for some time ending only with the Black Hawk war in 1882. Then folsewed extensive immigration from the New England States.

come to Wisconsin shores was

Wisconsin had formed a part of the Northwest territory until ,500, when it became a part of dichigan territory, under which arisdiction it remained until 886, with the exception of nine years, when it was considered a part of Illinois territory. With the admission of Michigan as a state, the Wisconsin territory was created, which included also the present states of Iowa and Minnesota and portions of

In 1848 Wisconsin was taken into the Union as the thirtieth State. Its area is 56,086 square miles and it has thirteen electoral votes for president. The state is named after the Ojibwa phrase which means "gathering waters." It is sometimes called the Badger State.

ANIMALS ARE DIRECTED IN THE MOVING PICTURES. -Patience and subterfuge are the chief essentials in directing animals for the movies, according to Dr. Raymond L. Ditmars. curator of reptiles of the Broox zoological park in New York. "Violence is never necessary. and therefore inexcusable," he

says. "You can get any effect you want by simple trickery." Doctor Ditmars, in co-operation with Charles Urban, movie producer, is now filming the Fables of La Fontaine-those delightful old animal stories which subtly illustrate human frailties -using the animals of the zoo as actors. To make the fables effective, the animals must portray humor and tragedy, pleasure and anger, and various other "Suppose we want to photo-

graph a scene which shows the elephant presiding over a meeting of the other animals," said Doctor Ditmars, "According to the scenario, the elephant asks the monkey what fault he has to find with himself, and the monkey can find none. 'I can swing from high limbs,' he boasts, 'and run fast; but I feel sorry for the hear. He is hie and clumsy and very slow, I'm told.' The elestar, is eighteen years old. Nature must be accepted in the right spirt, has fairly showered her with beauty. phant then turns to the bear and asks him what complaint he has to make concerning himself. The key's view. He is strong and can crush his enemies beneath his giant paws, and he gets a splendid rest cure every winter but there is the poor little fox. He feels sorry for him.
