was not as high as contractors and others paid. Unskilled labor in the summer of 1919 was paid on an average of 80 cents an hour in Manchester but this increase was not granted the town employees.

Some time ago a reduction of five cents an hour became affective for unskilled labor employed in the highway department of the town. This reduction does not conform with the scale recently adopted by general the scale recently adopted by general contractors who have agreed on a scale of wages ranging between 30 would pale in comparison.

The Story of Our States

By JONATHAN BRACE XXXI.—CALIFORNIA

THERE is an atmosphere of roencircles the origin of the name.

About 1520 n Spanish love story was published in which there was an imprinary island in the Far Bast called California. Some fifteen years later a party of Spanish adventurers came upon the peninsula which we now call Lower California. Believing that they had discovered a romantic island similar to the one in the novel, they called it California. Later on, the territory to the north became known as Alta California or High California and when it became a state, it was accordingly called Callfornia. The first settlers were the Franciscan monks who came
