takes pleasure in announcing that we have been selected as one of the distributors, in this State, of VIM-O-GEN Genuine Yeast Vitamine Tablets. It is not our custom to recommend articles unless they are worthy and reliable. It is not our habit to believe, we'll return your money without argument

guarantee a product unless we can do so with unquali-fied sincerity, or to say "your money back if you want We urgeour friends and patrons to try VIM-O-GEN; we offer VIM-O-GEN Yeast Tablets on a money-back of inferior substitutes and imitations. guarantee, for the following reasons:

It is a scientifically cultured, highly concentrated yeast product. It contains ALL THERE of the vitamines which science declares are necessary to life and health, and which build bodily vigor, strong muscles and steady nerves, firm well-rounded flesh, cugrgy and vitality. It also contains iron and other tonic, blood-enriching properties.

The remarkable success which VIM-O-GEN has met is due chiefly to the presence of the three vitamines. Baker's yeast, widely used for similar purposes, contains but one; some food products contain two when fresh and uncooked.

That is the secret!

Stories of Great Scouts Watson

IOSEPH E. RANKIN'S RIDE SAVE HIS COMRADES One of the greatest rides in frontier history was that of Joseph E. Runkin, scout with Maj. T. T. Thornburgh, when that officer was ambushed and killed by the Ute Indians September 29, 1879, and his command surrounded

on the Milk river in northwestern Colorado, When Capt. J. S. Payne of the Fifth cavalry took command of the beleaguered troops and called for volunteers to ride for help, Rankin was the first to offer himself. All of the horses in the command had been wounded, but, taking one of the least injured, Rankin made a dash along the back trail and succeeded in getting through the Indian lines. Then in the darkness he headed for Rawlings, Wyo., 170 miles away. The next morning be met a party of soldiers bringing po a cuttle hern for Thornburgh, exchanged horses and

Gold was discovered in Montana as early as 1852 by the halfbreed Francois Finlay near Hell Gate river. This, however, created little stir and it wasn't until five years later when John Silverthorn discovered gold in quantities, that mining settlements sprang up in the mountains. This region had been part of Nebraska territory, which in 1863 was subdivided and became a portion of Idaho territory. The next year it was organized as the separate Territory of Mon-Virginia City was the capital and here in 1865 was issued the Montana Post, the first newspaper of the state. In 1874 the capital was changed to Helena and ten years later a state constitution was adopted. The state

XL.-MONTANA THE menlion of Montaga history immediately brings to mind the Custer Massacre as one of the most dramatic incidents

in 1876, the Centennial year, when special emphasis was being laid on the cause of peace ' throughout the world. The Sioux Indians had been driven into Montana by the gold miners, and the United States government took steps to force them back into their reservations, General Custer, with less than 300 men, set out to round up the tribes which were on the warpath, and at the Little Bighorn river, was ambushed by Sitting Bull and 3,000 warriors. Custer and all his troopers were killed. Seon after this massacre the Indians were defeated and many of them fled to Canada.

was not taken into the Union, however, until 1889. Montana comes from the Spanish adjective meaning "moun-tainous." Its area is 148,996 square miles, making it the third largest state of the Union. (Our McClure November Syndicals.)

66'A MAN'LL work pretty A hard t' loaf a little." A strange psychology shapes the destinies of many lives, Endowed with great minds, thoroughly educated in their chosen professions or business, yet some fall to grasp the

good things which are within their reach. For some unaccountable rea son they abhor work. But like the lad who has to hoe a big field of corn before he can visit the old fishin' hole, they'll wear out their minds and their budles for the privilege of a few hours

San Brand

ing to do but watch time go fleeting by, they go around like lost sheep looking for something Loafing does great harm.

Everyone should not work constantly when not asleep. Health and happiness demand that each person should have sufficient spare time to read, rest and enfor himself. But one would be fur better off if he worked and slept and did nothing else if he speciels his time loading. With so many profitable ways to occupy days and evenings "off," It is difficult to understand why mer-many of them young moments, but always hang their

heads and growt when the whilstle blows for work. Those who don't find regulable means of enjoying themselves and of improving their mental and physical lives during spare times seldom do the world much good. To find happiness and to advance one's position there must be constant constructive thought and endem or. The impriness of every individual in large measure depends on the part he plays in the progress and joy of the world.

desires once more to call attention to VIM-O-GEN Yeast Tablets, and to repeat and emphasise the money-back guarantee behind this remarkable product.

Bear in mind that it contains all three of the precious vitamines. Authorities state that a day's treatment (six little tablets) is the equivalent of three cakes of baker's yeast. Besides, VIM-O-GEN Yeast Contains iron and other body-building and tonic properties.

That they are the food elements, generally lost through staleness and cooking, which make you weigh what you should, give you a clear skin and resy complexion, and furnish the strength and vitality and vigor which mean perfect health.

Give VIM-O-GEN Yeast Tablets a trial. It will do what it claims. Your money back if it doesn't.

DRAMATIC ASSN.

Just as harlitude were once legislated against and heavily taxed, so were
windows in Europe, in olden times,
classed as a luxery; each square
inch of a wiedow being required to
pay a heavy tax to the state. Even
new there are many buildings in Eprope which were built under these conditions, where windows are chiefly conepiceous by their absence.

The new plant of running the movics at Chency Hall was discussed and
the majority of the girls favored the
idea of the association having the
shows. Takey took well to the plan
of having the association members
admitted for lifteen cents.
