YEH, HE'S SORRY

Forces in Opposition To Widening of Town's Principal Thoroughfare Will Make Strong Effort to Block

The News learns from reliable sources that a concerted effort is being made to oppose the widening of Main Street. This matter comes up before the voters of Manchester at the special town meeting to be held in the High School Hall on Monday evening. Representatives of certain local interests have been interviewing a large number of taxpay. ers during the past few days with a view toward inducing them to oppose the question when it comes up for action. Quite a number of taxpayers when asked point blank as to whether they had been approached by representatives of the opposition replied in the affirmative. They refused, how ever, to disclose the identity of the person, or persons who talked with them. In an effort to ascertain whether or not the rumor was in the nature of a "scare", a News correspondent interviewed several prominent men about town. One of these men, with the request that his name be withheld, said: "Yes, there is something to the rumor. There certainly will be strong opposition to the proposition when it comes up before the voters at Monday's meeting."

Paragraphs three and four of the draft for the town meeting are DEATH OF J. W. MORELY the most important of the propositions incorporated. They both re- John W.
