DURING OUR

MID-SUMMER

SALE OF REBUILT PIANOS

Just look ever the list below. See the many names of fine old piano makers. Many of these pianos needed only a tuning to put them in first class condition for the owners had been careful and kept them tuned. Others, however, had to be completely rebuilt.

It would certainly interest you to go through our piano repair rooms and see these instruments being rebuilt. Sometimes the complete interior has to be taken down and new parts put in to replace worn ones. After they are rebuilt they are as good as new and we can offer them at the same

Then there is the finish. Sometimes the pianos haven't even been scratched and all our finishers have to do is polish them but in some cases the varnish has checked and it is necessary to refinish the whole piano. This is another interesting operation and when the finishers are

Any piano listed can be purchased on our easy payment plan and deliver-ies will be made anywhere in the state.

boiler, 6-quart convex kettles with cover, 6-quart convex sauce pan, 11/2-quart percolator, 2-quart double Values from \$1.49 to \$2.98. Aluminum ware is rapidly taking the place of all kinds of enamelware especially since the manufacturers have co-operated with the retailers in selling aluminumware on a very close margin to encourage the people to use it freely-for instance, the convex sauce pan, 8-quart size, with cover which is in this lot, would have been an item worth from \$6.00 to \$8.00 retail a few years ago, when alum frum ware first came on the market, but the remarkably increased use of aluminum has enabled manufacturers to operate in tremendous quantities and we highly recommend this, not as the heaviest aluminum made (we sell Wear Ever, if you want a heavier grade), but as a practical weight for nearly everything that the ordinary household would require in cooking utensils.

However, \$2,000 a year isnt' so bad if one doesn't live in a large city where he is compelled to pay a hig rent for the luxury of living near many other people. In a small place, \$2,000 a year may bring every reasonable comfort. But how many who earn \$10,000 in a great city could earn \$2,000 in a village? Somehow, it appears that one must come pearer to delivering value in a small place than in a big one. Cities are centers of much useless activities.
