TO SAN JOSE, CALIFORNIA
To Resume Restaurant Business in Western City.
William Sullivan of Maple street will return next week to Chicago, Montana, where he was for many years in the restaurant business. When the business slump reached Montana, some two years ago Mr. Sullivan found that his business was gone. He also discovered that practically every business concern in that town became bankrupt. There are no manufacturing plants there.

TO CHIRCOO, MONT.
Chicagoites largely on the trade of farmers and ranchmen from the surrounding territory. They all come to Chircoo to do their merchandising, banking, etc. The business depression reached Montana considerably earlier than it did South Manchester. It is now found that business is returning there. Because of this, Mr. Sullivan is returning to the territory to which he has become dearly attached. He likes Montana very much and finds work there plentiful. He intends to reenter the restaurant business there, soon and see if he can make it as profitable as he did for the 14 years in which he conducted that business there.

### Did You Ever Stop to Think

THAT if business is falling off, you should stop right out of the rut and increase it by the right kind of ADVERTISING.

THAT getting the business is not always a selfish proposition. Modern business entails a certain amount of service that is of as much interest to the buyer as to the seller.

THAT you will find in the stores of your town the obliging clerks, the ones who greet you with a smile, who wait on you courteously, solicitous of your every wish, who answer your questions patiently, who are willing to take the trouble to supply any information wanted, they help to make better business.

THAT "mail order" houses succeed because they advertise. You can beat them at their own game by advertising in your local paper.

THAT many citizens would be pleasantly surprised if they were to investigate the various kinds and classes of merchandise obtainable in their town. With this knowledge, they could spend all their money at home. A DOLLAR SPENT IN YOUR OWN TOWN HELPS YOUR TOWN. A DOLLAR SPENT IN SOME OTHER TOWN, HELPS THAT TOWN. BUY AT HOME.

THAT your town is the best town in which to live. Don't hesitate to tell the world about it.

R. W. WATKINS, Secretary, SHAWNEE OKLAHOMA BOARD OF COMMERCE.

### MARKET GLEANINGS

Published by Putnam & Company 6 Central Row, Hartford, Conn.

The priority ruling of the Interstate Commerce Commission, which has caused a sharp decline in the general market yesterday. Toward the close, however, strength was displayed in such issues as U. S. Industrial Alcohol, American Can and Coca-Cola.

The market activity in the Railway shares was distributed partly to the favorable character of the June earnings statement now being published but also to the growing belief that the difficulties in the shipping's strike are gradually passing in to a stage which admits of settlement.

When the bond market the Fourth Liberty 4 1/2's went into new high ground and the Victory 4 1/2's added to the advance made Wednesday by the treasury's refunding announcement. This was the more striking in that the new offering with a 1928 maturity is now shown to bear only 4 1/2 per cent interest, not 4 1/2 per cent as incorrectly stated in Wednesday Washington's news dispatches.

The prospects for continuation of easy money which has made these operations practically unprofitable for the investor, the weekly Federal Reserve statement published yesterday afternoon, while addition of \$10,000,000 to the gold holdings brings the cash reserve to much the highest total ever reached the system's records, both on government and other collateral, are reduced \$61,000,000 further. They now stand at \$1,370,000,000 below the figure of a year ago last week, and the surplus of reserves to notes and deposits has risen to the highest percentage since May 1917, 38.6 per cent.

The report of Central Leather which closed yesterday showed a deficit after charges of \$399,000, and reflected continued stagnation in the early part of the second quarter over which this statement was made. The fact that hides are selling at a high price, and leather prices and increases in turn, notwithstanding adverse conditions in second quarter Central Leather reports a profit and loss deficit up to \$5,500,000. Showing in the third quarter will be better.

It is felt on the outlook for the latter half of the year is encouraging.

While industrial concerns are still feeling the results of depression and are limited to a very narrow margin of profit on the business they are doing, and so buying in these fields is still very cautious, the public utilities, on the other hand, are reaping the benefits of reduced costs and are showing greatly increased earnings.

Electric Light and Power companies seem to have before them an exceedingly bright future, and we recommend as a conservative and safe investment for funds this type of security.

Permanent Teeth. When your permanent teeth are all in place nature has finished her tooth job. You have your share of teeth and if you don't take care of them you will either have to do without teeth or use artificial ones. Who wants to do without teeth? Certainly you don't. Besides, it is not very pleasant to have them taken out. Your permanent teeth are a wonderful mechanism. They masticate your food, give shape and expression to your face and distinctness to your voice. The loss of even one tooth is a very serious injury, but the loss of more than one is a calamity. The longer you live the more you value your teeth.

On the bond market the Fourth Liberty 4 1/2's went into new high ground and the Victory 4 1/2's added to the advance made Wednesday by the treasury's refunding announcement. This was the more striking in that the new offering with a 1928 maturity is now shown to bear only 4 1/2 per cent interest, not 4 1/2 per cent as incorrectly stated in Wednesday Washington's news dispatches.

The prospects for continuation of easy money which has made these operations practically unprofitable for the investor, the weekly Federal Reserve statement published yesterday afternoon, while addition of \$10,000,000 to the gold holdings brings the cash reserve to much the highest total ever reached the system's records, both on government and other collateral, are reduced \$61,000,000 further. The report of Central Leather which closed yesterday showed a deficit after charges of \$399,000, and reflected continued stagnation in the early part of the second quarter over which this statement was made. The fact that hides are selling at a high price, and leather prices and increases in turn, notwithstanding adverse conditions in second quarter Central Leather reports a profit and loss deficit up to \$5,500,000. Showing in the third quarter will be better.

People in neighboring towns and cities of the Connecticut Valley are lamented greatly with a horde of mosquitoes. This is due largely to the continued wet weather. We are singularly free from this annoyance here. This is due to the fact that the sandy soil which allows water to percolate through freely and prevents it from being stagnant.

It is expected that the enactment of the new tariff law will prove a boon to the textile industry and furnish increased employment to the army of workers engaged in the manufacture of cloth.

The business depression which has prevailed in our country for the past three years, Chesney Builders have not lowered wages. They have been compelled to reduce the running time as they could not get a market for their products. There is a limit to the amount they can carry in their warehouses. With the return of a protective tariff Chesney Brothers hope to operate their large silk and velvet works on full time and this greatly adds to the earning capacity of their workers.
