ANNUAL BEDDING SALE

Fabric

A REAL "VALUE FIRST" SALE

Last year our special pre-seasonal bedding sale was announced a huge success in fact because of its phenomenal complete selling out there were many who failed to share in its choice values. This season adequate measures have been taken to render full service and satisfaction to those who await this event.

High grade mattresses, quilts, comforters and blankets, as well as a new and more comfortable showing of "ease and rest" assuring springs, all these items have been grouped in our bedding section for immediate disposal. Those who are first to take advantage of this special offering at this time will reap full benefit.

Special Offering \$4 50 of Pillows per Pr

electro-magnetic waves in the have been one source of many ers. The former, of course, prefers of his limited supply, an

difference between them is that the lengths of the waves are different. Every Motor Tested Severely

Particular care is devoted by Nash to the severe testing of the motor. Not only are various scientific tests applied to the metal as it goes from one stage to another, but also to the finished motor.

It is first extensively limbered up; then put under a load to develop any possible flaw in performance; next, disassembled and inspected, then reassembled and tested in the silent room for quietness; and, finally, given a road-test in the completed car.
