apan import large amounts from American producers.

It is generally conceded that the most important use that can be made of natural gas is for domestic Whether gas is of Whether gas is of Newspaper.

It is generally conceded that the part of which I was,"—From "The Iron Puddier," by James J. Davis.

The museum of Scotland yard has been reopened, but not to the public; only police officers and and others professionally interest-

made of natural gas is for domestic purposes. Whether gas is of greater economic value for the manufacture of carbon black than for other industrial purposes is a to the relative value of the Bible public; only police officers and and others professionally interested may view the greesome relics. Plaster casts of murderers' heads mestion that will depend on the and the Sunday paper, were made line the encircling shelves, and the where a large supply of natural great appeal in all good newspagar is avitilable.

The policy of the Bureau of Their stories are brief and well of hair from the head of Doctor The policy of the Bureau of Mines is that carbon black be made when gas is produced in isolated sections with no present or reasonably prospective market for gas being produced, when gasoline has been extracted, and when practical and modern and improved methods are used. At present there is considerable agitation for and against laws restricting the use of natural gas for the manufacture of carbon black. The matter has been the produced of considerable and modern and improved methods are used. At present there is considerable agitation for and against laws restricting the use of natural gas for the manufacture of carbon black. The matter has been the public of considerable agitation for and against laws restricting the use of natural gas for the manufacture of carbon black. The matter has been the policy of considerable agitation for and against laws restricting the use of natural gas for the manufacture as long as we have a givilization, while some newspapers are inclined to color their news and try to mold public sentiment into their way of thinking.

For You asked in the maybrick affair, locks of "hair from the head of Doctor Crippen's wife, and the pestle with which a woman was killed in a "all way carriage. Revolvers and knives abound, and there is a "put and take" top with which the some newspapers are inclined to color their news and try to mold public sentiment into their way of thinking.

For You asked in the last of "hair from the head of Doctor Crippen's wife, and the pestle with which as woman was "killed in a "put and take" top with which the spine and there is a put and take" top with which the some newspapers are inclined to color their news and try to mold public sentiment into their way of thinking the put and take" top with which the spine of the put and take "have a givilization, while some newspapers are inclined to color their news and try to mold public sentiment into their way of thinking the produced in the particle of the put and take "top with which the put and take "top with which th

of carbon black. The matter has heen the subject of considerable agitation and legislative consideration in the State of Wyoming. The carbon black industry has been established in Ponnsylvania for over forty years, and in West Virginia for more than tweaty years. The latter states still produces more than fifty per cent of the eptire and the produces of Mew Zesland often succumb to this disease because they rarely has peaced any laws restricting the man of natural gas for this purpose.
