Harry Collins, the style expert, has created twenty costumes for Mme Matsenauer of the Metropolitian Opera Company. The collection was so distinctly interesting that a private exhibition was given of it in Mr. Collins's showrooms to a number of guests. One of the most charming of the costumes was one designed for whites of 6 eggs. 1 tempon sods. Collins was of 6 eggs. 1 tempon sods. Collins and motives. It glistens with sapphires and emerald jew clist and it is time to great and sensible that any homemaker may profit by it.

Here is a bit of rhyme which seems of true and sensible that any homemaker may profit by it.

The hardest work you ever do is worrying about it;

What makes an hour resemble two is worrying about it;

The time goes mighty slowly when you goes might slowly when you goes mighty slowly

SEWING MACHINES - SECOND FLOOR

Two Carloads of Sewing Machines

AT EXTRAORDINARY REDUCTIONS FROM REGULAR PRICES

Nationally-Known "Domestic" and "Domestic-Make" Machines in a Tremendous Sale That Will Make Sewing Machine History for This Store

It's an ill wind taht blows nobody good. The Domestic Sewing Machine Company-one of the largest manufacturers of sewing machines in the country-made up a large order of machines for export trade, but owing to unsatisfactory conditions they were not shipped. In order to quickly dispose of the entire lot, the makers sold us two carloads of "Domestic" and "Domestic-make" Sewing Machines at a great sacrifice, enabling us to offer these high-grade machines at fully 25 per cent. below prevailing prices. Those wonderful values are offered here tomorrow, together with machines from our regular stocks at proportionate reductions.

We urge every prospective sewing machine buyer to consider before allowing the opportunity of this sale to pass. Come early for best choice. Some lots are limitted and will go quickly. Each Machine In This Sale Carries the Maker's Guarantee—and Is Sold On Terms of \$1

Weekly. So far as we are able to determine Sewing Machine prices will be, if anything, higher during the coming months. This great sale, then, brings bigger opportunity than even these sensationally low prices would seem to offer.

Sorosis Shoes

Out of the factories and laboratories of the A. E. Little Company, whence came the famous Sorosis Shoes, and the first and true orthopedic shoe, namely the Presscription Shoe, has now come this New Kind of Shoe.

Removing the Obstacle to Wearing Proper Shoes

article of apparel; on the other, an instrument of slow torture, wrecking one of the man delicate mechanisms of the body,—the foot. It has been stated that the wearing of impreer shoes has in 90% of our population resulted in distinct weakening of the foot structure. P tically every person coming to the physician for foot relief knows the great regional and a phylactic benefit of properly constructed shoes, but to the woman of today and to the averman, as well, broad toes and ungainly lasts are greater horror than suffering feet. Shoes to must possess STYLE. When the choice is between outraged feet and outraged fashion, jority of the people elect the former. With these facts as a working basis, the factories and pratories of the A. E. Little Company have worked in conjunction with orthope a shoe that compromises neither foot function nor the wearer's appearance. The result is

A. E. LITTLE SHOE

provides the style and smarthess without which a shoe can never have rea

In recommending the A. E. Little Shoe, the physicism is almost certain to have his orders carried out by patients. They will feel not embarrassed but truly promi to wear this trim, stylich aboe. They will feel not re-sentful but appreciative toward the physician for rec-ommending the aboe.

The largest and more general significance of inducing peo, le to wear proper shoes is also of growing

Many of the nation's important forces for welfare are actively Haing up to do battle for better feet. Millions of women are in poor physical condition, due to lack of wholesome exercise. They as much as they formerly did or should. Bad posture, shoes. Then, again, the lack of mental poise and composure, the wrought-up states of mind of many women, may be chargeable in some degree at least, to the aches and pains and muscular exhaustion which seize feet, ankles, legs and even backs when

THE A. E. LITTLE SHOE

shopping, walking or working.

THIS new shoe has come into being only after the most exhaustive re-Leading orthopedic authorities have given freely of their ideas. Every one of the company's retail Sorosis stores was turned into a field labratory, and foot measurements of every Sorosis wearer reported on a special blank. As a result, the following principles have been worked out and incorporated in the A. E. Lit-

The shock-absorbing construction of the human foot is similar to the shock-absorbing construction of automobile springs. Under strain or extra weight, the arch lowers and the foot lengthess, thus absorbing joits and jars that might be harmful to the whole body.

The makeup of this new A. E. Little Shoe gives a natural suspension to the stell-

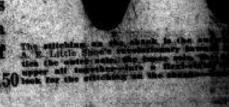

works with the functioning of the foot as Nature intends, and gradually restores the muscles to the proper condition. No arch supports are used, -nothing but the natural leather, but the soles, uppers and counters are sewed together through and through, no sag. This stitching is one of the secrets of the A. R. Little Shoe's construc-

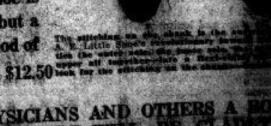

tion. It ties the parts together so that the arch of the shee cannot possibly say. It also makes possible a middle, as part at the inner sole, which throws the wright of the foot to the outside, as Nature integral. Those with other features, give the foot-constant, shookabsorbing support at each point This method of shee construction is a new idea. The A.E. Little Shoe is unlike any other shoe. Machinery had to be invested to do certain parts of the work, and one machine has taken more than twelve years to perfect.

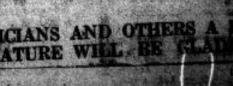

construction. The price, \$12,50 was for in

MAN'S FALL TOLD ON NEWLY DISCOVERED TABLET

(Brooklyn Eagle.) A learned student of comparative religions once said wittily that the ancient Hebrews borrowed their religious notions, their symbolism, their ritual as freely from Chaldeans or Babylonians and Egyptians as they borrowed the jewels and garments of King Pharaoh's subjects before going out into the iderness. His epigrammatic sugtion may have seemed irrevernt, but he could back it up by much analysis of the Law of Moses and perfectly fair comparison of the forms of religion outlined in the Pentateuch with those of older es cults. Also the belief that

loses was educated by the Egypamong students, even though demonstrative proof is lacking.

If Dr. Chiera of the University of Pennsylvania has actually deciphered a Babylonian tablet that is actually of the period of 2100 B. C. anguage and found it the excavathe fall of man as springing out of aspiration for the wisdom of the Diety and the eating of the foriden fruit of the Tree of Knowedge; if man is pictured as being riven from Paradise out into the esert by a jealous God to earn his read by the sweat of his brow; even though Eve does not appear and the serpent is eliminated and though the Prometheus notion of Adam merely adumbrated in the Mosiac books is made the central otion, the story is that of Genesis slightly modified. And as a service of the Flood is early Babylonian.

Now 2100 B. C. was about 180 years before the accepted date of the call of Abraham, and approximately 600 years before the accepted date of the promulgation of the law from Mount Sinai. It was 1,400 years before the Baby-
