GOING FORWARD

No better evidence of the progress of Manchester and the confidence of its people in the future of the town could be reflected than the showing of the building inspectors report for the past month.

The figures are most auspicious of a steady growth and a healthy condition. Permits for over two hundred thousand dollars worth of construction were granted during the month.

The largest item in the new school building of the eighth grade district. Future home owners come in for a sizeable amount of money.

There are also about twenty new houses under construction that people hereabouts are proud of. The showing is about what we expect that our townpeople are not sitting back waiting for prices to come down on either labor or materials but are going forward with confidence in themselves and in the future.

WHAT'S THE MATTER WITH THE BOYS? A peculiar feature of the annual graduation exercises of the South Manchester High School will be the fact that all the speakers will be from the girls of the class.

HELP THE HOSPITAL. The team workers for the Manchester Memorial Hospital Week lectured on their routine this morning and early reports were to the effect that the public was giving willingly and readily. As the sum to be raised is but \$25,000 it should not be a very big task to gather the amount within the week.

ESSE NON VIDERE. By George Matthew Adams. "Be, not seem to be." It is the motto of the day. It is the motto of the day. It is the motto of the day.

There are many people whom we are always glad to see. It is not that we are glad to see them, but that we are glad to see them in the same state of mind.

The Margin of Safety

Bridge builders and construction men will tell you that a beam is always made a little stronger than the heaviest weight that it will ever be asked to bear.

The Savings Bank of Manchester

You may be "getting along all right" on your present income, but how about the margin of safety?
