NATION'S RAILROADS
ARE DOING BIG BUSINESS

Washington, July 11.—The
railroads of the United States are
doing more business now than
they ever did before in their history.

Additional evidence of this fact
was produced today by the Ameri-
can Association of railroads, which
announced that loading and unloading
of freight cars had increased 10 per
cent over last year.

Negotiations had been progressing
favorably for two weeks, when the
merchant attempted to fix a
definite price. The Soviet officials
then said they would wait a few days,
when they saw that no such agreement
had been reached.

The chief was trying to ar-
range a definite price, but as
such a deal could not be
done, the chief left.

Spokesman of the local club will
call the meeting at which the chief
will be present.

The South Manchester rifle club
will give away a beautiful
1911 Johnson .32 calibre revolver
at its range in the Wabash School
building.

Thursday night, July 12th, at
8 p.m. the club will hold a
draw for the gun.

In previous years the local club
has always enjoyed great success
in its draws in other towns and
had been unable to equal some of
the draws in other towns.

A week ago the club will
begin active practice on the outdoor
range on South Main street.

All the club members will be
held until N. E. A. rules as the
club is a member of the National
Rifle Association.

"Too hot for the job."

You believe that people follow
the same occupation in the next
world that they do on earth?"

"My mother-in-law went
into heaven to heaven."

LONDON WAITS BREAK OF BIG RUM SCANDAL

London, July 11.—London ex-
pectantly awaited today the de-
velopment of an interesting rum scan-
dal.

The Daily Express this morning
said that revelations might be
forthcoming through the courts
which might be called upon to de-
cide the division of profits among
the various syndicates of a rum-run-
ning syndicate.

The syndicate, which is said to
include a number of well known
men, at least one former member of
the royal family, has made
shameful gains of half million dollars
through its smuggling operations,
according to the Daily Express.

Guiding the syndicate's vessels
is the reverend son of the Duke of
Lancaster, the Earl of Kinnaird.

The Earl of Kinnaird, a for-
mer member of the Cabinet, He
will not however, get the various
members of the syndicate to agree
on an equitable division of the
profits.

As a result, the Express says,
some of those whose share does
not seem to them large enough
have made plans to break out.

THE LOCUSTS OF EGYPT

Representative Underhill of Massachusetts in a recent article entitled "The Hell of the State" pointed out some of the growth of bureaucracy within our government that is contributing heavily to the burden of taxation. He takes the following statement from his article: "It was established in 1924 with a \$70,000 appropriation, and up to 1922 cost the taxpayers \$8,000,000. This is merely the tip of the iceberg. The Representative Underhill showing how bureaucracy is spawning at the national capital and as The United public is becoming more and more aware of it, this school will enable men in the Navy to many ratings now open and which will be opening during the next fiscal year."

A college or high school education is not required for a man entering the Navy now but brains are necessary. When a man has been accepted he is sent to a training school for six months. After this he is transferred to that department and schooled for an appointment in that branch of the Service.

Conversation over the radio privacy by means of a semi-private process in transmission and decoding process in reception, the spoken word over the electric waves can keep free from outside listeners. This has crowned the efforts of engineers of the Bell telephone system in perfecting such apparatus, giving to the engineer a high degree of skill and knowledge. The use of radio for phone messages has long been considered undesirable due to the lack of privacy. The new system, however, has been installed in southern California, apt only with the mainland at Los Angeles, but the wireless can be switched into the elaborate main trunk lines of the telephone and connected to any point in the United States. David Sarnoff, General Manager of the Radio Corporation of America, says: "In world progress there is no interdependence and intelligence. With the growth and intelligence of radio, even into isolated communities, humanistic, educational and social possibilities come into view hitherto unimagined through no other agency."

Paris, July 12.—The secret of Stavridas is believed to have been found by M. Luc Gallicane, who recently made an inspection of the British Museum.

It is dated 1716 and undoubtedly comes from Rome. It contains the formula for the preservation of the vibrant qualities of wine.

According to the manuscript, the famous Cremona varnish has not a base of soft resin. Rather, amber dissolved in oil was used and set in the ordinary way, medics dissolved in alcohol with white modern vinegars are usually coated.

The manuscript is also valuable because of a formula for dissolving resin which chemists have been unable to discover.

WORD OF UNKNOWN ORIGIN

Scholars Can Only Guess as to
Whence Came the Name
Goethe Called Satan.

From time to time there has been considerable dispute concerning the origin of the word "Mephistopheles." Some very bizarre explanations had been proposed until the time of Goethe, who was himself forced to own to the musician Zoller, in a letter of November 20, 1829:

"I cannot give any definite answer to the question: 'Where comes the name "Mephistopheles"?' According to one theory it was a hybrid German-Hellenic formation of the words 'Mephisto' and 'Phœbus' (the Sun); and another that it was the name of two brothers, who were

united in a family of devils.

Lacrosse, Canadian National Sport, Is Being Popularized by Syracuse Now

Recent Visit of Syracuse Team to England Emphasizes Importance of Game in International Sportdom—Many Canadians on English Teams.

London, July 12.—Lacrosse has now come to the front as another important link in the chain of international athletics that is binding together the sportsmen of many nations.

The recent successful visit of English lacrosse teams served to emphasize the importance of the game as an international sport. The performances of the Syracuse team have brought a wave of popularity that was enjoyed by lacrosse before their visit.

So impressed have many Britishers been with the merits of lacrosse both from the standpoint of play and of organization that movement is on foot to further popularize it by forming a real "international" team to visit America and the United States is highly probable that such a team will journey across the ocean with the next year.

May Team. The project is being agitated by P. F. Gates, a former lacrosse player who is president of the Syracuse team here. Gates proposes to select a team comprised of members of the various organizations playing the game in England. Both he and the English team are the cream of British skill at lacrosse and undoubtedly would be able to give a good account of itself against individual teams in the United States. Gates or against a team similarly constituted representing the "all-star" talent of the American countries. A trove of international experience of the interested should be hung up as incentive to management of the games.

If a British team is sent to America next year, the plan would

Ramsey MacDonald, Labor leader who asked the formal question to which Premier Baldwin, with misgivings, was a reply, expects the note will be a reply, indicating the policy announced would succeed in its aims.

MINERS-OPERATORS DISPUTE STILL ON

No Hope for Early Agreement in Joint Conference at Atlantic City

Since the occupation of the Rhine, England has had trouble, especially toward the south, which has been and continues to be the major security for the peace of Europe.

Referring to the British position concerning a reparations proposal to Germany, Premier Baldwin said:

"We do not think that the suggestion of the German note will be accepted, as we are to assume the responsibility for unqualified unionism and a twenty per cent increase demand for reparations because of too much graft, or perhaps something else, and settle there."

"Dreadful Row" is on Terminal Island. It is a pleasure and pain to watch the trials of "Dreadful Row," he said, because the poor unfortunate long have been doing every port city has its "Dreadful Row."

The conferees discussed the miners' proposal again, and the chief of the miners' delegation, Mr. Edward G. Clark, was greeted with a round of applause.

The miners' demands are reasonable, but the miners' operators' demands are not.

After tomorrow's session of the committee conference it was expected an adjournment until July 23 would be agreed upon.

The miners' delegation will go from here to Witte Barre, for the district convention next week.
