MAKES PLEA FOR POPULAR CULTURE TO OFFSET "MATERIALISM OF THE AGE."

New York, July 28.—Peter Bishop is not interested in the "Pay-by-Check" system. In fact he is fed up with the song "Ding-Dong" with the paucity of that fruit. So when he heard James Home start to sing it he pushed him on the floor. The magistrate did not blame him.

A Service for Security Owners

Many security owners sustain losses, of more or less serious character, because they do not keep informed of developments affecting their holdings.

For example, on March 25th last, there were still outstanding Victory Notes valued at about \$80,000,000. These were due December 15, from which date interest ceased. The loss in interest to the holders was more than \$10,000,000.

Recently, the holders of more than half a million dollars of railroad convertible bonds, of low coupon rate, failed to convert their bonds into common stock within the time limit set. The result was a loss of more than \$200 a bond.

If you place your securities in the safekeeping of our Trust Department you obtain, in addition to vault protection, the many-sided services of our investment experts, who seek to keep you advised promptly of developments that may affect the value of your holdings.

We also attend to the collection of interest and principal for you.

Ask our Trust Department for detailed information as to the scope and cost of this service.
