Many Manchester Furniture Users Now Buy at Wholesale Prices

A few weeks ago we announced a change of selling policy. We told you, in order to gain a larger volume of business, we would sell furniture direct to the public at wholesale prices.

The news reached Manchester. Many came to our show rooms. The fine character and quality of our furniture surprised them. The prices—wholesale prices—astonished them.

Now we want YOU to learn where you can buy furniture at wholesale prices. We want you to visit our show rooms to examine carefully the furniture displayed on our floors, to acquaint yourself with our prices. You will at once realize what a tremendous money saving opportunity is now offered.

Please remember we have not cut quality nor have we cut prices down to make a "special sale." We simply "sell it for less," and this policy of wholesale prices to the public is permanent.

Study the prices shown here. They show but a few of the many articles we offer at equally low prices. You will easily understand why Garber Brothers announcement of wholesale prices to the public has created such widespread interest.

Garber Brothers' factory and show rooms are located in a large building on the north side of Morgan Street which is the wide street running from Main Street to the Boulevard bridge. The Manchester store is within a block of this building.
