"PAY-AS-YOU-PAVE"

That road should be paid for by the people who use them and not by the public. The roads should be paid for roads used than in the future, are the guiding ideas in the scheme now being tried in San Diego County, Calif.

The plan was agreed upon through its board of supervisors, to construct ten miles of highway, 20 feet wide, paved with concrete, on the "pay-as-you-pave" plan. The experiments in new highway construction in this county showed that such roads cost \$25,000 a mile, as compared with the forty-five cents and house plan usually adopted for road building financing in the Western States, California included.

The plan was invented after three years' study of road building by George Henton, treasurer of the county. Since its adoption, the first road has been laid, the second completed under it, and the plan found to work out exactly as predicted.

The plan is based on the conclusion that it is better to let the public to increase the tax rate for the purpose of obtaining funds for highway building than to increase the rate for interest on a paving bond. Since the other side of the ledger is lower, the increased one-half of that under the highway issue, the rate will be approximately one-half of that of the highway bonds they are paying; the bond issue is included in the rate of the highway bonds which by the time the bonds are paid have been worn out and rebuilt, not once but in all probability two or three times.

EARRINGS 7,000

YEARS OLD FOUND

Chillicothe, Ohio, Sept. 8.—Ernest E. Johnson, 20, found about seven years ago those familiar baubles—earrings—were all the rage right here in Ross County. When he started his tailoring business, they ran across a emerald brooch with 24 sets of ornaments keeping the remains close company. These ornaments of copper, bone, mica and silver were found in the same basket in which the remains are buried with pearls.

The ingenious mound-building Lothair had to hand with his narrow tool box, though, for the day's evidence required a different set for each occasion. Hour-glass and barrel shapes were the popular designs. Girls were particularly fond of the ornaments which had "hearts" or fathers, who possessed staggering incomes from tombstone factories. Several miles downstream were found as breast ornaments, also were found in the woods.

PERSHING STADIUM COSTLY FOR PARIS

Paris, Sept. 8.—Pershing Stadium will be built for the American Expeditionary Forces on the outskirts of Paris, some of the interred games after the armistice and afterward turned over to the French. The white elephant at the foot of the city fathers.

City officials asked M. Lejeune, guardian of the tomb of Napoleon, to manage the stadium, which is to be built at the cost of \$100,000 a day, to include rent, the city receives only \$8 per cent of the present, the remainder being used for equipment, heating, lighting, etc.

Very few of the athletic clubs have been able to pay the rental, although the stadium is usually open during the day.

Parisians are not equal up to the mark.

Looking Backward

Local News Taken From The News of Twenty-Five Years Ago.

Rev. William McCrory will occupy the pulpit in the South Methodist church next Sunday. The Evangelical League prayer meeting will take place at six o'clock next Sunday evening. It will be chaired by Miss Cora Forbes, Harry Agard. The next meeting on Tuesday evening at the South Methodist church will be under the direction of William E. G. Moshenthal, who will lead the prayer meeting in the South Methodist church next Thursday evening.

A party of our local wheelmen will take a spin to Springfield, Mass., on Saturday afternoon. The Springfield Bicycle Club will run their second race meet this year on Monday, Sept. 10. The crack teams last but five minutes. There were fifteen men present in the room when the caucus opened including two newspapermen. Four more entered later. Eddie (Cannon) Alderman, champion sprinter of '96-'97, was shown to be John S. Kistler, a once prominent member of the Lem-eratic party, but having a position in the gold mining business. Eddie, John J. McCarthy, both of cigar stores, Mrs. Mary Healy, laundry woman, Charles Lachey, coffee pot, Nellie McLean, leather expert (Mrs. H. L. Gleason), sofa pillow, John Gill, set of chair mats, Robert McLean, soap bowl, Charles Lachey cash \$10, John Flanagan, soap and paint, Fred B. Horton, Delegates were given authority to make their own resolutions on the subject of mobility and social adaptability, and in segregating, under wholesome conditions, those who are permanently unfit for company with the rest of the world.

The outstanding meaning of the two men's endeavor is to eliminate the Mikadoism of "making the world pay for the sins of the past."

The springtime of the world.

As the news is sheeted to the world this year, other riders will follow. The springtime of the world.

—The springtime of the world.
