PENT-UP PASSIONS IN RUHR DUE TO EXPLODE

N. Y. STATE TROOPER SHOT DEAD BY BOOTLEGGERS EARLY TODAY

Krupp Director Warns
That Workers There Can-
not Stand Present Situa-
tion Much Longer—French
Don't Care About Restor-
ation, He Says.

Essen, Oct. 8.—A violent explosion of pent-up passions by the Ruhr workers seems inevitable, according to International News today. It was one of the few directing heads still in Essen and requested that his name not be mentioned.

"I do not believe Premier Poincaré has the slightest intention of putting the whole of Ruhr industry back in motion," he directed.

If the French really wanted reparation they had a chance of speeding industry up to normalize again, but after the German government discussed the cessation of passive resistance.

"France merely wants coal from the Ruhr—the rest of the Ruhr can go to the rest of France," said Dr. W. H. Wigard, of Waterford, Ireland, chairman of the Poincaré-Baldwin at their recent meeting in Paris reached an agreement upon the basis that France should receive the coal from the Ruhr and that the Germans in return the coal from the Poincaré (inside mining) would be allowed to drift into Ruhr and nibble.

"England has always been afraid of a magnification of French coal and German coal interests. England would be glad to kill German competition."

Thousands Face Death.
(Continued from page 2)

Pittsburgh, Pa., Oct. 8.—Lorenzo Savage, 21, alleged Negro police officer, is in Central Police Station here. A charge of first degree murder for the slaying of Miss Elsie Mae Williams, 19, was filed yesterday after he commented openly to the workers, especially the railroads, that they should enter Germany and that the longer he stayed in Germany the more coal the German miners could be compelled to dismiss thousands of workers almost immediately, as it became Berlin's payments to the coal miners were not enough.

"Our own firm (the Krupp) is now producing only thirty percent of normal capacity."

The situation is terribly confused.

Police here do not know what the French want and they know just as little what Berlin wants.

Admits French Victory.

Berlin, Oct. 8.—Premier Poincaré, who is the absolute dictator of France, is to be received by the Reichstag this afternoon openly to the workers, especially the railroads, that they should enter Germany and that the longer he stayed in Germany the more coal the German miners could be compelled to dismiss thousands of workers almost immediately, as it became Berlin's payments to the coal miners were not enough.

According to the economy office,

Mr. Barthel would become a hero in a few days if he had the same power over the economy of Germany.

The situation was termed "critical" by all.

President of the Reichstag, Dr. Otto von Bismarck, had advanced the vote of 16 to 17 had approved the

Authoritarian Law.

The "Authoritarian Law" approved by the Reichstag, and based in the Reichstag before virtually dictatorial powers upon the government, to take any financial, economic or social measures.

When the Reichstag was to vote on Saturday night, Savage told his associates that he intended to give himself up to the police, but when he got home he had no time to meet them.

Barber handed her the card in the
