NATIONAL TAXATION POLICY

Collier's Weekly has presented for discussion the national taxation policy proposed by a notable business leader and summarized below:

1. Taxes should be planned primarily for their social effect.

2. Every person should be encouraged to earn and invest as much money as possible during his lifetime.

3. Large fortunes should be broken up at death.

4. Abolition of inheritance taxes should be productive effect.

5. If we do this, tax-exempt securities will have no special value for tax-dodging. This would make unnecessary the amendment proposed above.

6. For a graduated tax on all gifts and inheritances, to be computed on the amount received by each beneficiary.

7. Exempt small gifts and legacies; tax lightly up to \$25,000; then heavily up to \$10,000,000 might pay as heavily as 50 per cent.

8. To prevent sudden depreciation in values, legatees of large sums should be given up to 15 years in which to pay the tax.

Nicholas Tolib gold his signature.

Silk Girl Bowlers Held Forth At Murphy's Emporium Last Night

Weaving No. 1, Main Office
and Velvet No. 3 Lassies
Come Through Winners

The sweet young things from the silk mills made a fay on the alleys last night, with satisfactory results to one and all. Six of the teams did their duets at the start, and then the girls in the six get their turn at the shortest possible notice, consistent with accuracy. One thing that should not pass without notice is the fact that Miss Hanna, who bowled the tenth box, was also the winner of the tenth box. She also got a win in the tenth box, which was rather high as her nearest rival was Miss McLean with the score of 230.

The score:
