DETECTIVES TRAIL SUTCLIFFE IN WEST

Albany, N. Y., Nov. 22.—Detective Edward J. Hickey of Hartford arrived here today and with the aid of Albany detectives, immediately began a search for "Doctor" George F. Sutcliffe of Unioville, Conn., alleged "Diploma Mill" physician.

Sutcliffe's arrest has been recommended by the Hartford Grand Jury. Several rooms houses where it was believed Sutcliffe might be stopping were visited but no trace of the alleged bogus doctor was found.

The Hartford, Conn., Nov. 22.—With the Extraordinary Grand Jury investigating Connecticut's alleged "Diploma Mill" frauds adjourned until next Monday, state authorities today were concentrating on the quest for "Doctor" George F. Sutcliffe, of Unioville, Conn., whose arrest was recommended by the Grand Jury yesterday just before it adjourned a three-day session.

The jury's action in directing State's Attorney H. M. Allen to proceed against Sutcliffe as an outlaw of allegiance has brought the death of Albert Hovey, an attorney who, while operating the operating table at an operation of either while Sutcliffe was amputating his crushed finger, was the first definite result of the probe. Hovey, who was made to locate Sutcliffe, an alleged proponent of the "Diploma Mill" at Albany last night, but police learned that he had left before without divulging his whereabouts. State's Attorney Allen indicated today that he would take Sutcliffe if he had to go all the way to Honolulu to do it.

The inquiry so far has uncovered so many varied angles to the alleged fraudulent medical diploma mills and trails leading into a dog's den state, that belief prevailed here the investigation would extend into next year.

An outcrop of the Sutcliffe affair was the removal yesterday from office of Dr. E. M. Ripley, medical examiner of Farmington, by Governor J. Gilbert Cabot, and said his action was the result of dissatisfaction with Ripley's responsibility for the death of Harold and falling to notify the coroner of the circumstances of the case.

A search for the New York agent of the "Diploma Mill" was being made in New York, Massachusetts and several other states. State's Attorney Allen said. Documentary evidence in possession of Allen is said to indicate that Arthur De Marco, who lived until recently with his brother, James De Marco, in the Elks' Club in New York city, was in control of the diploma ring's activities in New York. De Marco is a former resident of Worcester, Mass., and police there are vigilant.

WALTON IS ALL READY FOR NEW INDICTMENTS. Oklahoma City, Okla., Nov. 22.—Bond arrangements have been made and J. C. Walton, ousted governor, stands girded otherwise for preliminary bouts with grand jury indictments he confidently expected to be issued against him today. It is considered certain that the ex-governor will, if transferred his trial from Oklahoma county on the ground that prejudice and Klan influence would preclude a fair hearing here. Charges of bribery, grand jury discrediting and misuse of state funds are three matters to be probed by the grand jury.

At a recent meeting of alleged Klansmen, whose meeting was attended by unscrupulous newspaper reporters, in hiding, it was said that Lawrence's automobile was among those parked outside the home where the meeting was held.

RED MEN TO PUT THROUGH THREE DEGREES ON BIG CLASS

Expect to Raise Thirteen Candidates at Tinker Hall Tonight—Big Increase in Membership of Local Tribe.

Pagan agent Peter Venditti writes through the columns of the Daily News to announce that the Red Men hold their degree work tonight at Tinker Hall. They are having three degrees put through at this meeting. This is the first time in the history of that order that they have been compelled to do this. The large increase in membership during the past month has exceeded the expectations of the most sanguine. The local lodge is going into the inter-lodge contest that the Red Men are holding with zest and enthusiasm that is very remarkable for such an organization. They have a chance to top both of the 4th prizes that the supreme chief of the order is going for the lodge that wins the contest. The first prize is for largest percentage in gain and the silver 4th prize is for the largest net gain in membership. The lodge has outdistanced Rockville, their next dangerous rival. The Windy City tribe are not to be puffed aside without a struggle. They are going to fight hard, and believes every member of the Red Men in this town to put his shoulder to the wheel and help the good cause along.

There will be at least 13 candidates to go through the different initiations tonight. The following 13 men will go through the Red Men's degree this week: Joseph Stratton, Alex. Wilson, Donald Belett, Joseph Postland, John Layman, Joseph Prentiss, Walter "Happy" Mahoney, Sam Hewitt, Leslie O'Grady, Louis Grosver, George O'Connor, William Whelan and Geo. England.

CHARGE JAPS BURNED ALIVE 250 KOREANS

Washington, Nov. 22.—Charges of barbarous cruelty practiced on isolated Koreans by order of Japanese officials during the recent earthquake disaster in Japan, were cited today by the American State Department today by Dr. Floyd W. Tomkins, president of the Friends of Korea in America.

Tomkins, president of the Friends of Korea in America, said today that 250 Koreans were burned alive, according to the report filed with Secretary of State. "Evidence occurring during the Japanese earthquake again attracted attention to the justice of the Korean cause," said a letter from Dr. Tomkins to Secretary Hughes.

"Captain Hedstrom, assistant park superintendent at Yakohama, an American citizen who has lived in Japan for years, reports that the official order went out to kill as many Koreans as possible."

In furtherance of the order Tomkins is authority for the fact, as a witness, that on Sunday, Sept. 23, 1923, 250 Koreans were bound hand and foot, in groups of five, placed on an old junk (ship) covered with oil and burned alive.

"Another American citizen, W. H. Stevens, on Tuesday night, Sept. 25, hired an automobile to take himself, his wife, his sister in law, Mrs. Ethel Waitwright and George Ross, of New York to Nikko. The automobile was stopped by Japanese soldiers and Mr. Stevens and his party were compelled to witness the preparation for the execution of eight Koreans, who were to be shot. The soldiers apparently were then thrown into the highway, instead of shooting the Koreans as they were driven to that point. Many other instances of revolting cruelty can be laid before the department, Dr. Tomkins asserted."
