## FRANCE STARTS WITHDRAWAL OF TROOPS FROM RUHR BASIN

### Occupational Force in Western Germany to Be Reduced On Half — First Step of "Invisible Occupa- tion" — Luxembourg Evacuated

Paris, Dec. 31.—France has begun to withdraw troops from the Ruhr (the coal and iron area of Western Germany); it was officially announced today, but the withdrawal will not be executed until France is satisfied with the reparations to be received.

A foreign office statement said that during the present month three French regiments have been recalled from the Ruhr.

It is assumed that this is the first step in France's new policy of "invisible occupation."

To Reduce Force On Half  
According to the statement, the occupational forces will be reduced one half leaving only one army corps of three divisions. One will be stationed at Düsseldorf, one at Essen and one in Dortmund. The Franco-Belgian military headquarters will be maintained at Brussels.

"Invisible Occupation" Promised  
France had previously promised "invisible occupation" under certain conditions and the question was again brought up when direct negotiations were opened between Berlin and Paris.

By "invisible occupation" is meant the reduction of French and Belgian occupational forces to a minimum where their presence will not irritate the civilian population of the occupied areas of Germany. Under invisible occupation it is likely that the German police may be brought back—at least part of them—to maintain order.

French and Belgian troops occupied the Ruhr just one year ago lacking 10 days. Since that time the two armies have been withdrawn from time to time.

Luxembourg Evacuated  
Paris, Dec. 31.—French troops have evacuated Luxembourg, the little state lying between France and Germany, it was officially announced today. Luxembourg was occupied at the end of the war at the request of the Luxembourg government.

Masley told police his wife deserted him 10 days ago. She took her children with her. He followed.

"I found her living with Greenleaf here," Masley said. "I waited until after dark to make sure it was right. Then I killed her."

After the shooting, Masley walked to police headquarters and surrendered.

Watch Night service will be held at the South Methodist church this evening at 10:30 o'clock, to which the public is invited.

GRETING THE NEW YEAR

For a newspaper reporter in the daily life, it is not so much encouraged by the support it has received during the year which will soon step down the corridor of time...

"Tempus fugit" There is no reason, however, why we should be dissatisfied at the flight of time. We are here to enjoy our lives...

That's the way New Year's spirit, the spirit of a new beginning, a new start, a new hope...

PEAK LAWS AND "HOLD UP" THE NEW YEAR. The reason why we should wish an adieu to go on, "There are all necessary in life's education, and if there is the right kind of staff in us, they won't hurt us at all, they may become the best of us."

On the dawn side of the first day of the New Year, for a while the things that are lovely and lovable, let us face the east and work the people into a state of rest that bodes no good to the country...

THE NEW YEAR. The New Year is a time when we should wish an adieu to go on, "There are all necessary in life's education, and if there is the right kind of staff in us, they won't hurt us at all, they may become the best of us."

STATE DEPARTMENT SILENT ON CHINA

Washington, Dec. 31.—The state department today was without official information concerning the capture of Mr. and Mrs. Bernard Hoff, by Chinese bandits. It was said, however, that Jacob Gould Schurman, the American minister at Peking, had authority to deal with the situation as the events warranted without special instructions from Washington.

Outstanding reports of anti-American demonstrations have not been broken here during the past few days, but if there should be any outbreak of a serious nature, it is believed that the situation could be adequately handled in view of the presence of a full force of American marines in Chinese waters under the command of Rear Admiral Charles McDougal, who has already been granted parole for his part in the capture of the ship.

MEN'S LEAGUE HEAR OF NEAR EAST WORK

Dr. Doughty Tells of Big Undertaking in Saving Thousands from Starvation

Dr. William E. Doughty of New York, an associate general secretary of the Near East Relief, gave a very interesting speech before the Men's League of the Center Congregational church yesterday noon.

He has been talking on different subjects for the past 18 years and has traveled all over United States and Canada, besides visiting some of the principal countries in the world.

It remained for the Near East Relief to bring forth the largest amount of enthusiasm that has ever witnessed in one speaker.

The Near East Relief Commission says at the present time more than 60,000 orphans are in their hands.

Out of them all together and they would receive a space three times as large as the town of Manchester.

That is only a concrete example, showing what the Near East Relief is up against when it ministers to these 60,000 old, hungry orphans that have to eat and sleep and be clothed as all human people do.

Unless this is done, a great pestilence and plague would sweep all over Europe and destroy millions before their ravages have been minimized.

Giving a little now is the best way to save them. This old saw is very applicable to this situation, especially at this time of the year, with New Year only a day away.

The time to make a good resolution is now.

No favoritism. The orphans, mostly Armenians, with a few Greeks and Syrians, and a couple of Turks interpersed here and there, are cared for by the relief commission.
